ÖNSÖZ

Bir yabancı dili doğru öğrenebilmek için, öğreneceđimiz dilin kendine özgü kullanım kurallarını bilmenin önemi yadsınamaz. İngilizce'yi öğrenmek ve yetkinleştirmek de ancak Türkçe ve İngilizce dilbilgisini içselleştirip her iki dilin kullanım kuralları arasındaki ilişkiyi kavramakla olanaklıdır.

ENGLISH GRAMMAR INSIDE and OUT, Türkçe ve İngilizce'nin kullanım kurallarını bir arada düşündüren ve her iki dildeki kullanımları ilişkilendirerek kavramayı kolaylaştıran bir yöntemle hazırlandı. Anlatım kurgusunu tasarlarken iki dilin kullanım kurallarının yakınlıklarını, ayırım ve kesişim noktalarını olabildiğince kurallaştırmaya çalıştık. Kitapta yer verdiğimiz çok sayıda egzersiz ve "TEST YOURSELF" lerle kuralların kavranmasını ve pekiştirilmesini amaçladık.

ENGLISH GRAMMAR INSIDE and OUT'u hazırlarken özellikle, YDS, KPDS, ÜDS, İNGİLİZCE HAZIRLIK MUAFİYET SINAVI gibi aşağı yukarı aynı formatta hazırlanan sınavları temel aldık. ÖSYM'nin hazırladığı İngilizce sınavlarındaki soru formatı ile ilgili deneyimimizi genel olarak çalışmalarımızdaki titizliğimizle birleştirerek ürettiğimiz kitabımızın, bu sınavlara hazırlanan adaylar için farklı ve son derece yararlı bir kaynak olacağı inancındayız.

ENGLISH GRAMMAR INSIDE and OUT, ayrıca, Anadolu liseleri, İngilizce eğitim veren özel okullarla süper liselerin ara sınıfları ve liselerin dil sınıflarında da tamamlayıcı kaynak olarak kullanılmaya uygun olarak tasarlanmıştır.

ELS, 10 yıldır, yalnızca sınav kazandırmak değil, İngilizce'yi öğretmek ilkesiyle yayıncılık yapmaktadır. Bu kitabı da bu ilkeyle, 10 yılda biriktirdiklerimizin yansıdığı bir kaynak olarak sizlerin ilgisine sunuyor, katkı ve eleştirilerinizi bekliyoruz.

Sađlık, esenlik ve başarı dileklerimizle...

The English Verb Tenses

INTRODUCTION

WORD ORDER IN AN ENGLISH SENTENCE

İngilizce bir cümlede sözcük dizimi, Türkçe sözcük diziminden farklıdır. Türkçe bir cümlede yüklem cümlenin sonunda yer alır ve özneyi de içinde barındırır.

<u>Ben</u>	<u>İngilizce</u>	<u>çalışırım.</u>
Özne	Nesne	Yüklem
Subject	Object	Verb

Yukarıdaki cümleyi, "*İngilizce çalışırım.*" biçiminde de ifade edebiliriz ve ikinci cümlede özneyi açık olarak göremediğimiz halde, öznenin 1. tekil şahıs olduğunu yüklemdeki **-m** takısından anlarız. Bu durum İngilizce için geçerli değildir. Yani İngilizce bir cümlede yüklem özneyi belli etmez. Bu yüzden, cümleye özne ile başlamak zorundayız. Formüle edilmiş olarak İngilizce cümle düzeni şöyledir:

<u>Subject</u>	+	<u>Verb</u>	+	<u>Object</u>
Özne		Yüklem		Nesne

"*İngilizce çalışırım.*" cümlesini İngilizce'de, "*I study English.*" biçiminde ifade edebiliriz.

1-1 THE VERB "BE"

Sözcükleri rastgele bir araya getirerek cümle kuramayız. Cümle kurabilmemiz için mutlaka bir fiile ihtiyacımız vardır. "**Be**" fiili, "*come, go, study, eat, become*" vb. gibi asıl fiilimiz olmadığı zaman cümle kurmamızı sağlar. "**Be**" fiilinin şimdiki zaman ve geniş zaman biçimi aynıdır ve bu tense'lerle "**am, is, are**" biçiminde kullanılır.

Singular Subject Pronouns

I	am
You	are
He/She/It	is

Plural Subject Pronouns

We	are
You	are
They	are

I **am** always nervous before an exam. (*general*)

I **am** nervous now, because I'm taking an exam in half an hour. (*present*)

a) "**Be**" fiilini asıl fiil olarak kullanabileceğimiz başlıca üç kalıp vardır:

a) be + noun

I **am** a teacher.
They **are** students.
She **is** a Turk.
Today **is** Tuesday.

b) be + adjective

He **is** tall.
The world **is** round.
They **are** intelligent.
It **'s** very hot today.

c) be + prepositional phrase

They **are** at home.
Jane **is** from England.
She **is** at the bus-stop.
We **are** in the classroom.

b) "Be", yardımcı fiil olarak sürerlik bildiren tense'lerle de kullanılır.

I **am writing** now.
She **is reading** the newspaper.
They **are listening** to music.

1-2 THE PRESENT CONTINUOUS TENSE

FORM

Affirmative	Negative	Interrogative
I am writing now. You are reading a book. He/She/It is eating lunch.	I am not writing now. You are not reading a book. He/She/It is not eating lunch.	Am I writing now? Are you reading a book? Is he/she/it eating lunch?
We are listening to music. You are working hard. They are discussing their financial problems.	We are not listening to music. You are not working hard. They are not discussing their financial problems.	Are we listening to music? Are you working hard? Are they discussing their financial problems?

Olumsuz soruyu iki şekilde sorabiliriz.

Am I not trying to help you? or **Aren't** I trying to help you?
Are you not helping your mother? or **Aren't** you helping your mother?
Is she not studying English? or **Isn't** she studying English?

Are we not leaving for class now? or **Aren't** we leaving for class now?
Are you not watching the film? or **Aren't** you watching the film?
Are they not having breakfast? or **Aren't** they having breakfast?

SPELLING OF -ING

Sonu -e ile biten fiiller	<i>write writing</i> <i>shave shaving</i> <i>admire admiring</i> <i>amaze amazing</i> <i>hope hoping</i> <i>dine dining</i> <i>hide hiding</i> <i>ride riding</i>	Sonu -e ile biten fiillere -ing takısı eklenirken -e düşer.*
Sonu bir sesli harf +bir sessiz harfle biten fiiller	TEK HECELİ FİLLER <i>stop stopping</i> <i>run running</i> <i>beg begging</i> <i>rub rubbing</i> <i>sit sitting</i> <i>set setting</i>	Bu gruba giren tek heceli fiillerde, sondaki sessiz harf çift yazılır.
	İKİ HECELİ FİLLER a) <i>listen listening</i> <i>open opening</i> <i>happen happening</i> <i>ripen ripening</i> b) <i>prefer preferring</i> <i>begin beginning</i> <i>refer referring</i> <i>control controlling</i>	Vurgu 1. hecedeyse, sondaki sessiz harf tek yazılır; 2. hecedeyse çift yazılır.
Sonu -y ile biten fiiller	<i>study studying</i> <i>play playing</i> <i>reply replying</i> <i>buy buying</i> <i>try trying</i> <i>enjoy enjoying</i>	-y ile biten fiillere -ing takısı eklenirken yazımda değişiklik olmaz.
Sonu -ie ile biten fiiller	<i>die dying</i> <i>lie lying</i> <i>tie tying</i>	-ie -y'ye dönüşür ve -ing eklenir.
Sonu iki sessiz harfle biten fiiller	<i>stand standing</i> <i>start starting</i> <i>hold holding</i> <i>find finding</i> <i>spend spending</i> <i>bend bending</i>	İki sessizle biten fiillere -ing eklenirken yazımda değişiklik olmaz.

* Sonu -ee biçiminde biten fiiller -ing takısı alırken -e düşmez: *see-seeing, agree-agreeing, free-freeing*

1-3 USE OF THE PRESENT CONTINUOUS TENSE

- a) Bu tense ile temel olarak içinde bulunduğumuz anda yapmakta olduğumuz eylemleri anlatırız. Zamanı pekiştirmek için ise *now, right now, at the moment, at present, still* gibi zaman zarfları kullanırız.

Mother is in the kitchen now. She **is cooking** dinner.

- Where is your sister?
- I think she **is writing** a letter in her room.

Listen! They **are talking** about us. Can you hear what they **are saying**?

- b) Konuşmanın geçtiği sırada eylemi yapıyor olmasak bile, o sıralarda yapmakta olduğumuz işleri de bu tense ile anlatırız ve *nowadays, these days, this term, this year, this month, this semester, at the moment* ("şu sıralar" anlamında) gibi zaman zarfları kullanırız.

- How many courses **are you taking** this term?
- I **am taking** five courses.
- I haven't seen Peter recently. Have you?
- No, but I talked to him on the phone last Saturday. He is very busy these days. He **is redecorating** his house by himself.

- c) Değişmekte olan durumları, olayları bu tense ile anlatırız.

"Everything **is expensive**. (Her şey pahalı.)" cümlesi, fiyatların o anki durumunu anlatır. Fakat, "Everything **is getting** more and more expensive. (Her şey gittikçe pahallaşıyor.)" ifadesi, fiyatların sürekli değiştiğini, yükseldiğini gösterir.

It **is** cold. (Hava soğuk.)
It **is getting** colder. (Hava gittikçe soğuyor.)

The economic situation in Turkey **is** very bad.
(Türkiye'nin ekonomik durumu çok kötü.)
The economic situation in Turkey **is getting** worse.
(Türkiye'nin ekonomik durumu gittikçe kötüleşiyor.)

- d) Bu tense'i, "**always**" ve aynı anlamı veren benzer zarflarla (*perpetually, repeatedly, continually, forever, constantly*) kullanarak, tekrarlanan eylemleri vurgulayabilir, ya da yakınma ve hoşnutsuzluk ifade edebiliriz.

I **am always hearing** strange things about him.
You **'re always making** mistakes. Be more careful.
You **'re constantly smoking** at the dinner table. Can't you go somewhere else?

- e) Bu tense'i, *tomorrow, next week, next year, next summer* gibi gelecek zaman zarflarıyla, gelecekte yapmayı planladığımız eylemleri anlatmak için de kullanırız.

I **am meeting** Ann **next Saturday**.
They **are giving** a party **next month**.
She **is leaving** Istanbul **in two days**.

Örneklerde görüldüğü gibi, cümle yapı olarak şimdiki zamana, anlam olarak ise gelecek zamana aittir. Aynı kullanım Türkçe'de de vardır ve bu cümleleri Türkçe'ye, gelecek zaman ya da şimdiki zaman yapısında çevirmemiz mümkündür. Son örneği şu şekilde çevirebiliriz:

İki gün sonra İstanbul'dan **ayrılıyor**. (İki gün sonra İstanbul'dan **ayrılacak**.)

1-4 THE SIMPLE PRESENT TENSE

He **reads** a lot.
She **buys** a newspaper regularly.

Olumsuz cümlede ve soruda, yani "*does*" ya da "*doesn't*" bulunan cümlelerde fiil daima yalındır.

She **doesn't buy** a newspaper every day.
Does the cat **drink** milk in the morning?

"**have**" fiilinin üçüncü şahıs biçimi "**has**" dir. Ancak, soruda ve olumsuz cümlede fiilin yalın hali "**have**" kullanılır.

- **Do** you **have** a bath every day?
- Yes, I do. (I **have** a bath every day.)
- **Does** your son **have** a bath every day?
- Yes, he does. (He **has** a bath every day.)

1-5 USE OF THE SIMPLE PRESENT TENSE

a) Bu tense ile, genelde yaptığımız işleri, alışkanlıklarımızı anlatırız ve *always, sometimes, never, often* vb. sıklık bildiren zarfların yanı sıra, *every day, every month, every year, every summer* gibi zaman zarflarını sıkça kullanırız.

- What time do you **usually** get up?
- I **usually** get up at seven o'clock.
- Does she **always** get up early?
- Not **always**. She **sometimes** gets up very late.
- How often do you go to the cinema?
- I go to the cinema **every weekend/once a week/three times a year, etc.**
- How often does your brother write to you?
- He writes to me **very often**.

b) Frequency Adverbs (*Sıklık bildiren zaman zarfları*)

always	all the time (<i>hep, her zaman</i>)
almost always/nearly always	almost/nearly all the time, (<i>hemen her zaman</i>)
very often	(<i>çok sık</i>)
usually/generally	(<i>genellikle</i>)
often/frequently	(<i>sık sık</i>)
sometimes/occasionally	from time to time (<i>bazen, ara sıra</i>)
rarely/seldom	(<i>ender, nadiren, seyrek</i>)
hardly ever/scarcely ever/almost never	(<i>hemen hemen hiç</i>)
never	(<i>hiç, hiç bir zaman, asla</i>)

Yardımcı fiil bulunmayan olumlu cümlelerde bu zarflar asıl fiilden önce, yani özne ile yüklem arasında yer alır.

She **always** sings in English.
I **sometimes** feel depressed.
They **seldom** go to the theatre.

Bu zarflar "am, is, are" dan sonra gelir.

I **sometimes** go to work late./I am **sometimes** late for work.

Sıklık bildiren zarfların olumsuz cümledeki yeri değişiktir. **Always** daima olumsuzluk eki "not" dan sonra gelir.

I don't **always** get up early.
She doesn't **always** study very hard.
They aren't **always** late for class.

frequently, sometimes ve occasionally olumsuzluk ekinden önce gelir.

I **sometimes** don't want to be with people.
She **frequently** doesn't want to do her homework.
They **sometimes** aren't ready on time.
She **occasionally** isn't polite to the people around her.

NOTE

Birinci tekil şahıs için bu kural geçerli değildir. Zarf, yardımcı fiil "am" ile "not" arasında yer alır.

I'm **sometimes** not patient enough with children.

usually, generally ve often her iki durumda da kullanılır.

They **usually** don't go out on Sundays./They don't **usually** go out on Sundays.
We **often** don't watch TV./We don't **often** watch TV.
They **generally** aren't awake till 11 a.m./They aren't **generally** awake till 11 a.m.

rarely, seldom, hardly ever, almost never ve never olumsuz cümlede kullanılmaz. Bu zarflar sadece olumlu cümlede kullanılır, ancak olumsuz bir anlam taşır.

I **hardly ever** go to the theatre. (*Tiyatroya hemen hemen hiç gitmem.*)

I'm **hardly ever** nervous before an exam.
(*Bir sınav öncesinde neredeyse hiç heyecanlanmam.*)

She **never** comes to her classes on time.
She is **never** on time for her classes. (*Derslerine asla/hiç vaktinde gelmez.*)

Olumlu anlam taşıyan sıklık zarflarını (*usually, generally, often, frequently, sometimes, occasionally*) dilbilgisi kurallarına uygun bu kullanımlarının yanı sıra, cümlede vurguyu artırmak için, cümle başında da kullanabiliriz. Özellikle **sometimes** bu şekilde çok sık kullanılır.

Sometimes I get angry easily.
Occasionally I don't need to get up early.
Usually they spend too much money on luxuries.

Occasionally ve **sometimes**, cümle sonunda da yer alabilir.

I go to the theatre **occasionally**.
He is a bit lazy **sometimes**.

Often, özellikle *quite* ve *very* ile birlikte kullanıldığında cümle sonunda da yer alabilir.

We come to this restaurant **quite often**.
Do you catch colds **often**?
I don't watch television **very often**.

Rarely ve **seldom**, özellikle *only*, *very* ve *quite* ile birlikte kullanıldığında, cümle sonunda yer alabilir.

I eat meat **very seldom**.
She smokes cigars **quite rarely**.

NOTE

Always bu şekilde cümle başında ya da sonunda yer almaz.

Olumsuz anlam taşıyan sıklık zarfları (*rarely, seldom, hardly ever, scarcely ever, never*) cümle başına geldiği zaman cümle devrik olur.

I **never** eat fish. **Never** do I eat fish.
He **rarely** smokes. **Rarely** does he smoke.
You **seldom** make mistakes. **Seldom** do you make mistakes.
She **scarcely ever** visits us. **Scarcely ever** does she visit us.

Ever olumlu veya olumsuz soruda kullanılır ve *hiç* anlamını verir. Olumsuz cümlede *hiç* demek için **do not ever** yerine **never** kullanılır.

- Do you **ever** smoke?
- No, I **never** smoke.
- Don't you **ever** help your mother?
- Yes, I help her when I have time.

Water **boils** at 100 degrees centigrade.
Wood **floats** in water but iron **sinks**.

d) "What do you do?" sorusu kişinin neyle uğraştığını, işini sorar. Yani "What is your job/occupation?" sorusu ile aynı anlamdadır.

- What do you do? - What does your father do?
- I'm a teacher. - He is an accountant.

"What do you do?" sorusunu bir zaman zarfıyla kullanırsak, "sözü edilen zamanda ne yaparsın" anlamına gelir.

- What do you do **at the weekends**?
- I usually meet friends.
- What does your father do **in the evenings**?
- He reads his newspaper or watches television.

e) "Why don't?" kalıbı birine öneri getirirken kullanılır.

- I have a headache.
- **Why don't you** take an aspirin?
- We have nothing to eat at home.
- **Why don't we** go out for dinner?

NOTE

"Why don't you get up early in the mornings?"

"I can't because I usually go to bed late." ifadesinde, "Why don't you?" gerçek bir soru özelliği taşır ve kişi yanıt verilmesini bekler. Ancak:

"I'm too tired."

"Why don't you lie down and rest?" ifadesinde, "Why don't you?" yapı olarak soru olmasına karşın, kendisi bir yanıtır ve öneri getirir.

f) Sinema, tiyatro gibi etkinliklerin başlama ve bitiş saatlerini, ders programlarını ya da uçak, tren, otobüs tarifelerini belirtirken, geniş zamanı gelecek zaman anlamıyla kullanabiliriz.

The buses **start** at 6 a.m. and **stop** at 12 a.m. every day. (*simple present*)

A coach **collides** with a train in India: hundreds killed and hundreds more wounded. (=collided)

1-6 THE SIMPLE PRESENT or THE PRESENT CONTINUOUS

Şimdi bu iki tense'i karşılaştıralım.

a) Konuşmanın geçtiği anda ya da o sıralarda yapmakta olduğumuz işleri **Present Continuous** ile (*I am doing*); genelde yaptığımız işleri, alışkanlıklarımızı ise **Simple Present** ile (*I do*) ifade ettiğimizi belirtmiştik.

Father is in his room now. He **is resting**. (*now*)
Father always **rests** in his room in the afternoon. (*simple present*)

I want to concentrate on my studies, so I'm **not playing** volleyball this year.
I usually **play** volleyball at the weekend. I **don't play** on weekdays.

- b) **Live** ve **work** fiilleri ile sürekli oturduğumuz/çalıştığımız yeri ifade ediyorsak, geniş zaman kullanılır.

- Where **do** you **live**?
- I **live** in Istanbul.

- Where **does** your father **work**?
- He **works** for a construction company.

Ancak, geçici olarak ikamet ettiğimiz/çalıştığımız yeri şimdiki zamanla belirtiriz.

I moved to Istanbul last week, and I'm **living** with a friend for the time being.
His company sent him abroad for a month, and now he **is working** in Kuwait.

- c) Bazı fiiller sürerlik bildiren tense'lerle (*I am doing, I was doing, I have been doing, etc.*) kullanılmazlar. Bu fiiller, konuşma sırasında bizzat yapılmakta olan bir eylem (*action*) bildirmezler, durum ifade ederler.

"I'm writing now." ifadesinde, **write** fiili bir eylem bildirir. Yani benim şu anda yapmakta olduğum bir işi ifade eder.

"I know English." ifadesinde ise **know** fiili bir eylem bildirmez. Yani, kişinin yapmakta olduğu bir işi değil, statik bir durum bildirir.

Durum bildiren fiillerin **Simple Present** ve **Present Continuous** için kullanımları aynıdır.

When I get up in the morning, I **want** to drink coffee. (*simple present*)
I'm very thirsty. I **want** to drink something. (*now*)

People **need** money in order to live. (*simple present*)
I **need** some money. Can you lend me some? (*now*)

SPECIAL DELIVERY

A letter carrier once encountered a new resident who was disappointed because he didn't bring her anything from her daughter. She went on complaining about the ills of the Postal Service. The carrier listened to her patiently, and then he assured her that he'd personally deliver any mail from her loved one.

A few days later, as the letter carrier neared the same house, a young woman stepped out of a taxi. Glancing around uncertainly, she approached the carrier and showed him a piece of paper with a name and a street but no house number. Recognizing the new resident's name, he took the young woman to the house. Just then the elderly woman stepped onto her porch and, after a moment of stunned silence, rushed into her daughter's arms.

Tears of joy in her eyes, the mother told the letter carrier, "I still think you are slow with your regular mail, but you sure make up for it with your special delivery!"

One of the bikers said to the cashier, "Not much of a man, is he?" "He's not much of a driver either," she replied. "He just ran his truck over three motorcycles."

1-13 THE PAST CONTINUOUS TENSE

FORM

Affirmative	Negative	Interrogative
I was working. You were studying. He/She/It was eating lunch.	I wasn't working. You weren't studying. He/She/It wasn't eating lunch.	Was I working? Were you studying? Was he/she/it eating lunch?
We were laughing. You were talking. They were arguing.	We weren't laughing. You weren't talking. They weren't arguing.	Were we laughing? Were you talking? Were they arguing?

- Where **were** you **living** this time last year?
- I **was living** in İzmir.
- What **were** you **doing** at 9 p.m. last night?
- I **was watching** television.

1-14 USE OF THE PAST CONTINUOUS TENSE

- a) Bu tense'i, geçmişte belli bir noktada yapmakta olduğumuz eylemleri anlatırken kullanırız. *This time last year, this time last winter, at this hour yesterday, yesterday at 3 o'clock etc.* bu tense ile sık kullanılan zarflardır.

This time last summer, I **was lying** on the beach in Göcek, but now I'm working hard to finish this book.

What **were** you **doing** at around noon last Saturday?
I **was playing** football with friends.

- b) Geçmişte bir eylemi, başlangıç ve bitiş zamanını belirterek anlatıyorsak, **Past Continuous Tense** kullanırız. (Bu tür cümlelerde **Simple Past Tense** kullanmak da mümkündür.)

I **was watching** a film on television from nine until eleven last night.
He **was working** as an accountant from 1985 to 1989.

- c) **Past Continuous** (*I was doing*) ile **Past Tense** (*I did*) arasındaki kullanım farkına dikkat ediniz.

Eğer, geçmişte tamamladığımız bir eylemden söz ediyorsak **Simple Past Tense** kullanırız. (Önemli olan belli bir zamanda "*Ne yapıyordum?*" değil, "*Ne yaptım?*" dir.)

- What **did** you **do** last night?
- I **watched** television first, then I **studied** English.

Eğer, geçmişte tamamladığımız bir eylemi değil de, sözü edilen zamanda yapmakta olduğumuz işi anlatıyorsak, **Past Continuous Tense** kullanılır. (Önemli olan "*Ne yaptım?*" değil, "*Ne yapıyordum?*" dur.)

- What **were** your parents **doing** when you got home last night?
- They **were waiting** for me to eat dinner with them.

- d) Sürelik bildiren tense'lerle kullanılmayan fiiller (*non-progressive verbs*), **Past Continuous Tense** ile de kullanılmaz.

I already **knew** the news about him.
(Ben onunla ilgili haberi zaten biliyordum.)
She **thought** that I would go to the party as well.
(Partiye benim de gideceğimi zannediyordu.)
The flowers **looked** nice yesterday, but now they are fading.
(Çiçekler dün güzel görünüyordu, ama şimdi soluyorlar.)

- e) Geçmişteki alışkanlıklarımızı ya da sık sık yaptığımız eylemleri **Simple Past Tense** ile anlatırız.

I **went** to the cinema very often when I was at university.

Yukarıdaki cümleyi Türkçe'ye iki şekilde çevirebiliriz. "*Üniversitedeyken sinemaya çok sık giderdim.*" ya da "*Üniversitedeyken sinemaya çok sık gidiyordum.*" Bu cümledeki "*gidiyordum*" ifadesi ilk anda Past Continuous Tense gibi görünse de, geçmişte belli bir noktada devam etmekte olan bir eylemi değil de, genelde olan bir eylemi anlattığı için **Simple Past Tense** kullanmamız gerekir.

When he was young, he **played** football in the school team. (*general in the past*)
When I saw him yesterday, he **was playing** football. (*a specific point in the past*)

f) WHEN and WHILE SENTENCES

Past Continuous Tense "**when**" ve "**while**" cümlelerinde çok sık kullanılan bir tense'dir. Geçmişte devam etmekte olan bir eylem sırasında bir başka eylem olmuşsa, bu durumu şu cümlelerle ifade ederiz.

I was eating dinner **when the guests arrived**. (*Konuklar geldiğinde yemek yiyordum.*)
I hurt my leg **while I was playing football**. (*Futbol oynarken bacağıma incittim.*)

WHEN

- I. "**When**" ile kurulmuş bir zarf cümlecığı (*adverbial clause*), genellikle temel cümledeki (*main clause*) eylemin devam etmekte olduğu zamanı açıklar. "*Bir eylem olduğunda bir başka eylem oluyordu*" biçiminde bir anlam taşır. Bu nedenle "**when**" in bağlı bulunduğu cümlede **Simple Past**, temel cümlede ise **Past Continuous** kullanılır.

When he came in, I was studying. (O içeri girdiğinde, ben ders çalışıyordum.)
adverbial main
clause clause

I **was reading** when he **came in**. (O geldiğinde, ben kitap okuyordum.)
When I **went** out, it **was raining**. (Dışarı çıktığımda yağmur yağıyordu.)
They **were arguing** when I **entered** the room. (Odaya girdiğimde, tartışıyorlardı.)

When + Simple Past, Past Continuous

II. "When" arka arkaya yapılmış eylemleri anlatmak için de kullanılır. Bu durumda her iki cümlelerin de tense'i **Simple Past**'dir.

When he **arrived**, we **went** into the cinema.
(First he came. Then we entered the cinema.)
(O gelince, sinemaya girdik.)

When he **left** work, he **got** on a bus and **went** home.
When the teacher **asked** a question, I **raised** my hand to answer it.

When + Simple Past, Simple Past

WHILE

I. "While" cümlecığı genellikle, temel cümledeki eylem sırasında devam etmekte olan bir başka eylemi anlatmak için kullanılır. Bu nedenle, "while" in bağlı bulunduğu cümle **Past Continuous**, temel cümle ise **Simple Past**'dir.

While I was studying, he came in. (Ben ders çalışırken o geldi.)
adverbial main
clause clause

I **left** home while my parents **were sleeping**.
I **took** a photograph while you **weren't looking**.

While + Past Continuous, Simple Past

NOTE

Bu tür cümlelerde "while" yerine "when" kullanmak da mümkündür, ancak "while" kullanımı daha yaygındır.

When/While I was walking home from work, I bumped into an old friend on the street.

Very often, stray dogs and cats are hit by cars **when/while** they are crossing the street.

Yesterday, a stray dog was nearly hit by a car **when/while** it was crossing the street.

- II. "While" cümlecığı, temel cümledeki eylemle aynı anda olan bir eylemi anlatmak için de kullanılır. Bu durumda her iki cümle de **Simple Past Tense** ile kurulur.

I **sang** while I **washed** the dishes. (Bulaşıkları yıkarken şarkı söyledim.)
She **watched** me while I **made** the cake. (Ben kek yaparken o beni izledi.)
I **waited** outside while she **had** an interview.
(O görüşme yaparken ben dışarıda bekledim.)

While + Simple Past, Simple Past

- III. "While" birbirine paralel devam eden iki eylemi anlatmak için de kullanılır. Bu durumda her iki cümlede de **Past Continuous Tense** kullanılır. "While"ın bu biçimde kullanımıyla genellikle yakınma, içleme gibi duygular ifade edilir.

While the teacher **was lecturing**, the students **were talking** among themselves.
(Öğretmen ders anlatırken öğrenciler kendi aralarında konuşuyorlardı.)

I **was studying** while everybody at home **was sleeping**.
(Evinde herkes uyurken ben ders çalışıyordum.)

While + Past Continuous, Past Continuous

- IV. "While" ile aynı anlamı veren bir diğer bağlaç "as" dir.

While/As I was coming here, I ran into an old friend.
I had a look at the old magazines **while/as** I waited at the doctor's.

"Just as", daha vurgulu bir anlatımdır.

The postman came **just as** I was leaving home.
(Tam ben evden çıkarken, postacı geldi.)

Just as I sat down at the table, the phone rang.
(Tam masaya oturdum ki telefon çaldı.)

- g) **Past Continuous Tense**, "always, continually, forever, etc." gibi zarflarla, (Present Continuous Tense'de olduğu gibi) sürekli tekrarlanan eylemleri ya da yakınma ifade etmek için de kullanılır.

You **were forever reading** books when you were a child.
I **was always making** mistakes when I was in primary school.

- h) Resmi ortamlarda nazik bir biçimde soru sorarken ya da ricada bulunurken, özellikle "hope" ve "wonder" ile **Past Continuous Tense** çok sık kullanılır. Bu tür cümlelerde *past* bir yapı kullanılmasına rağmen, anlam *present*'tir.

- I **was wondering** if you could help me fill in this form.
- Certainly, Madam. Which section do you have difficulty understanding?
- I **was hoping** you could give me a lift to the airport.
- Of course. One of our representatives will drive you there after the meeting.

A guy elephant took his girlfriend - an avid movie fan - to a film opening. While she waited in the lobby, he went off to buy a couple of bags of popcorn. An aggressive rhinoceros approached the pretty elephant and introduced himself. "Hi," he said smoothly. "My name is Neal." The elephant trumpeted loudly and fainted. In the confusion, the rhino fled. The guy elephant rushed up to his girlfriend. "What happened?" he asked. She batted her eyelids and answered, "I just met Rhino Neal!"

1-15 THE PRESENT PERFECT TENSE

FORM

Affirmative	Negative	Interrogative
I have watched that film. You have seen him twice. He/She/It has eaten lunch.	I have not watched that film. You have not seen him twice. He/She/It has not eaten lunch.	Have I watched that film? Have you seen him twice? Has he/she/it eaten lunch?
We have invited her. You have worked hard. They have visited us.	We have not invited her. You have not worked hard. They have not visited us.	Have we invited her? Have you worked hard? Have they visited us?

Bu tense'i oluşturmak için **have/has + past participle** (*fillerin üçüncü hal*) kullanılır. **Have/has** ve **have not/has not** genellikle kısaltılmış olarak kullanılır.

I've **seen** that film before./You **haven't seen** that film.
He's **seen** that film twice before./She **hasn't seen** that film yet.

Olumsuz soruyu iki şekilde sorabiliriz.

I. Kısaltma yapmadan:

Have you not seen that film yet?/**Has she not seen** that film before?

II. Kısaltma yaparak:

Haven't you seen that film yet?/**Hasn't she seen** that film before?

1-16 USE OF THE PRESENT PERFECT TENSE

a) Geçmişte yaptığımız eylemleri zaman vermeden anlatıyorsak, bu tense'i kullanırız.

She **has removed** all the furniture in the house.
They **have painted** their house.

Ancak, aynı eylemleri zamanı belirterek ifade edersek, **Simple Past** kullanmamız gerekir.

She **removed** all the furniture in the house **last weekend**.
They **painted** their house **a few weeks ago**.

Geçmişte yaptığımız eylem için zaman zarfı kullanmasak bile, eğer zamanı ima ediyorsak, yine **Simple Past** kullanırız.

"I saw that film when I was in Ankara." cümlesinde kesin olarak bir zaman vermesek de, "when I was in Ankara" geçmişte belli bir dönemi ifade etmektedir.

I **went** shopping after work. ("after work" belli bir zamanı belirtmektedir.)
I **met** him in İzmir. ("in İzmir" ifadesi yer belirtmesine karşın, "İzmir'de bulunduğum dönemde" anlamını ima etmektedir.)

Present Perfect Tense ile sorulan sorulara yanıt verirken, yine bu kurallara dikkat etmeliyiz.

- **Have you met** his girlfriend?
- Yes, I **have**. (or No, I **haven't**.)

- **Have you met** his girlfriend?
- Yes, I **met** her **last week**. (or I **met** her **at Alice's party**.)

- **Have you seen** my glasses?
- Yes, I **have**. (or No, I **haven't**.)

- **Have you seen** my glasses?
- Yes, I **saw** them on the kitchen table **a few minutes ago**.

b) Yakın geçmişte olup sonuçları ya da etkileri içinde bulunduğumuz anda devam eden eylemler için bu tense'i kullanırız.

I **have burnt** myself. (I'm in pain now. - Şu anda acı çekiyorum.)
I **ve cleaned** the house. (It's clean now.)

- (meeting a friend in the street)
- You **ve cut** your hair!
 - Yes, I went to the barber's last week.

c) *Today, this morning, this week, this month, this year, this century* vb., henüz tamamlanmamış bir dönem ifade eden zarflarla bu tense kullanılır.

I **ve been** to the cinema twice this week.
I **haven't been** able to go on holiday this year.
Technology **has advanced** greatly this century.

"*This morning*", "*this afternoon*" ve "*this evening*" ifadelerini kullanırken, saat kavramına dikkat etmemiz gerekir.

Genellikle saat 13:00'e kadar olan süre sabah (*morning*), 17:00'ye kadar öğleden sonra (*afternoon*), 17:00-20:00 arası ise akşam (*evening*) saatlerini bildirir. Bu durumda:

I **haven't heard** the alarm this morning.

ifadesini, sabah diliminin henüz bitmemiş olduğu bir saatte, örneğin saat 11-12 gibi söyleyebiliriz. Eğer öğleden sonraki bir saatte, örneğin saat 2'de bu sözü söylüyorsak, artık "sabah" dilimi tamamlandı yeni bir döneme geçilmiş olduğu için, o eylem geçmişte kalmıştır ve Simple Past Tense kullanmayı gerektirir.

I **haven't heard** the alarm **this morning**. (It's 11 a.m. now.)
I **didn't hear** the alarm **this morning**. (It's 2 p.m. now.)
I **ve seen** Tom **this afternoon**. (It's 3 p.m. now.)
I **saw** Tom **this afternoon**. (It's 6 p.m. now.)

HOW MUCH HE LOST

When the couple arrived in Las Vegas, the husband became fascinated by the plush casino and started betting on all the attractions. After four days, they had just two dollars left. "Let me go to the casino alone," the man told his wife. "I've got a feeling that I'll be lucky today."

Once downstairs, he went to the roulette table and put his last two dollars on No. 14, red. His number won. He continued betting and winning. Within an hour, he acquired \$50,000. Feeling that his luck was about to change, he picked up his chips and walked towards the cashier. Just before he reached her, he felt one final urge to bet. He went back to the roulette table and put everything on No. 10, black. The wheel spun round and round, and finally stopped on No. 12, red. Heartbroken, the fellow returned to his room.

"Well," his wife asked anxiously, "how did you make out?"

"I lost two dollars."

1-20 THE PAST PERFECT TENSE

FORM

Affirmative	Negative	Interrogative
I had finished my work. You had studied hard. He/She/It had eaten lunch.	I had not finished my work. You had not studied hard. He/She/It had not eaten lunch.	Had I finished my work? Had you studied hard? Had he/she/it eaten lunch?
We had seen the film. You had helped her. They had heard the news.	We had not seen the film. You had not helped her. They had not heard the news.	Had we seen the film? Had you helped her? Had they heard the news?

Bu tense'i oluşturmak için **had + past participle** kullanılır. "*I had, We had, She had, etc.*" yerine kısaltılmış olarak "*I'd, We'd, She'd, etc.*" yapılarını kullanabiliriz.

She **had** just **eaten** lunch.

I **hadn't finished** my test when the bell rang.

I **had** already **finished** my work when the guests arrived.

I didn't want to go to the cinema, because I **d seen** the film before.

1-21 USE OF THE PAST PERFECT TENSE

a) **Past Perfect Tense**, Present Perfect Tense'in **past** biçimidir.

Present: I am not hungry. I **have just eaten**.

Past: When I went home, I wasn't hungry, because I **had just eaten**.

Present: I **have never seen** a kangaroo before.

Past: When I went to Australia last year, I saw a kangaroo there. I **had never seen** a kangaroo before.

Present: I don't want to see that film. I **ve already seen** it.

Past: I didn't want to go to the cinema with my friends. I **had already seen** the film.

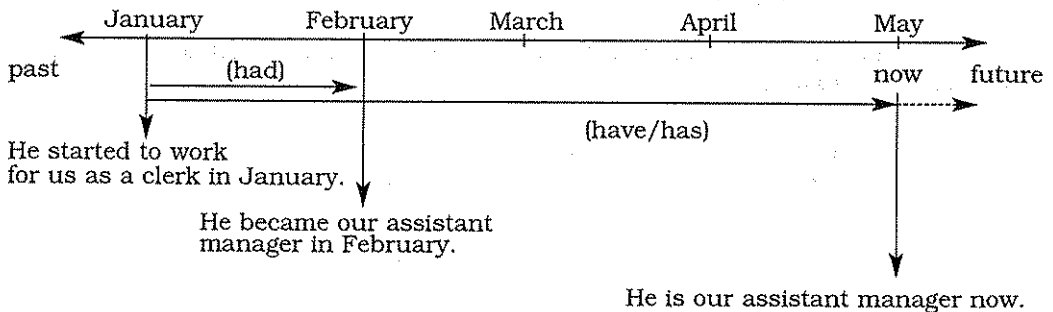

Present: I can't go out with you now. My daughter **hasn't come** back from school **yet**.

Past: I couldn't go out with them, because my daughter **hadn't come** back from school **yet**.

b) **Since, for, always, etc. gibi zarflarla kullanımı:**

Since, for, always gibi zarfların, **Present Perfect Tense** (*I have done*) ile kullanıldığını ve geçmişte başlayıp içinde bulunduğumuz ana kadar devam eden ya da içinde bulunduğumuz anda da devam etmekte olan eylemleri ifade ettiğini görmüştük. *Since, for, always* gibi zarflar, **Past Perfect Tense** (*I had done*) ile de kullanılır. Ancak bu kez, geçmişte başlayıp yine geçmişte bir noktaya kadar devam etmiş olan eylemleri anlatır.

1-22 PRESENT PERFECT or PAST PERFECT

He **has been** our assistant manager **for three months**.

Before that, he **had worked** for us as a clerk **for a month**.

MORE EXAMPLES:

We were going to meet in front of the cinema at 2 p.m. yesterday. I arrived there at 2p.m. sharp, but she **hadn't come** yet. When it was 2.30 and she still **hadn't come**, I gave up waiting and went into the cinema.

Yesterday, the traffic was heavy, and it took me a long time to get home. When I arrived home, my parents **had** already **eaten** their dinner.

Last year, he made a very bad mistake at work, but his boss couldn't dismiss him just for that. He **had worked** there for ten years and **hadn't done** anything wrong before then.

Past Perfect Tense, geçmişte belli bir noktada olmuş olaylardan söz ederken, daha geçmişte olmuş eylemi vurgulamak için de kullanılır.

When I saw her again ten years later, I found her greatly changed, both physically and mentally. She **had dyed** her hair blond and **had got** thinner. She **had left** her parents and **had started** to earn her own living.

When her marriage was breaking up, she remembered her father's words. He **had warned** her against the difficulties of taking on the responsibility of marriage, and he **had told** her that she was too young to face them. She **hadn't listened** to him then and **had got** married. She now realized how right he **had been**.

Ancak, amaç geçmişteki olayları sadece akış sırasına göre vermekse, **Past Perfect** kullanmak gerekmez.

She **wanted** to get married when she was only eighteen. Her father **objected** to it. He **warned** her against the difficulties of taking on the responsibility of marriage at such an early age, but she **didn't listen** to him and **got married**.

Bazı durumlarda ise **Simple Past** ya da **Past Perfect** kullanılması anlam değişikliğine yol açar.

1. When we arrived at the farm house, I **warned** her to beware of the dog. (Çiftlik evine varınca, köpeğe dikkat etmesi için onu **uyardım**.)
2. When we arrived at the farm house, she was cautious. I **had warned** her to beware of the dog. (Çiftlik evine vardığımızda, tedbirliydi. Köpeğe dikkat etmesi için onu **uyarmıştım**.)

Yukarıdaki cümlelerden birincisinde "uyarma" eylemi çiftlik evine gelince, ikincisinde ise gelmeden önce yapılmıştır.

When I arrived at the party, Chris **left**.
(First, I arrived. Then Chris left, so I **saw** him.)

When I arrived at the party, Chris **had left**.
(First, he left. Then I arrived, so I **didn't see** him.)

While I was coming here, I saw an accident. A car **had run** into a cyclist.
(I **didn't see** the accident happen.)

While I was coming here, I saw an accident. A car **ran** into a cyclist.
(I **saw** the accident happen.)

1-23 SIMPLE PAST and PAST PERFECT TENSES in TIME CLAUSES

Bu tense'leri zaman bağlaçlarıyla kullanırken, eylemlerin geçmişteki oluş sıralarını dikkate almamız gerekir. İki eylemden daha önce olanını **Past Perfect** ile, daha sonra olanını ise **Simple Past** ile ifade edebiliriz.

First: She cleaned the house. **Second:** The guests arrived.

After she **had cleaned** the house, the guests **arrived**.
Before the guests **arrived**, she **had cleaned** the house.
She **had cleaned** the house when the guests **arrived**.

a) **With after:**

After + Past Perfect, Simple Past
Simple Past

After she **had graduated** from university, she **went** to England.
After we **had travelled** on a coach for ten straight hours, we **continued** our journey by horse to get to the mountain village.

"After" in bağlı bulunduğu cümle, cümlenin sonunda da yer alabilir.

She felt better **after she had taken an aspirin**.
After she had taken an aspirin, she felt better.

"After", geçmişteki iki eylemden daha önce olanını ifade ettiği için, bağlı bulunduğu cümlede normalde Past Perfect kullanılır. Ancak "after", eylemlerin sırasını zaten belirttiği için, Past Perfect yerine Simple Past da kullanabiliriz. Bu durumda anlam değişmez.

After she **graduated** from university, she **went** to England.
After we **travelled** on a coach for ten straight hours, we **continued** our journey by horse to get to the mountain village.

b) **With before:**

Before + Simple Past, Past Perfect
Simple Past

"Before" un bağlı olduğu cümle, geçmişte yapılan iki eylemden, daha sonra yapılamı ifade ettiği için, "before"lu cümlede **Simple Past**, temel cümlede ise **Past Perfect** kullanılır. Ancak "before" da "after" gibi eylemlerin sırasını belirttiği için, temel cümlede Past Perfect yerine Simple Past da kullanılır.

Before she came to live in this city, she **had lived** in İzmir.
Before she came to live in this city, she **lived** in İzmir.

I **had finished** my exam paper before the bell rang.
I **finished** my exam paper before the bell rang.

"Before" un bağılı bulunduğu cümledeki eylemin tamamlanmış olduğunu vurgulamak için, özellikle *finish*, *complete* gibi fiillerle, **Past Perfect** kullanmak mümkündür.

The teacher **didn't let** anyone out before all the students **had finished** the test. The other students **finished/had finished** the test before I **had even completed** half of it.

Before	+	Past Perfect,	Past Perfect Simple Past
--------	---	---------------	-----------------------------

c) With **till/until**:

Till/Until	+	Simple Past, Past Perfect	Simple Past
------------	---	------------------------------	-------------

I didn't interrupt him until/till he **finished** his speech.
had finished

I didn't speak to him until/till he **spoke** to me.
had spoken

"Until/till" ile Past Perfect kullanımı çok yaygın değildir. Ancak, yan cümledeki eylemin temel cümledeki eylemden önce tamamlanmış olduğunu vurgulamak istersek, Past Perfect kullanabiliriz. Aksi takdirde, Simple Past kullanmamız yeterlidir.

They **didn't leave** the office until I **had completed** my report.
(They left after I had completed my report.)

She **didn't give up** studying prepositions until she **had learnt** them by heart.

"Till/Until" ile kurulmuş bir cümlede, Past Perfect Tense'in *never*, *always*, *once*, *in his life* gibi zarflarla kullanımını göz önüne alarak, temel cümlede **Past Perfect** kullanmak mümkündür.

Until I saw one in Australia last year, I **had never seen** a kangaroo.
The teacher **had always been** patient with us until we made her furious yesterday.
The students **hadn't ever heard** of that author until I mentioned him.

Till/Until	+	Simple Past,	Past Perfect
------------	---	--------------	--------------

d) With **as soon as/once**:

As soon as Once	+	Past Perfect, Simple Past	Simple Past
--------------------	---	------------------------------	-------------

"As soon as", temel cümleyle yan cümlenin eylemleri arasında geçen zamanın çok kısa olduğunu vurgular. Eylemleri oluş sırasına göre dizdiği için, **Past Perfect** kullanmak zorunlu değildir. Ancak birinci eylemin tamamlandığını vurgulamak amacıyla, **Simple Past** yerine **Past Perfect** kullanabiliriz.

As soon as the guests **left/had left**, I **went** straight to bed.
I **went** to see her as soon as I **heard/had heard** the news.
The students **burst** into laughter as soon as the teacher **left/had left** the classroom.
As soon as they **found/had found** a better house, they **sold** their old one.
We **decided** to go shopping as soon as the rain **stopped/had stopped**.
(Yağmur diner dinmez alışverişe çıkmaya karar verdik.)

"Once", as soon as ve after anlamı veren bir bağlaçtır ve çoğunlukla, bağlı bulunduğu cümlede Perfect Tense'ler kullanılır.

Once I'd found out where he lived, I went to see him.
She made herself a cup of coffee **once** she **had put** away the groceries.
Once school **was** over, the students rushed to holiday resorts.
(Okul kapanınca/Okul kapanır kapanmaz, öğrenciler tatil beldelerine akın etti.)

"No sooner ... than" ve "hardly/barely/scarcely ... when", as soon as ile aynı anlamı veren daha vurgulu kalıplardır. Bu kalıplar cümlelerin başında yer alırsa devrik cümle yapısı kullanılır.

The young couple **had no sooner left** the party **than** people began to gossip about them.

No sooner had the young couple **left** the party **than** people began to gossip about them.

The executive **had hardly begun** his speech **when** his assistant interrupted him.

Hardly had the executive **begun** his speech **when** his assistant interrupted him.

I **had barely stepped** into the bath **when** the telephone rang.

Barely had I stepped into the bath **when** the telephone rang.

(Henüz banyoya girmiştim ki, telefon çaldı./Ben banyoya girer girmez telefon çaldı.)

e) With when:

"When", kullanırken dikkat edilmesi gereken bağlaçlardan biridir. Çünkü, kullandığımız tense'e göre, eylemlerin birbirleriyle olan ilişkisi farklılık gösterir, anlam değişir.

When he left home, I **was washing** the dishes.

(O evden çıktığında ben bulaşık yıkıyordum.)

(I started to wash the dishes before he left, and hadn't yet finished when he was leaving.)

When he left home, I **washed** the dishes.

(O evden çıkınca, bulaşıkları yıkadım.)

(I waited for him to leave home and then I started to wash the dishes.)

When he left home, I **had washed** the dishes.

(O evden çıktığında, ben bulaşıkları yıkamıştım.)

(I started to wash the dishes and finished them before he left home.)

When	+	Simple Past,	Past Continuous
When	+	Simple Past,	Simple Past
When	+	Simple Past,	Past Perfect

She **was preparing** dinner when I got home.

She **prepared** dinner when I got home.

She **had prepared** dinner when I got home.

"Already, just, yet, hardly/scarcely" gibi zarfları "when" li bir cümlede kullandığımızda, temel cümle **Past Perfect Tense** gerektirir.

I **hadn't yet replied** to their letter when they came to visit me.
She **had hardly entered** the classroom when the exam started.
(Sınav başladığında, o sınıfa henüz/yenice girmişti.)
When we arrived there, the film **had already started**.

Eğer "when" in bağlı bulunduğu cümledeki eylem, temel cümledeki eylemden daha önce gerçekleşmişse, "when" li cümlede de **Past Perfect** kullanabiliriz.

When I **had explained** the subject to the class, I **gave** them a quiz.
(First, I explained the subject. Then I gave them a quiz.)
When the workers **had finished** some of their work, they **sat** down to eat lunch.

f) **With by the time:**

By the time + **Simple Past, Past Perfect**

By the time she **came** back, I **had finished** my work.
The film **had already begun** by the time we **got** to the cinema.
We **had already started** to discuss the case by the time the manager **came**.
By the time the guests **arrived**, my mother **had finished** all the cooking.
(Konuklar gelinceye kadar annem yemek pişirme işini bitirmişti.)
Konuklar geldiğinde

"By the time" ın Türkçe'ye çevirisine dikkat ediniz. Yukarıdaki örneği "... gelinceye kadar" ya da "... geldiğinde" biçiminde çevirdik. Bu nedenle "by the time", "when" ile yakın bir anlama sahiptir. "Geçmişte bir eylem olduğunda/oluncaya kadar, diğer bir eylem olmuştu." anlamını verir.

By the time they **came**, I **had finished** cleaning.
By the time I **arrived** at the station, the train **had left**.
Many people **had died** of tuberculosis by the time scientists **found** a cure.

Eğer, "geçmişte bir eylem olduğunda, başka bir eylem zaten oluyordu" anlamını vermek istiyorsak, temel cümlede **(already) + was/were doing** kullanabiliriz.

By the time I left the office, it **was already raining**.
(By the time I left the office, it **had already started raining**.)

By the time we prepared her milk, the baby **was already crying**.
(By the time we prepared her milk, the baby **had already started crying**.)

By the time I arrived at my date, my friends **were already waiting** for me.

Temel cümlede **Simple Past** kullanılmaz. Ancak, "be" fiilinin past biçimi olan "was/were" kullanılır.

By the time I noticed the leak, the kitchen floor **was** already full of water.
By the time the journey was over, it **was** already midnight.
By the time he retired from his work, he **was** sixty years old.

"By the time" ile "until/till", Türkçe'ye "... oluncaya kadar" biçiminde çevrildiği halde, geçmişteki iki eylem arasında farklı bir ilişkiyi ifade ederler.

By the time she **came** back from holiday, all her plants at home **had died**.
(When she came back, she found all her plants dead.)

Yukarıdaki örnekte ve diğer örneklerde gördüğümüz gibi, "by the time", "ikinci eylem olduğunda, diğer eylem olup bitmişti" anlamını vurguluyor.

I **watered** her plants until she **came** back from holiday.

Bu örnekte de gördüğümüz gibi, "until/till", "birinci eylemin, ikinci eylemin olduğu noktaya kadar devam ettiğini, tam o noktada bittiğini" vurguluyor.

By the time I **got** to the airport, my plane **had taken off**.
(The plane departed some time before my arrival, so I missed it.)

I went to the airport yesterday to see a friend of mine off. I **stayed** in the waiting lounge until the plane **took off**.
(I saw the plane take off and then I left the airport.)

Bir noktadan diğerine sözü edilen eylemin devam ettiğini vurguladığı için "until/till", *stay, wait, talk, etc.* gibi süreç bildiren fiillerle kullanılır. *Finish, leave, arrive, etc.* gibi, bir anda olup biten eylemler, "until/till" ile sadece olumsuz cümlede kullanılır.

He **stayed** at my house until/till I came back from holiday.
The teacher **waited** until/till the last student left the classroom.
He **didn't leave** me until/till I promised to meet him after work.

"By the time", zaman açısından bir noktayı vurguladığı için, sadece *finish, leave, arrive, etc.* gibi, bir anda olup biten eylemlerle, çoğunlukla da **Perfect tense**'lerle kullanılır.

He arrived at the station at 11 o'clock.
He **waited** at the station (from 11 o'clock) until/till 12 o'clock, then he left.
I **didn't arrive** at the station until/till 1 o'clock.
By the time I arrived at one o'clock, he **had left**.

WATERING THE SNOW

Gerry, our new neighbour, who had just moved from Canada, told me that he loved to play ice-hockey with his kids. When the first snow came, he bundled up and, after he'd put down boundary markers, laboriously packed the snow in his back yard with a roller. He needed an icy surface for his new "rink", so he brought out a hose.

This was too much for my spouse, who didn't know the reason behind all this activity. He turned away from the window. "Do you know that Gerry is watering the snow?" he asked me with a dazed expression.

1-24 THE PAST PERFECT CONTINUOUS TENSE

FORM

Affirmative	Negative	Interrogative
I had been working. You had been sleeping. He/She/It had been eating.	I had not been working. You had not been sleeping. He/She/It had not been eating.	Had I been working? Had you been sleeping? Had he/she/it been eating?
We had been waiting. You had been dancing. They had been talking.	We had not been waiting. You had not been dancing. They had not been talking.	Had we been waiting? Had you been dancing? Had they been talking?

He **had been sleeping** for two hours when suddenly a noise woke him up in the middle of the night.

The two countries **had been fighting** for almost seven years when a peace treaty was signed between them.

The party **had been going on** for two hours when the lights suddenly went out. When she decided to retire, she **had been working** as a teacher for fifteen years.

Örneklerde de görüldüğü gibi, **Past Perfect Continuous Tense**, tam olarak **Present Perfect Continuous Tense**'in past biçimidir. Hatırlayacağınız gibi, **Present Perfect Continuous**, geçmişte başlayıp içinde bulunduğumuz anda da devam eden, ya da içinde bulunduğumuz anda henüz bitmiş ama belirtileri devam eden eylemleri ifade ediyordu. **Past Perfect Continuous** ise, geçmişte başlayıp yine geçmişte bir noktaya kadar devam eden eylemleri ifade eder.

They **had been fighting for four years** when the war ended in 1994.
since 1990

We **had been waiting** for him for exactly three hours when he finally came.
His hands were covered in oil, because he **had been repairing** the car.
The child's eyes were watery, because he **had been crying**.
They were all exhausted, because they **had been working** hard since the morning.
(*Hepsi çok yorgundu, çünkü sabahtan beri çok yoğun çalışıyorlardı.*)

(*Ben eve gittiğimde o ders çalışıyordu.*)
2. When I went home, he **had been studying** for two hours. (*Past Perfect Cont.*)
(*Ben eve gittiğimde o iki saattir ders çalışıyordu.*)

Birinci cümledeki "was studying", sadece "Ben gittiğim anda ne yapıyordu?" sorusuna yanıt olabilir. İkinci cümledeki "had been studying" ise, "Ben gittiğimde yapmakta olduğu işi ne zamandan beri yapıyordu?" sorusunu yanıtlar.

The other members **were discussing** the agenda when I got to the meeting.
The other members **had been discussing** the agenda for the last half hour when I got to the meeting.

They **were staying** at a hotel near the sea when I met them in Bodrum.
They **had been staying** at a hotel for five days when I met them in Bodrum.

NOTE

"Since", Perfect Tense'lere özgü bir zarftır. Ancak, "for", diğer tense'lerle de kullanılır.

I'm going to Ankara **for two weeks**. (*Şimdiki z. Gelecek z. anlamıyla kullanımı*)
(*İki haftalığına Ankara'ya gidiyorum.*)
I have worked for this company **for seven years**. (*Present Perfect*)
(*Yedi yıldır bu şirkette çalışıyorum.*)
I have been living here **for eight years**. (*Present Perfect Continuous*)
(*Sekiz yıldır burada yaşıyorum.*)
When I resigned from my work, I had worked there **for ten years**. (*Past Perfect*)
(*İşimden istifa ettiğimde, on yıldır orada çalışıyordum.*)

(*Past Perfect C.*) (*Konuklar geldiğinde, üç saattir mutfakta çalışıyordum.*)
Last year, I stayed in İzmir **for a month**. (*Simple Past*)
(*Geçen yıl bir ay İzmir'de kaldım.*)

Özellikle bağlaçlı cümlelerde "for" un bu kullanımlarına dikkat ediniz. Şimdi şu iki cümle arasındaki farkı inceleyelim:

1. When I graduated, I **lived** in İzmir for five years.
(Mezun olunca beş yıl İzmir'de oturdum.)
2. When I graduated, I **had been living** in İzmir for five years.

INVITED TO THE BARS

During my junior year at university, I developed a crush on a handsome man in my swimming class. I found out when he swam practice laps so that I could just happen to be at the pool too. Soon we were planning our sessions together. To my dismay, that was as far as it went.

I was so happy when he finally said, "Swimming is getting to be pretty dull. Let's go to the bars on Saturday night. We can meet at the gym."

Imagine my embarrassment when I showed up in a new outfit only to be met by him in a sweatsuit. He had intended to work out on the gymnastic bars.

1-26 FUTURE TIME (*will/shall* or *be going to*)

FORM

Affirmative	Negative	Interrogative
I will help you. I am going to help you.	I will not help you. I am not going to help you.	Will I help you? Am I going to help you?
You will come early. You are going to come early.	You will not come early. You are not going to come early.	Will you come early? Are you going to come early?
He/She/It will eat lunch. He/She/It is going to eat lunch.	He/She/It will not eat lunch. He/She/It is not going to eat lunch.	Will he/she/it eat lunch? Is he/she/it going to eat lunch?
We will work. We are going to work.	We will not work. We are not going to work.	Will we work? Are we going to work?
You will leave early. You are going to leave early.	You will not leave early. You are not going to leave early.	Will you leave early? Are you going to leave early?
They will visit us. They are going to visit us.	They will not visit us. They are not going to visit us.	Will they visit us? Are they going to visit us?

Bütün öznelerle "**will**" yardımcı fiili kullanılır. Birinci tekil şahıs "*I*" ve birinci çoğul şahıs "*we*" için, "**will**" yerine "**shall**" de kullanılır. Ancak "**shall**" in bu kullanımı artık çok eski olarak kabul edilmektedir.

We **will (shall)** invite them to the party.
She **will help** me with my homework.

"**will not**" ve "**shall not**" kısaltılarak "**won't**" ve "**shan't**" biçiminde kullanılır.

They **will not/won't** come tomorrow.
We **shall not/shan't** go to the party.

"**will**" ve "**shall**" kısaltılarak "**'ll**" biçiminde kullanılır.

They **'ll** visit us next week. / I **'ll** eat dinner out tonight.

1-27 USE OF THE FUTURE TENSES

There **will/is going to be** a rise in prices after the elections.
According to the weather report, it **will/is going to snow** tomorrow.
He **will/is going to have** an accident if he doesn't drive more carefully.

- b) Önceden tasarlanmış, planlanmış bir durumdan söz ediyorsak (*prior plan*), "**be going to**" kullanmamız gerekir. Bu anlamıyla "be going to", cansız varlıklar için genellikle kullanılmaz.

- Why have you bought this material?
- I **'m going to make** a skirt for myself.

- Why is your dog digging in that corner?

- Wait here. I'll **bring** an aspirin for you. (*Bekle sana bir aspirin getireyim.*)

"will" in bu kullanımının Türkçe'ye çevirisine dikkat ediniz. Örneklerde de gördüğünüz gibi, "will wash, will lend, will bring" ifadelerini "yıkayacağım, ödünç vereceğim, getireceğim" biçiminde değil, "yıkayacağım, ödünç veririm, getireyim" biçiminde çevirdik.

d) Eğer bir olayın olacağına ilişkin belirtiler varsa, "going to" kullanılır.

The sky is black. It **is going to rain**.
There's a lot of blossom on the trees this spring. We're **going to have** a good crop.

e) Bu tense'lerle yaygın olarak kullanılan zaman zarfları, *tomorrow, next week, next month, next summer, in two days* (iki gün sonra), *in ten minutes* (on dakika sonra), *two days from now* (iki gün sonra), *five years from now* (beş yıl sonra), *soon* (az sonra, yakında) gibi zarflardır.

We'll **take** an exam next week.
Tomorrow is a public holiday, so she **won't go** to work.

(*In the morning*)
I'm **going to do** some shopping **today**. Do you need anything special?
I'm **not going to have** breakfast this morning.

f) "am, is, are going to" nun past biçimi olarak "was, were going to" kullanılır. Bu tense ile, geçmişte niyet ettiğimiz, planladığımız, ama çeşitli nedenlerle yapamadığımız eylemleri anlatırız.

I **was going to visit** my parents last night, but just as I was leaving home, some guests arrived, so I couldn't.

"But---," I tried again.

"No, listen to me. I'll die without you."

By this time, my husband was listening and he started to laugh.

"You've got a man with you, haven't you, Phyllis?"

"I'm NOT Phyllis," I shouted. "You've got the wrong number."

"Why didn't you tell me sooner?" the man shot back. "Now I'll have to repeat this all over again!" Then, in a calmer voice, he added, "Do you think it'll work?"

1-32 USE OF THE FUTURE PERFECT TENSE

- a) Gelecekte bir noktada yapmış, tamamlamış olacağımız eylemleri bu tense ile ifade ederiz. *By, before, in a week (or in a week's time), in ten days (or in ten days' time), in three years (or in three years' time)* gibi zarflar, bu tense ile çok sık kullanılan zarflardır.

She **will have graduated** from university **in two years**.

(*by two o'clock, by next month, by tomorrow, by then, etc.*) "By the time" ise bir bağlaçtır. Kendinden sonra bir cümle gelir. "By the time" dan sonra "that" kullanılabilir.

I will have finished my work **by 5 o'clock**.

1-33 THE FUTURE PERFECT CONTINUOUS TENSE

FORM

Affirmative:	Subject + will have been doing.
Negative:	Subject + will not have been doing.
Interrogative:	Will + subject + have been doing?

1-34 USE OF THE FUTURE PERFECT CONTINUOUS TENSE

- a) Gelecekte bir eylemi ne kadar zamandır yapıyor olacağımızı bu tense ile ifade ederiz. Yani gelecekte süreç bildiririz.

By next year, I **will have been teaching** English **for nine years**.

Tomorrow, I will start work at 9 and finish at 12, so I **will have been working for three hours** by the time my last lesson is over.

By the time her mother comes home at 5 o'clock, she **will have been studying** for three hours.

She started to work for us last year.
Now, she has been working for us for a year.
By this time next year, she **will have been working** for us for two years.

The meeting will start at ten, and I will arrive there at eleven.
By the time I arrive there, the meeting **will have been going on** for an hour.

By the next elections, this government **will have been running** the country for four years.

- b) Bu tense ile kullanacağımız fiilleri seçerken dikkatli olmamız gerekir. Ancak *work, write, travel, watch, listen, go on, study* gibi sürerlik bildiren fiilleri bu tense ile kullanabiliriz. *Finish, complete, arrive* gibi bir anda olup biten eylemleri ifade eden fiilleri kullanamayız.

"By 9 o'clock tomorrow, I'll have been arriving in Ankara for six hours." ifadesi yanlış bir ifade olur. Çünkü insan, altı saattir bir yere varıyor olamaz. Bu cümleyi ancak şöyle doğru olarak ifade edebiliriz:

By 9 o'clock tomorrow, I'll **have arrived** in Ankara. (... *varmış olacağım*.)
By the time I arrive in Ankara, I'll **have been travelling** for six hours.
(.... *altı saattir yolculuk yapıyor olacağım*.)

- c) "By the time" yapısıyla "be" fiilinin kullanımına dikkat ediniz. Normalde "by the time", temel cümlede Future Perfect gerektirir.

By the time they arrive, I **will have eaten** my dinner.

Ancak "be" fiili, eğer süreç bildirmiyorsa, Simple Future (*will be*) ile kullanılır.

By the time they arrive, dinner **will be** over.
By the time he retires from his job, he **will be** sixty.
By the time we come back from holiday, they **will be** married.

Modals and Similar Expressions

INTRODUCTION

İngilizce'de **modal** yardımcı fiilleri: *can, could, will, would, shall, should, ought to, had better, may, might* ve *must* gibi sözcüklerdir.

Modal yardımcı fiilleri, genellikle konuşmacının duygularını yansıtır. Yani, *gereklilik, zorunluluk, olasılık* gibi kipleri ifade ederler. Örneğin, birine sigarayı bırakması gerektiğini söylemek istiyorsak, bunu İngilizce'de şöyle ifade ederiz:

You **should stop** smoking. (*Sigarayı bırakman gerekir.*)

Ya da, birine bir konuda izin verdiğimizizi ifade etmek istiyorsak:

You **may/can leave** work early today. (*Bugün işten erken çıkabilirsin.*)

Bir modal, kullanılan özneye göre değişiklik göstermez.

He/We/I/They **should** leave early.

Bir modal, kendinden sonra yalın fiil alır.

He **can sing** well./We **may come** late./They **must phone** us.

"ought to" bu kuralın dışındadır.

I **ought to phone** my parents./He **ought to study** hard.

Bir modal ile belirttiğimiz duyguyu, genellikle, benzer bir başka yapı ile de ifade edebiliriz.

He **can sing** very well./He **is able to sing** very well.
We **must walk** faster./We **have to walk** faster.

<p>a) MODAL AUXILIARIES</p> <p>I <i>can</i> do it. <i>could</i> do it. You <i>may</i> do it. He <i>might</i> do it. She <i>will</i> do it. It <i>would</i> do it. <i>shall</i> do it. We <i>should</i> do it. You <i>ought to</i> do it. They <i>had better</i> do it. <i>must</i> do it</p>	<p>Bir modal'dan sonra gelen fiil yalın gelir.</p> <p style="text-align: center;">You must speak slowly.</p> <p>Sadece "ought", kendinden sonra gelen fiili "to do" biçiminde alır.</p> <p style="text-align: center;">He ought to eat less. We ought to walk faster.</p>
<p>b) SIMILAR EXPRESSIONS</p> <p><i>be able to</i> do <i>have to</i> do <i>have got to</i> do <i>used to</i> do <i>be to</i> do <i>be supposed to</i> do</p>	<p>Bir modal'ın cümleye kattığı anlamı bir başka ifade ile de verebiliriz.</p> <p>He can speak three languages. He is able to speak three languages.</p>

Bir modal, birden fazla anlam ifade edebilir. Şimdi modal yardımcı fiillerinin bu anlamlarını inceleyelim.

2-1 REQUESTS

Birinden bir şey rica ederken kullanabileceğimiz çeşitli ifade biçimleri vardır. Bunlardan yaygın olarak kullanabileceğimiz iki yapı, özne olarak "I" ya da "you" kullanarak oluşturabileceğimiz ifadelerdir.

Can I borrow your dictionary for a moment?
 (Sözlüğünü bir süre için alabilir miyim?)
Can you lend me your dictionary for a moment?
 (Sözlüğünü bir süre için bana verebilir misin?)

2-2 POLITE REQUESTS with the SUBJECT "I"

MAY I COULD I	May I (please) borrow your book? Could I borrow your book (please)?	"May I" ve "Could I" nazik bir isteme ifadesidir. (<i>formal</i>)
CAN I	Can I borrow your book?	"Can I" daha samimi ortamlarda izin isterken kullanılır. (<i>informal</i>)
TYPICAL RESPONSES : Certainly. Yes, certainly. Of course/Of course, you may./Sure. (<i>Informal</i>)		

Brother: Will you be using your bike tomorrow?
 Sister: I don't think so. Why?
 Brother: **Can I** borrow it for the afternoon?
 Sister: What happened to yours?
 Brother: Mine has a flat tyre.
 Sister: Well, in that case, you can.

(In a train compartment)

Woman: **May I** have a look at your newspaper?

Man: Yes, certainly. Here you are. (*Tabii ki. Buyrunuz.*)

(On the phone)

Man: **Could/May I** speak to Mr. Jones, please?

Secretary: Sorry, he is busy on the other line at the moment. Can you wait for a moment?

Man: That's alright, I'll call again later.

2-3 POLITE REQUESTS with the SUBJECT "YOU"

COULD YOU WOULD YOU	Could you give me some information, please? Would you open the door for me, please? Could you please tell me the way to the station?	"could" ve "would" resmiyet/nezaket gerektiren ortamlarda kullanabileceğimiz yapılarıdır.
WILL YOU	Will you lend me your book (please)? Will you (please) lend me your book? Will you be quiet, please?	"will" de resmi ortamlarda kullanılır, ancak diğerlerine göre daha doğrudan bir ifade biçimidir. "will", öfke/sabırsızlık vb. gösteren ricalarda da kullanılır.
CAN YOU	Can you lend me your dictionary? Can you open the door, please?	"can" daha samimi ortamlarda kullanılır.
	TYPICAL RESPONSES: Yes, I'd (<i>I would</i>) be happy to. Yes, certainly. I'd be glad to. Sure. (<i>Informal</i>)	Eğer olumsuz yanıt vereceksek, yine nazık bir şekilde nedenini açıklamamız gerekir.

(At a breakfast table)

Son: Mum, **can you** pass me the butter?

Mother: Sure, here you are.

(At a Travel Agent's)

Customer: **Would you** give us some information about your package tours, please?

(At work)

Jack: Sorry, I wish I could, but my mother will be waiting for me at the doctor's, and I am going to pick her up right after work.

NOTE: "I'd be happy to, I'd be glad to" yanıtlarını, "I" öznesi ile sorulmuş sorularda kullanamayız.

- **May I** take your dictionary for a moment?

- Of course, here you are./Yes, of course you may./Sorry, I'm using it myself.

- **Can you** lend me your dictionary for a moment?

- Yes, of course. Here you are./I'm afraid I can't. I'm using it myself.

- Yes, I'd be happy to.

(*I'd be happy to lend you my dictionary. - Memnuniyetle veririm.*)

2-4 POLITE REQUESTS with "WOULD YOU MIND"

ASKING PERMISSION Would you mind if I smoked here? Would you mind if I opened the window? Would you mind if I came a bit late tomorrow?	"Would you mind if I + Simple Past Tense" Burada Past Tense kullanılmasına rağmen, anlam Present ya da Future'dur.
TYPICAL RESPONSES No. Not at all. Please do. No. Of course not. Go ahead. No, that would be fine.	
ASKING SOMEONE ELSE TO DO SOMETHING Would you mind opening the window? Would you mind speaking a bit more quietly? Would you mind posting these letters for me?	"Would you mind + doing"
TYPICAL RESPONSES No, of course not. I'd be happy to. Not at all. I'd be glad to.	

"Would you mind if I did?" , "... (benim) yapmamın sizce bir sakıncası var mı/... (benim) yapmam sizi rahatsız eder mi?" anlamına gelir.

Böyle bir soruya yanıt verirken dikkatli olmamız gerekir. Eğer "Yes" ile yanıt verirsek, "Evet, rahatsız eder." anlamına gelir ki bu da pek nazik bir yanıt olmaz. Bu nedenle karşımızdaki kişiye izin vereceksek, yanıtımız "No" ile başlamalıdır.

- Would you mind if I opened the window?
- **No, of course not.** Please do. (Hayır, tabii ki yok. Açabilirsiniz.)

- Would you mind if I went to bed early tonight?
- **Not at all.** Go ahead.

- Would you mind if I wore your red sweater tomorrow?
- **Of course not.** Go ahead. (Tabii ki hayır. Giyebilirsin.)

Eğer bu istekleri reddedeceksek, yine nazik bir ifade biçimi kullanmamız gerekir. Reddederken kullanabileceğimiz yanıtlar çok çeşitlidir ve konuya bağlıdır.

- Would you mind if I opened the window?
- Well, I'd rather you didn't. It's a bit cold in here.
(Açmamanızı tercih ederim. Burası biraz soğuk.)

- Would you mind if I wore your red sweater tomorrow?
- Well actually, I was thinking of wearing it myself.
(Aslında, onu yarın ben giymeyi düşünüyordum.)

- Would you mind if I had a look at your paper?
- Well, I'm reading it myself, actually.

- Would you mind if I smoked here?
- Well, I'd rather you didn't. The smoke makes me cough.

"Would you mind doing?" "... (sizin) yapmanızın sizce bir sakıncası var mı/... yapmak sizi rahatsız eder mi?" anlamını verir.

Şu iki cümle arasındaki ayrıma dikkat ediniz.

- Would you mind **if I opened** the window?
(Camı **açmamın** sizce bir sakıncası var mı?)
- No, please do. (Camı açacak olan kişi "ben")
- Would you mind **opening** the window?
(Camı **açmanızın** sizce bir sakıncası var mı?)
- Not at all. I'd be glad to. (Camı açacak olan kişi "siz")
- Would you mind **posting** these letters for me when you go out?
- No, of course not. I'd be happy to.

Eğer kişinin ricasını yerine getiremeyeceksek, yine nazik bir şekilde gerekçesini belirtmemiz gerekir.

- Would you mind posting these letters for me when you go out?
- Well, I'm afraid I can't. I'm not going past the post office.
- Would you mind lending me your dictionary?
- I'm afraid I can't. I'm using it myself at the moment.

"Would you mind?" biçiminde verilen bir cümleyi tamamlarken, cümlenin devamındaki anlama dikkat etmemiz gerekir.

EXAMPLES:

1. "I have to catch a plane early in the morning tomorrow. Would you mind (give) me a lift in your car?" cümlesini, "... if I did" yapısıyla tamamlayamayız. Çünkü karşımızdaki kişinin bir şey yapmasını istiyoruz. O halde bu cümleyi "... doing" şeklinde tamamlayabiliriz.

Would you mind **giving** me a lift in your car?

2. "I had promised to come to the cinema with you, but now I have some other very important jobs to do. Would you mind (change) my mind and (not come) with you?"

Bu örnekte ise "konuşmacı kendisi bir şey yaparsa, karşısındaki rahatsız olur mu?" anlamı olduğu için, "... if I did" yapısını kullanabiliriz.

Would you mind **if I changed** my mind and **didn't come** with you?

3. Bazı durumlarda ise her iki kalıbı da kullanabiliriz ama anlam değişir. (Yani, eylemi yapacak kişi değişir.) "I want to listen to the news. Would you mind (turn on) the television?" cümlesinde, televizyonu konuşmacı mı açacak, yoksa karşısındaki kişinin mi açmasını istiyor, net değil.

Would you mind **if I turned on** the television?
turning on the television?

NOTE

"Would you mind if I did...?" resmi ortamlarda kullanılan bir kalıptır. Daha samimi ortamlarda "Do you mind if I do (Simple Present)...?" kullanılır.

- **Do you mind if I use** your computer for a few hours?
- No, of course not. Go ahead.
- **Do you mind if I drop you off** at the corner, since I'm in a hurry?
- Of course not. It's just five minutes' walk to the school from there.

EXERCISE 1: Fill in the blanks with either "if I + the Simple Past" or with the "-ing" form of the verb. In some cases, both are possible, with a different meaning.

2. A: Sorry, I couldn't catch the last sentence you said. Would you mind (*repeat*) it?

B: Sure. How much do you need?
6. A: I seem to be a bit short of cash. Would you mind (*borrow*) some for a couple of days?
B: Well, I'm a bit short myself actually.
7. A: Would you mind (*not, smoke*) while I'm eating? The smell puts me off my food.
B: Oh, I'm sorry, I thought you had finished.
8. A: I didn't buy a newspaper this morning. Would you mind (*stop*) the car a minute at the corner so that I can buy one?
B: Not at all.
9. A: Would you mind (*keep*) my coat on? It is awfully cold in here.
B: No, please do. I'm afraid our heating isn't working properly.
10. A: Would you mind (*skip*) football practice tonight, Sir? I went hiking with my parents yesterday and my feet have painful blisters on them.
B: No, it's okay this time, but don't forget that being a member of our school team is a privilege.

2-5 POLITE REQUESTS with IMPERATIVES

Emir cümleleri de, ricada bulunurken kullanabileceğimiz yapılardan biridir. Özellikle, "please" ile yumuşatarak, "emir" havasından çıkarıp, "rica" anlamı verebiliriz.

- *Shut* the door, *please*.
- *Please try* to speak a bit more quietly.
- *Be* on time, *please*.

Emir cümleleri, **ikinci tekil** ya da **ikinci çoğul** şahıslara hitaben yapılır ve doğrudan, fiilin yalın haliyle başlar.

2-6 NECESSITY and PROHIBITION

2-7 NECESSITY: *must, have to, have got to*

a) Form

Must, have to ve have got to, gereklilik ya da zorunluluk ifade eden yapılarıdır.

Students **must study** hard in order to pass exams.
Students **have to study** hard in order to pass exams.
Students **have got to study** hard in order to pass exams.

"**have to**" nun soru biçimi, "**do**" kullanılarak oluşturulur.

- **Do** you **have to** leave now?
- Yes, I **do**. (Yes, I **have to** leave now.)

- **Does** your brother **have to work** so hard?
- Yes, he **does**. (Yes, he **has to work** so hard.)

"**must**" ve "**have got to**" nun soru biçiminde ise, "**must**" ve "**have**" yardımcı fiil olarak kullanılır.

- **Must** you **leave** now?
- Yes, I **must**. (Yes, I **must leave** now.)

- **Have** you **got to leave** now ?
- Yes, I **have**. (Yes, I **have got to leave** now.)

"Must" ve "have to" nun olumsuz biçimi, "don't have to", "don't need to" ya da "needn't" dir.

- Do you have to get up early tomorrow?
- No, it is my day off. I **don't have to/don't need to/needn't** get up early.

- Does your brother have to get up early tomorrow?
- No, it is his day off. He **doesn't have to/doesn't need to/needn't** get up early.

- Must a student study four hours a day?
- It depends on the student. Some students **don't have to/don't need to/needn't** study so much.

- Must you get a tutor?
- No, I can understand by myself. I **don't have to/don't need to/needn't** get a tutor.

NOTE

"Must" in olumsuzlu olarak, ilk anda akla "mustn't" geliyor. Ancak "mustn't", zorunluluğu ortadan kaldıran değil, yasaklama getiren bir yapıdır.

"Must I stay in bed for a swift recovery ?"
(Çabuk iyileşmek için yatmalı mıyım?)

diyen birine, "No, you mustn't." dersek, "Hayır, yatmamalısın." demiş oluruz ki, bu da bizim ifade etmek istediğimiz düşünce değildir. Çünkü, bu soruyu soran birine "Hayır, yatman gerekmez." demek istemiştir. "Bunu da "needn't", "don't need to" ya da "don't have to" ile ifade edebiliriz.

No, you **don't have to/don't need to/needn't** stay in bed, but don't go out.

"Mustn't" ı ancak, "yapmamalısın" anlamında kullanabiliriz. Yani, "Bunu yapmamalısın, çünkü yasak" ya da "Bunu yapmamalısın; eğer yaparsan, sonuç kötü olacak." gibi düşünceleri ifade edebiliriz.

You **mustn't smoke** so much. You'll make yourself ill.
We **mustn't sit** here on the grass. The notice says it is forbidden.

"Have got to" nun olumsuz biçimi ise "haven't got to" dur.

- Have you got to meet your friend at the bus-stop?
- No, I **haven't got to meet** him. He knows the way, and he can come by himself.

"Must", "have to" ve "have got to" nun past biçimi "had to" dur.

It was very busy at work yesterday. I **had to work** until late.
When I was a child, there weren't so many toys. We **had to make** our own toys.

- Did you have to get up early last year?
- No, classes started at noon last year, so I **didn't have to get up** early.

- Did you have to wear a uniform when you were in high school?
- Yes, I **did**. (Yes, I **had to wear** a uniform.)

There weren't so many electric appliances in the past, so women **had to spend** very long hours doing the housework.

"Must" ve "have to", zaman olarak "present" ya da "future" eylemleri bildirebilir.

I must go **now**. (Present) / I must work hard **next week**. (Future)
She has to leave **now**. (Present) / She has to get up early **tomorrow**. (Future)

"Must" in present ya da future dışında başka bir kullanımı yoktur.
"Have to" kalıbını, diğer tense'lerle de kullanabiliriz.

I **have to** study now. (Present)
I **will have to** study hard next year. (Future)
I **had to** study hard last year. (Simple Past)
I **have had to** study hard for some time. (Present Perfect)
I **had had to** study very hard for some time, and so I became ill. (Past Perfect)

b) Use of "must" and "have to"

"must" ve "have to", her ikisi de gereklilik, zorunluluk bildirmesine karşın, "must" daha çok, konuşmacının kendi içinden gelen bir zorunluluğu, "have to" ise dış etkenlerden kaynaklanan bir zorunluluğu yansıtır. Ancak, günlük yaşamda, zorunluluklar arasında bu ayrımı yapmak çok zordur. Yani zorunluluğu kişi kendi içinde mi hissediyor, yoksa bazı koşullar onu bir şeyler yapmaya mı zorluyor? Bu ayrımı, tek tek cümlelerde yapamayız. Ancak, konuşmanın akışı içerisinde zorunluluğun kaynağı netlik kazanabilir.

I **must pass** the university exam.
I **have to pass** the university exam.

Tek tek ele aldığımızda, bu iki cümle arasında pek fark yoktur. Ancak, bu cümlelerin devamında, konuşmanın akışı şöyle olmalıdır.

I **must pass** the university exam. I have no other choice. If I can't pass it, I won't get a good career and I will be unhappy.

I **have to pass** the university exam. My parents have spent so much money on me. If not, I'll make them unhappy.

"Must" konuşmacının kendi otoritesini ifade ederken de kullanılır.

(A doctor to his patient)
You **must stop** smoking. Your lungs are getting worse.

(Mother to her child)
You **must make** your bed when you get up.

(Mother to her son)
You **must brush** your teeth before you go to bed.

Ancak, kendisinden istenen bu işleri ifade ederken, kişinin "have to" kullanması daha uygundur.

(the patient) I **have to stop** smoking. The doctor says my lungs are getting worse.
(the child) I **have to make** my bed when I get up.
(the son) I **have to brush** my teeth before I go to bed.

2-8 PROHIBITION: *mustn't*

a) Yasaklama ifade eder:

You **mustn't cross** the street when the light is red.
You **mustn't speak** loudly in a hospital.
You **mustn't tell** anyone my secret.

b) Çok güçlü bir öğüt ifade eder:

You **mustn't work** so hard. You'll be ill.
You **mustn't treat** him so strictly. He will get depressed.
She **mustn't come** home alone at that time of night. The streets aren't safe.

2-9 LACK OF NECESSITY IN THE PAST

Zorunluluğu ya da gerekliliği ortadan kaldıran yapılar arasında (*needn't, don't need to* and *don't have to*), anlam *present* ya da *future* iken bir fark yoktur.

She **doesn't have to/doesn't need to/needn't** study hard. She is already good at English. (*present*)

She **won't have to/won't need to/needn't** work so hard when she has paid off the instalments on her car. (*future*)

Ancak bu yapıların past biçimleri olan "**didn't have to**", "**didn't need to**" ve "**needn't have done**", farklı anlamlar ifade ederler.

a) **Didn't have to** and **didn't need to**

"Geçmişte bir eylemi yapmam gerekmedi/yapmak zorunda kalmadım." anlamını vermek istiyorsak "**didn't have to**" ya da "**didn't need to**" kullanırız.

I **didn't have to/didn't need to wait** long for my friends. They came only ten minutes late. (The meaning is: *I didn't wait long*)
(Çok beklemek zorunda kalmadım./Çok beklemem gerekmedi.)

She **didn't have to/didn't need to go** shopping after work. Her husband had already done the shopping. (so *she didn't do it*.)

b) **Needn't have done**

Geçmişte bir eylemi yapmamız gerekmediği halde yapmışsak, "**needn't have done**" kullanırız. Yani "*yapmam gerekmezdi/gerekmezmiş, ama yaptım.*" anlamını ifade eder.

You **needn't have washed** the dishes by hand.
I was going to put them in the dishwasher.
(But you washed them by hand and you wasted your time and energy.)

There is plenty of food at home. You **needn't have gone** shopping.
(It was unnecessary for you to go shopping.)
(Alışveriş yapman gerekmezdi.)

Şu iki örneği karşılaştıralım:

My friend phoned me to say that she was getting married in two weeks. I didn't have an outfit to wear at her wedding, so I bought an elegant dress and spent a lot of money. Later, I learnt that she cancelled her wedding, so:

I **needn't have bought** that dress.
(It was unnecessary for me to buy that dress.)
(The result is: I bought the dress and wasted my money.)

My friend phoned me to say that she was getting married in two weeks. I didn't have an outfit to wear at her wedding, so I decided to buy one, but before I could buy a dress, she phoned again to say that she had cancelled her wedding, so:

I **didn't need to buy/didn't have to buy** a dress.
(The result is: I didn't buy the dress.)

Örneklerde de görüldüğü gibi, "needn't have done", "işin gerekli olduğunu zannediyordum, bu yüzden yaptım. Daha sonra gerekmediğini öğrendim. Aslında yapmam gerekmezmiş." anlamını; "didn't need to/didn't have to" ise, "iş yapmak gerekmediğini biliyordum, bu yüzden yapmadım. Yapmam gerekmedi/yapmak zorunda kalmadım." anlamını ifade ediyor.

We were going to have a test the next day, so I studied hard that night until after midnight, but when I went to school that morning, I learnt that our teacher wasn't coming, so I **needn't have studied** so hard.

We were going to have a test the next morning, but that day, our teacher suddenly became ill and was taken to hospital, and our test was cancelled, so I **didn't need to study/didn't have to study** for the test that day.

EXERCISE 3: Use "mustn't" or "don't have to/don't need to/needn't" in the following. ("don't have to/don't need to" and "needn't" are interchangeable, but in some situations, one sounds better.)

MODERN TIMES

My friend Glenn invited me to lunch to meet his fiancée, Jennifer. As a surprise, I asked Becky, a mutual friend, to join us. At the last minute, Glenn called to say that Jennifer had some work to do, so they might be delayed. I told him that Becky was planning to meet us and it was too late to reach her with a time change.

"Would your fiancée let you go to lunch with two women she doesn't know?" I teased.

"Are you kidding?" Glenn responded. "I'm a man of the new millennium."

"Does that mean you can come?" I asked.

"No," he replied, "that means I have to ask!"

2-10 ADVISABILITY

2-11 Should, Ought to, Had better

- a) **Should, ought to ve had better** öğüt bildiren yapılarıdır.

You **should read** a lot of books to improve your knowledge.

You **should treat** other people politely.

A student **ought to study** regularly in order to be successful.

You **ought to stay** in bed until you feel better.

We **had better hurry**, or we'll miss the bus.

I **had better study** hard tonight, or I'll fail the test.

"Should" ve "ought to": "... yapmam gerekir." anlamını verir. "Had better" daha güçlü bir ifade biçimidir ve "... yapmam gerekir/yapsam iyi olur. Eğer yapmazsam, kötü şeyler olabilir." anlamını verir.

"Should" ya da "ought to" kullandığımız zaman, yapmamız gereken işi erteleme olanağımız vardır.

I *should/ought to study* for my geography exam, but I don't feel like studying tonight. I think I'll study for it tomorrow.

"Had better" ise, yapmamız gereken işi yapmadığımız takdirde kötü şeyler olacağını vurgular.

I *had better study* for my geography exam tonight. If not, I'll fail the exam tomorrow.

I *should/ought to go* home early tonight. I have a lot of work to do.
I'd *better go* home early tonight. Otherwise, my father will get angry with me.

b) "Should" ve "ought to", bir şeyin nasıl olması gerektiğini ifade ederken de kullanılır.

You have misspelt this word. It *should be* "courageous".
You have brought a rather small box. It *should be* bigger.
Don't put the book on that shelf. It *ought to go* on the other one.

2-12 Should not, Ought not to, Had better not

Bu yapıları, yapılmaması gereken şeyleri öğütlerken kullanırız.

You *shouldn't go* to bed so late. A boy of your age should sleep at least eight hours a day.
She *ought not to (oughtn't to) treat* him so unkindly.
He'd *better not work* so hard, or he'll make himself ill.
You *shouldn't go out* alone after dark.
We'd *better not tell* her the bad news, or she'll get depressed.

NOTE

"Shouldn't/ought not to" ile "needn't" arasındaki ayrıma dikkat ediniz.

You *shouldn't study* so hard, or you'll lose your health.
(Bu kadar çok **çalışmaman gerekir**, yoksa sağlığını yitireceksin.)

You *needn't study* so hard. You are a good student already.
(Bu kadar çok **çalışman gerekmez**. Sen zaten iyi bir öğrencisin.)

"Ought not to/shouldn't do", Türkçe'ye "yapmaman gerekir" biçiminde çevrilir ve "Bunu yapman senin için kötü sonuçlar doğurabilir" anlamını verir.

"Needn't do" Türkçe'ye "yapman gerekmez" biçiminde çevrilir ve "yapsan da olur, yapmasan da. Ama bu işi fazladan yapıyorsun." anlamını verir, yani gereklilik olmadığını vurgular.

NOTE

"Must" da, "should" gibi öğüt verirken kullanılır, ancak "must" daha güçlü bir ifadedir.

You *shouldn't smoke*. It's bad for you.
You *mustn't smoke*. You are coughing a lot, and you will be ill if you go on smoking.

He *should work* harder in order to be successful.
He *must work* harder, or he'll fail.

"Should", "ought to" ve "had better" in *present* ve *future* biçimi aynıdır.

I should leave now. (*present*)

I should visit my parents next week. (*future*)

I ought not to be so permissive with my son. (*present*)

I ought not to go to work tomorrow. I don't feel well enough. (*future*)

We had better leave now, or we'll miss the beginning of the wedding. (*present*)

We had better visit our parents next week, or they will be unhappy. (*future*)

2-13 Should be doing, Ought to be doing, Shouldn't be doing, Oughtn't to be doing

İçinde bulunduğumuz ana ilişkin bir durum ifade etmek istiyorsak, bu yapıları kullanırız.

Why *is* he *sleeping* now? He *should be studying* for his test.

Why are the children still awake at this late hour? They *should be sleeping*.

Look! Those children *are playing* in the street, but it is dangerous.

They *shouldn't be playing* there. They *should be playing* in the playground.

I'm *watching* TV with you now, but in fact, I *ought to be studying* in my room.

2-14 Should have done, Ought to have done Shouldn't have done, Ought not to have done

"Should" ve "ought to"nun past biçimleri "*should have done*" ve "*ought to have done*" dır.

I *didn't set* my alarm clock and I overslept yesterday morning, so I was late for work.

I *should have set* my alarm clock.

He *didn't study* hard enough, so he failed the test.

He *should have studied* harder to pass it.

The authorities *didn't take* the necessary measures, so inflation went up.

They *should have taken* the necessary measures to bring it down.

Örneklere de gördüğümüz gibi, "*should have done/ought to have done*", "*Geçmişte bir eylemi yapmadım ve sonuç kötü oldu. Onu yapmam gerektirdi.*" anlamını veriyor.

"*Shouldn't have done/ought not to have done*" ise, "*Geçmişte bir şey yaptım ve sonuç kötü oldu. Onu yapmamam gerektirdi.*" anlamını veriyor.

I *talked* to him very unkindly, so I hurt him.

I *shouldn't have talked* to him so unkindly.

Although I was ill, I *went* to work, and my cold got worse.

I *ought not to have gone* to work.

He *ignored* my warnings, and *drove* the car too fast. As a result, he had an accident.

He *shouldn't have ignored* my warnings.

He *shouldn't have driven* the car so fast.

2-15 Should have been doing, Ought to have been doing Shouldn't have been doing, Oughtn't to have been doing

Geçmişte bir noktada devam etmekte olan bir olaya ilişkin konuşurken, bu yapıları kullanınız.

While I was going home yesterday, I saw some children.
They **were playing** in the street.
They **shouldn't have been playing** there.
They **should have been playing** in the playground.

Yesterday, Peter **was sleeping** between 10 and 12.
However, he **shouldn't have been sleeping**.

"Should I tell her it's her husband calling?" the woman asked.

"Good Lord!" I exclaimed before hanging up. "Do you mean she's married?"

2-16 EXPECTATIONS: *be to* and *be supposed to*

- a) "Be to" ve "be supposed to", bir tarifeye, programa göre olması gereken olayları ifade ederken kullanılır ve "be due to" ile aynı anlamı verir. "Be to", "be supposed to" ya göre daha güçlü bir ifade biçimidir.

The film *is to* start at 11.30.

The film *is supposed to* start at 11.30.

The film *is due to* start at 11.30.

(Film 11.30'da başlayacak/Filmin 11.30'da başlaması gerekir.)

You *are supposed to be* on time for class. If you are late, the teacher gets angry.

(The teacher expects you to be on time for class.)

(Derse vaktinde gelmeniz gerekir.)

"Be supposed to", bu kullanımıyla "should" ile yakın bir anlama sahiptir. Ancak "be supposed to" da gereklilik daima dış etkenlerden kaynaklanmaktadır. "Should" da ise gereklilik kişinin kendisinden de kaynaklanabilir.

I **am supposed to go** home before it gets dark. My mother is worried if I'm late.
(My mother expects me to go home before it gets dark.)
(Hava kararmadan eve gitmem gerekir.)

(Çimenlere oturmamız gerekir.)

We **shouldn't sit** on the grass. We'll crush it.
(Çimenlere oturmamız gerekir.)

"Be to" ise "must" ile yakın bir anlama sahiptir. Her ikisi de "be supposed to" ve "should" a göre daha güçlü bir ifade biçimidir. "Be to", dış etkenlerden kaynaklanan bir zorunluluğu, "must" ise kişinin kendisinden kaynaklanan bir zorunluluğu ifade eder.

I **am to go** to work early tomorrow. My boss ordered me to go in early and prepare everything for the meeting before the members turn up.
(Yarın işe erken gitmeliyim.)

I **must go** to work early tomorrow. I want to prepare everything for the meeting before the members turn up, and I want to be ready when they come.

(Wife to husband)

- You **mustn't drive** so fast. If something happens unexpectedly, you can't stop the car quickly enough and we might have an accident.

c) "Be supposed to" nun past biçimi "was/were supposed to" dur. "Should have done" ile yakın bir anlama sahiptir. Ancak yine, bir başkasının geçmişte bizden beklentisini ifade eder.

I **was supposed to go** to work early yesterday, but I overslept, so my boss got angry with me. (Result: I went to work late.)
(Dün işe erken gitmem gerekirdi, ama)

Örneklerde gördüğünüz gibi, "was able to", "geçmişte belli bir olayın (*a specific event*) üstesinden gelme" anlamını ifade ediyor. Şimdi şu iki örneği karşılaştıralım.

When I was a child, I **could/was able to** run very fast.

I **could/was able to** beat anyone who raced with me. (*ability in the past*)

Once, I raced with a school friend of mine. She was also a fast runner. It was a hard race for me, but I **was able to** beat her in the end.

(*one specific event in the past*)

Olumsuz ifadelerde, her üç durum için de (*ability, giving permission or one specific event in the past*), "couldn't" ya da "wasn't/weren't able to" kullanabiliriz. "Couldn't" daha yaygın kullanılır.

I **couldn't/wasn't able to** use a computer just three months ago, but now I can.

The students didn't want to have a test that day, but they **couldn't/weren't able to** persuade the teacher to cancel it.

EXERCISE 9: Use "could" or "was/were able to" in the following. ("was/were able to" is possible in all of these statements, but you are required to use "could" to express "ability or permission in the past", and "was/were able to" to express "to overcome a difficult situation".

2-18 MAKING SUGGESTIONS

Öneri getirirken çeşitli yapılar kullanabiliriz.

a) LET'S + DO SOMETHING

It's a nice day today. **Let's go** out and have a walk.

A: I have a test tomorrow, but I don't understand some of the grammar patterns.

B: **Let's study** together. (*Birlikte çalışalım.*)

Let's kalıbının olumsuz biçimi "**Let's not**" dır.

It's a nice day today. **Let's not stay** home.

Let's go out for a walk. (*Evde oturmayalım. Yürüyüşe çıkalım.*)

"**Let's**" ve "**Let's not**", sonuna "*shall we?*" ya da "*okay?*" eklenerek soru biçimine dönüştü rülebilir.

A: Let's go to the cinema after class, **shall we?**

(*Dersten sonra sinemaya gidelim, olur mu?*)

B: I'm afraid I can't. I have to go home right after class. My mother will be waiting for me.

A: Let's buy her a silver ring for her birthday, **okay?**

B: That's a good idea! She likes wearing silver jewellery.

b) MAY/MIGHT (AS WELL)

"**May**" ve "**might**", öneri getirirken, olumlu veya olumsuz, düz cümlede kullanılabilir.

If you don't have any other plans, we **may/might invite** some friends over the weekend. What do you think?

"**May as well/might as well**" olumlu cümlede "**let's**" anlamı verir, ancak getirilen öneri, biraz zorunluluktan kaynaklanan, gönülsüzce yapılan bir öneridir.

Since we can't afford to go to the cinema this weekend, we **may/might as well** hire a video and watch it at home.

Olumsuz cümlede "**may/might as well**", "**needn't**" anlamı verir.

Since you are not close friends with Lucy, we **may/might as well** not attend her wedding next Sunday.

c) WHY DON'T/DOESN'T + SUBJECT....?

"**Why don't ...?**" yapısı, soru biçiminde olmasına karşın, gerçek bir soru değildir. Öneri getirir.

- I'm getting sleepy.

- **Why don't you** go to bed? (*Neden yatmıyorsun?*)

- I think I will.

- Bill has a terrible toothache.

- **Why doesn't he** go to see his dentist?

- I think he is afraid of visiting the dentist.

d) SHALL WE / I?

"**Shall**", özne olarak sadece "**we**" ve "**I**" ile kullanılır.

- What shall we do tonight?

- Let's go to the cinema.

- No, let's not. It seems to be a warm night, and I don't want to be inside.

- Okay then. Why don't we go to the seaside and walk along the coast?

- That sounds like a good idea.

- We should all contribute to the picnic.

- Okay. Shall I bring some pastries? My mother can make delicious pastries.

- That would be fine.

"**Shall I/we?**" sorusu Türkçe'ye "*..... yapayım mı/yapalım mı?*" biçiminde çevrilir.

Shall I help you? (*Sana yardım edeyim mi?*)

Shall we take a rope and a ball with us when we go on the picnic?

(*Pikniğe giderken yanımıza ip ve top alalım mı?*)

e) **COULD**

1. "Could" da, öneri getirirken kullanabileceğimiz yapılardan biridir.

- I want to take my son somewhere tomorrow, but I can't think of anywhere interesting. Got any suggestions?
- Well, you **could take** him to the theatre or cinema, or you **could go** to a park. To take him to the zoo would be very exciting too, I think.
- I don't know how I can improve my English.
- Well, there are several ways. You **could**, for example, **attend** a course, or you **could study** it from books by yourself, or if you can afford it, you can spend a few months in England.
- What shall we do tomorrow?
- We **could meet** friends and go to the cinema.
(Arkadaşlarla buluşup sinemaya gidebiliriz.)

2. "Could" un past biçimi "could have done" dir. "Geçmişte bir şeyi yapabiliirdin ama yapmadın." anlamını verir.

Yesterday, he was broke and had to walk home from school.
In fact, he **could have borrowed** some money from his friends, but he didn't want them to know that he didn't have any money.
(Aslında arkadaşlarından ödünç para **alabilirdi** ama...)

Yesterday, it was my day off. I **could have gone** somewhere, but I felt rather lazy, and spent the whole day at home.
(Bir yerlere **gidebilirdim** ama...)

"Couldn't have done" ise, "geçmişte bir şeyi isteseydin de yapamazdın" anlamını verir.

Yesterday, I wanted to visit my friend, but then, I changed my mind and stayed home. Later, I found out that she wasn't at home that day, so I **couldn't have visited** her even if I had wanted to.
(İsteseydim de onu **ziyaret edemezdim**.)

Last month, I went to Ankara with friends. I had planned to stay at my sister's house for the night, but I couldn't leave my friends, and we spent the night at a hotel together. Later, when I returned to Istanbul, I phoned my sister and told her about my visit there, and I found out that she wasn't in Ankara during my stay there, so I **couldn't have stayed** at her house even if I had wanted to.

- Why didn't you show up for our date yesterday?
- I wanted to, but our district manager came just as I was leaving work.
- Well, at least you **could have phoned** and **told** me that you weren't coming.
- I **couldn't have phoned** you, because the manager took me to the building site, and there is no telephone there, you know.
(... telefon edip gelmeyeceğini **söyleyebilirdim**.)
(... **telefon edemezdim**, çünkü orada telefon yok.)

3. "Could have done" ile "was/were able to, could do" arasındaki ayrıma dikkat ediniz.

I **could have sent** them a cheque. (But I didn't send them a cheque.)
(Onlara çek **gönderebilirdim** ama göndermedim.)

I **was able to send** them a cheque. (I sent them a cheque.)
(Onlara çek **gönderebilirdim**.)

When I had a cheque-book, I **could pay** by cheque.
(Çek defterim varken, çekle **ödeme yapabiliyordum**.)

2-19 EXPRESSING DEGREES OF CERTAINTY

Eğer bir konuda kesin olarak gerçeği bilmiyorsak, o konuda tahminlerde bulunuruz. Bu tahminlerimizi, derecelerine göre, "**must, may, might, could**" gibi modal yardımcı fiilleriyle ifade ederiz. Şimdi zamanlarına göre bu yapıları inceleyelim.

2-20 PRESENT TIME

a) Positive Statements

Eğer bir gerçeği kesin olarak biliyorsak, modal kullanmaya gerek yoktur.

- Why is Peter at home today? Why didn't he go to work?
- He **is** ill. (*I know that he is ill.*)

Gerçeği kesin olarak bilmiyorsak ama güçlü bir tahminde bulunuyorsak, "**must**" kullanırız.

- Why is Peter at home today?
- Well, he **must be** ill. (*Hasta olmalı.*)
(*I saw him last night, and he wasn't feeling very well, so I'm sure that he is ill today.*)
- The baby is crying. Why?
- She **must be** hungry. (*Aç olmalı.*)
She hasn't eaten anything for three hours.
- How does he know so much about everything?
- Well, he **must read** a lot. (*Çok okuyor olmalı.*)

Gerçeği kesin olarak bilmiyorsak ve güçsüz bir tahminde (ya da tahminlerde) bulunuyorsak, yani aklımıza gelen olasılıkları ifade etmek istiyorsak, "**may, might, could**" kullanırız.

- Why is Peter at home today?
- Well, I don't know. He **may/might/could be** ill. (*Hasta olabilir.*)
(*There may be some other possibilities, but I don't know.*)
Perhaps/Possibly/Maybe* he is ill. He is probably ill. It's likely that he is ill.)

"**May**", "**might**" ve "**could**" aynı anlama sahiptir ve Türkçeye "... olabilir" biçiminde çevrilir.

- Why is the baby crying?
- I don't know. There may be several reasons. She **may be** hungry, or she **might need** a nappy change or she **could need** burping.

- | |
|---|
| <ul style="list-style-type: none">- Why is Peter at home today?- He is ill. (<i>100% sure</i>)- He must be ill. (<i>95% sure</i>)- He may/might/could be ill. (<i>About 50% sure</i>) |
|---|

b) Negative Statements

Eğer gerçeği kesin olarak biliyorsak, durumu modal kullanmadan ifade ederiz.

- Why isn't Peter eating anything?
- He **isn't** hungry. (*I know that he is not hungry.*)

* "**Maybe**" bitişik yazılınca bir zarftır. Cümlelerin başında kullanılır:
"**Maybe** he is ill. (*Belki de hastadır.*)

"**May be**", "**modal+verb**" kullanımındır:
He **may be** ill. (*Hasta olabilir.*)

Gerçeği kesin olarak bilmiyorsak ama bazı temellere dayanarak güçlü bir tahminde bulunmak istiyorsak "**can't**" ya da "**couldn't**" * kullanırız. Bu yapıları Türkçeye "... *olamaz* / ... *olması imkansız*" biçiminde çevirebiliriz.

- Tim says he is very hungry.
- No, he **can't/couldn't be** hungry. He ate a huge meal just half an hour ago. (*It's impossible that he is hungry.*)
(Hayır, aç *olamaz*. Aç *olması imkansız*.)
- Your brother says he is broke.
- No, he **can't/couldn't be** broke. I gave him twenty dollars just an hour ago. (*It's impossible that he has no money.*)

Yine güçlü bir tahmini ("**can't**" ve "**couldn't**" a göre daha cılız), aklımıza gelen en mantıklı tahmini ifade etmek için "**must not** ***" kullanırız. Bu kullanımıyla "**must not**" genellikle kısaltılmaz.

- Your brother isn't eating his lunch.
- Well, he **must not be** hungry. (*Aç olmamalı. Herhalde aç değil.*)
(*Normally, he eats everything on his plate. If he isn't eating now, I'm almost sure that he isn't hungry. I can't think of any other reasons.*)
- Look! Peter is eating only salad. He hasn't even touched his fish.
- Well, he **must not like** fish. (*Balığı **sevmiyor** olmalı. Herhalde balığı **sevmiyor**.*)
- Jane always gets low grades in history.
- She **must not study** hard enough. (*Yeterince **çalışmıyor** olmalı. Herhalde yeterince **çalışmıyor**.*)

Tahminimiz güçsüz ise, sadece aklımıza gelen olasılıkları ifade ediyorsak "**may not**" ya da "**might not**" kullanırız.

- Why is Peter eating only salad? He hasn't even touched his fish.
- I don't know. He **may not/might not like** fish. (*Balığı **sevmiyor olabilir**. Belki de balığı **sevmiyordur**.*)
(*Maybe/Perhaps he doesn't like fish.*)
- Why does she always get low grades in history?
- I don't know. She **may not study** hard enough. (*Perhaps she doesn't study hard enough.*) (*Yeterince **çalışmıyor olabilir**.*)
- I'm going to see the manager.
- Phone him first. He **may/might not be** in his room. (*Odasında **olmayabilir**.*)

He isn't in his room. (100% sure) He can't/couldn't be in his room. (99% sure) He must not be in his room. (95% sure) He may not/might not be in his room. (about 50% sure)
--

2-21 PRESENT PROGRESSIVE FORMS OF MODALS

Tahminde bulunurken kullandığımız modal yardımcı fiillerini, içinde bulunduğumuz anda devam etmekte olduğunu düşündüğümüz eylemleri ifade etmek için de kullanırız.

- Where is your brother?
- He **is studying** in his room. (*I know that he is studying in his room.*)

* *Could* güçsüz bir tahmin, *couldn't* ise çok güçlü bir tahmin bildirir.

** Tahminde bulunurken kullanılan yapılardan "**must not**" sadece American English'de kullanılır. British English'de "**must not**" yerine "**can't/couldn't**" kullanılır.

- Where is your brother?
- I'm not sure, but he **must be studying** in his room. He has an exam tomorrow.
(*I'm almost sure that he is studying in his room.*)
(*Odasında ders çalışıyor olmalı.*)
- Look! Isn't that Elif going up Bahariye Street? Where **may/might/could she be going?**
- I don't know. She **may/might/could be going** to the cinema, or she **might/may/could be going** shopping. (*I think she is going shopping or to the cinema.*)
(*Sinemaya ya da alışverişe gidiyor olabilir.*)
- Don't make so much noise. Your brother is studying in the next room.
- No, he **can't/couldn't be studying** in the next room. I saw him in the street playing with other children just a quarter of an hour ago.
(*It's impossible that he is studying in his room.*)
(*Odasında ders çalışıyor olamaz. Ders çalışıyor olması imkansız.*)
- Do you hear some noise from the baby's room?
- Yes, I do. She **must not be sleeping**.
(*I'm almost sure that she isn't sleeping.*) (*Uyumuyor olmalı.*)
- I think your brother is studying in his room.
- Well, I don't know. He **may not/might not be studying**. There is music coming from his room. (*Perhaps/Maybe he isn't studying.*)
(*Ders çalışmıyor olabilir.*)

must may/might/could	+	be doing
can't/couldn't must not may not/might not		

2-22 PAST TIME

Geçmişe ilişkin tahminlerinizi ifade ederken, aynı modal yardımcı fiillerinin "perfect" biçimlerini kullanırsınız.

must may/might/could	+	have done
can't/couldn't must not may not/might not		

- I can't find my grammar book.
- Well, you **must have left** it in the classroom.
(*I'm almost sure that you left it in the classroom.*)
(*Sınıfta unutmuş olmalısın. Herhalde sınıfta unuttun.*)

I can't find my grammar book. I don't know where I left it.
I **may/might/could have left** it in the classroom or I **may/might/could have left** it on the bus.
(*It's possible that I left it in the classroom or on the bus.*)
(*Sınıfta unutmuş olabilirim ya da otobüste unutmuş olabilirim.*)

- I think I saw Susan at a cafe the other day, but I didn't talk to her. She was in a crowded group.
- No, you **can't/couldn't have seen** her there. She has been out of town for two weeks. She left for London two weeks ago.
(It's impossible that you saw her there.)
(Onu görmüş olamazsın. Onu görmüş olman imkansız.)
- Jane is normally a good student, but she got a low grade on yesterday's test.
- Well, she **must not have studied** hard enough.
(I'm almost sure that she didn't study hard enough.)
(Yeterince çalışmamış olmalı. Herhalde yeterince çalışmadı.)
- Why did Jane get a low grade on the last test? She is a good student, you know.
- Well, I don't know. She **might not/may not have studied** hard enough.
(Perhaps/Maybe she didn't study hard enough.)
(It's likely that she didn't study hard enough.)
(She probably didn't study hard enough.)
(Yeterince çalışmamış olabilir.)

NOTE

"Could have done" ve "couldn't have done" kalıplarının şu iki kullanımını arasındaki ayrıma dikkat ediniz.

1. a) I had lots of spare time yesterday. I **could have gone** to the cinema, but I preferred to stay at home.
(Sinemaya **gidebilirdim** ama evde kalmayı tercih ettim.)
(The result is: I didn't go to the cinema.)
- b) Last week, my husband was going to go to a match with his friends, but he didn't go. Later we found out that the match had been cancelled, so he **couldn't have gone** even if he had wanted to.
(İsteseydi bile **gidemezdi**.)
(The result is: He didn't go to the match.)
2. a) When I phoned her, she wasn't at home. She **could have gone** to the cinema, because she had told me that there was a good film on at the Süreyya cinema and that she wanted to see it.
(Sinemaya **gitmiş olabilir**.)
(The result is: Perhaps she was at the cinema when I phoned her.)
- b) He **couldn't have gone** to the match yesterday, because his leg has been in plaster since the previous match he was in.
(Dünkü maça **gitmiş olamaz**, çünkü)
(The result is: It's impossible that he went to the match yesterday.)

Bu iki anlam arasındaki farkı ancak "context" den, yani parçanın ya da konuşmanın bütününden çıkarabiliriz.

2-23 PAST PROGRESSIVE FORMS OF MODALS

Geçmişte bir noktada devam etmekte olduğunu düşündüğümüz eylemleri ifade etmek istiyorsak, modal yardımcı fiillerinin "perfect progressive" biçimlerini kullanırız.

must may/might/could	+	have been doing
can't/couldn't must not may not/might not		

- Peter had a car accident last Saturday. He said that a child had suddenly pushed himself in front of his car, and that he had swerved to the left so as not to hit the child, but he couldn't avoid running into another car.
- Then, he **must have been driving** fast at the time of the accident.
(Kaza sırasında hızlı sürüyordu herhalde.)

When I got home late last night, the light in my brother's room was still on. I didn't go to see what he was doing, but he **may/might/could have been reading** a book or **listening** to music.
(Perhaps/Maybe he **was reading** a book or **listening** to music.)
(Belki de kitap **okuyor** ya da müzik **dinliyordu**.)

He **can't/couldn't have been driving** very fast at the time of the accident, because I know that he doesn't like speeding.
(It's impossible that he **was driving** fast at the time of the accident.)
(Hızlı **sürüyor olması imkansız**.)

While I was preparing to go to bed last night, I heard some noises from my son's room. He **must not have been sleeping**.
(I'm almost sure that he **wasn't sleeping**.)
(Uyumuyor **olmalıydı**. Herhalde uyumuyordu.)

(Perhaps/Maybe he **wasn't studying**.)
(Ders **çalışmıyor olabilir**di. Belki de ders **çalışmıyordu**.)

2-24 FUTURE TIME

Geleceğe ilişkin olaylardan söz ediyorsak, "**will, should/ought to, may/might/could**" kullanabiliriz. Eğer bir olayın olacağından kesin olarak eminsek, "**will**" kullanırız.

- He **will pass** his driving test. He is very good at driving.

Güçlü bir tahminde bulunuyorsak, "**should/ought to**" kullanırız.

- He took plenty of driving lessons, and he drives the car very well. He **should/ought to pass** the test tomorrow.
(Yeterince **direksiyon dersi aldı**. Yarınki **sınavı geçmesi gerekir**. Herhalde geçer.)

"**Must**" geleceğe ilişkin tahminde bulunurken kullanılmaz. Ancak, içinde bulunduğumuz anda gelecekte bir eylemin olacağına ilişkin belirtiler varsa, "**must be doing**" kullanabiliriz.

Linda **must be giving** a huge party for her birthday next week. I saw her buying lots of food and drink at the market today.

"**Must**" ve "**should/ought to**" nun kullanımı açısından aşağıdaki örnekleri inceleyelim:

Many people went through the door and into the lecture hall. It **must be** very crowded in the lecture hall. (present)
(It is completely logical to claim that the lecture hall **is** crowded.)

Many people showed great interest in attending my lecture tomorrow. There **should/ought to be** a lot of people at my lecture tomorrow. (future)
(I expect that there **will be** a lot of people at my lecture tomorrow.)

The candidate has 70% of the vote in the pre-election polls.
He **should/ought to win** the election. (future)
(He is expected to win the election.)

Geleceğe yönelik daha güçsüz bir tahminde bulunurken, "**may/might/could**" kullanırız.

- He took some driving lessons, and isn't so bad at driving. He **may/might/could pass** his driving test tomorrow, but who knows. Anything can happen in a test. (*Yarınki direksiyon sınavını geçebilir.*)

NOTE

"Should/ought to" nun *tahmin/beklenti* ifade eden bu kullanımının past biçimi "**should have done/ought to have done**" dır. Ancak bu anlamıyla "**should have done/ought to have done**" bazen gerçekleşmemiş tahmin ya da beklenti ifade eder.

He **should/ought to have won** a lot of money at the horse races.
(*Perhaps he has won a lot of money - this is what I expected.*)
(*At yarışlarından çok para kazanmış olması gerekir.*)

(Bu ifadeyi kullandığında konuşmacı, kişinin ne kadar para kazandığını bilmiyor. Sadece tahminini ifade ediyor.)

He **should/ought to have won** a lot of money at the horse races.
(*I expected him to win a lot of money, but he didn't win a lot of money.*)
(*At yarışlarından çok para kazanmış olması gerektirdi, ama ...*)

(Bu ifadeyi kullandığında konuşmacı, kişinin ne kadar para kazandığını biliyor ve beklendiği kadar çok kazanmadığını ifade ediyor.)

2-25 ADVANCED NOTES ON MODALS EXPRESSING DEGREES OF CERTAINTY

a) will

"Will" in gelecekte olacağından emin olduğumuz durumları ifade etmek için kullanıldığını görmüştük. "Will", "must" gibi, ama "must" tan daha güçlü bir ifade biçimi olarak, *present* anlamda da kullanılabilir.

You are expecting your friends Dave and Helen to arrive at 8 o'clock; you check your watch and it reads 8 o'clock; you hear the doorbell; you say:

That **must be** Dave and Helen.
(*It is completely logical to claim that Dave and Helen are the people at the door.*)

You are expecting your friends Dave and Helen to arrive at 8 o'clock; you check your watch and it reads 8 o'clock; you hear the doorbell and you hear Dave and Helen's voices coming from outside; you say:

That **will be** Dave and Helen.
(*I feel sure that it is Dave and Helen because I can hear their voices.*)

b) would

"Would" da "*will*" in yukarıda belirttiğimiz anlamıyla kullanılabilir, ancak biraz daha az kesinlik ifade eder ve daha çok soru biçiminde kullanılır.

You are at home when the doorbell rings at around 8 o'clock, and your flatmate, to whom you've mentioned that you're expecting Dave and Helen at 8, says:

Would that **be** Dave and Helen?

c) may and might

"May" ve "might", daha önce üzerinde durduğumuz kullanımları dışında, kabullenme, karşı çıkma, amaç ya da sonuç ifade eden bir anlama da sahiptir.

I **may/might be going** to the party tonight, but that doesn't mean I'm going to enjoy myself.
(Although I am going to the party tonight, that doesn't mean I'm going to enjoy it.)
(Result: I'm **going** to the party tonight.)
(Bu gece partiye gidiyor olabilirim, ama...)

They **may/might be having** arguments frequently, but this doesn't show that they don't love each other.
(I admit that they **are having** arguments frequently, but...)
(Sık sık kavga ediyor olabilirler, ama...)

Aynı kullanım, "**may/might have done**" biçiminde, *past* durumlar için de geçerlidir.

He **may/might have fallen** in love with her, but he's definitely not planning to marry her.
(I admit that he's **fallen** in love with her, but...)
(Ona aşık olmuş olabilir, ama ...)

He **may/might have criticized** his daughter a little too harshly, but she really deserved it.
(I admit he **criticized** his daughter a little too harshly, but...)
(Kızını biraz fazla sert bir biçimde eleştirmiş olabilir, ama ...)

EXERCISE 11: Write a form of "must" in the following. "Must do", "must be doing", "must have done", "must have been doing".

2-26 PREFERENCE

Tercihlerimizi ifade ederken, "would rather/would sooner", "prefer/would prefer" ve "like something better than something" kalıplarını kullanırız.

a) would rather/would sooner

"Would rather" ve "would sooner" dan sonra gelen fiil yalındır. "Bir şeyi bir şeye tercih ederim" demek için ise arada "than" kullanılır. "Would rather" ve "would sooner" aynı anlama gelir, ancak "would rather" daha sık kullanılır.

I **would rather read** something **than watch** TV.

Eğer iki taraftaki fiil aynı ise, fiili sadece birinci tarafta kullanmak yeterlidir.

I **d rather/sooner drink** coffee than (**drink**) tea.
(Çay içmektense/çay içmek yerine, kahve içmeyi tercih ederim.)

İki tarafta kullanılan preposition aynı ise, preposition'ı sadece birinci tarafta kullanmamız yeterlidir.

She'd rather go **to** the theatre than (go to) the cinema.

"Would rather be doing" içinde bulunduğumuz anda yapmakta olduğumuz işten hoşnut olmadığımızı ifade eder ve "Bunu yapıyor olmak yerine başka bir şey yapıyor olmayı tercih ederdim." anlamını verir.

I **d rather be walking** by the seaside than (**be studying**) now.
(Şimdi ders çalışıyor olmak yerine sahilde yürüyor olmayı tercih ederdim.)
(But I'm studying now.)

They'd **rather be living** in the country than (**be living**) in Istanbul.
(But they are living in Istanbul.)

You'd **rather be listening** to music now than (**be listening**) to the lesson.

"Would rather have done" ve "would sooner have done" geçmişte yapmayı tercih ettiğimiz ama yapamadığımız eylemleri ifade eder.

I **d rather have stayed** home than (**have gone**) to the cinema last night.
(But I went to the cinema.)
(Dün akşam sinemaya gitmek yerine evde kalmayı tercih ederdim.)

He studied law, because his parents wanted him to, but he'd **rather have studied** engineering.

I **d rather have gone** to bed early last night, but I couldn't, because some guests arrived just as I was getting ready to go to bed.

Olumsuz cümlelerde, olumsuzluk eki "not", "rather" ve "sooner" dan sonra gelir.

I **d rather not tell** him the news. It's really depressing. (Present)
(Haberini ona söylememeyi tercih ederim.)

I **d rather not be studying** right now, but I am. (Present Progressive)

I **d rather not have invited** her to my party. She caused us a lot of trouble by drinking too much. (But I invited her.) (Past)

- b) Eger, "would rather/sooner" in öznesiyle, eylemi yapacak olan kiři farklıysa, "would rather + subject + past tense" kalıbı kullanılır. Cümlede Past Tense kullanılmasına rağmen, anlam present ya da future'dur.

She wants to be a nurse, but I'd rather **she became** a teacher.

They want to travel by train, but I'd rather **they travelled** by car.

I want to attend a university abroad, but **my parents** would rather **I studied** in Turkey.

(Ben yurt dışında bir üniversitede okumak istiyorum, ama ailem benim Türkiye'de okumamı tercih ediyor.)

- Would you mind if I smoked here?

- Well, I'd rather **you didn't**. (I'd rather you didn't smoke.)

She always asks me too many questions.

I'd rather **she didn't ask** me so many questions.

Bir başkasının geçmişte yapmasını tercih ettiğimiz ama gerçekleşmemiş eylemleri "would rather + subject + Past Perfect" ile ifade ederiz.

I'd rather **she had gone** to Ankara by train, but she went by bus.
(Trenle gitmiş olmasını tercih ederdim, ama)

I'd rather **they hadn't invited** me to their wedding. Now I have to go.
(But they invited me.)
(Düğünlerine beni çağırmamış olmalarını tercih ederdim.)

c) prefer and would prefer

prefer (doing) something to (doing) something else
prefer to do something rather than (do) something else

"Prefer something to something" yapısıyla, fiil kullanmadan isim kullanabiliriz.

I prefer coffee **to** tea./She prefers vegetables **to** meat.

Eğer fiil kullanırsak fiil "-ing" takısı alır.

I prefer **drinking** coffee **to drinking** tea.
She prefers **eating** vegetables **to eating** meat.

"Prefer to do something rather than (do) something" yapısıyla sadece fiil kullanabiliriz.

I prefer **to drink** coffee **rather than (drink) tea**.
She prefers **to eat** vegetables **rather than (eat) meat**.

"Would prefer", "would rather" ile aynı anlamdadır. Ancak kullanımındaki ayrıma dikkat ediniz.

I would rather do something than (do) something else
I would prefer to do something than/rather than (do/doing) something else

I'd rather **stay** at home today **than go** shopping with you.

I'd prefer **to stay** at home today **than/rather than go/going** shopping with you.

Bazı durumlarda, "would prefer...than/rather than" kalıbıyla, ikinci bölümdeki eyleme vurgu yapmak için fiili "to do" biçiminde kullanmak mümkündür. Ancak bu kullanım çok yaygın değildir.

I'd prefer **to eat** bread and cheese with my friends **rather than (to) dine** in a fancy restaurant with these boring people.

"Would rather/sooner" dan sonra doğrudan isim gelmez. "Would prefer" den sonra isim gelebilir.

- Would you prefer tea or coffee?
- Neither, please. I'd prefer **a cold lemonade**.
I'd rather **have a cold lemonade**.

Past biçimleri için de aynı kural geçerlidir.

I would rather have done something than (have) done something else
I would prefer to have done something rather than/than (have) done something else

I'd **rather have bought** our own house than (have) **rented** this one.
I'd **prefer to have bought** our own house than/rather than (have) **rented** this one.
(Bunu kiralamak yerine kendimize ev almış olmayı tercih ederdim.)

Birinin birşey yapmasını tercih ederken, **would rather someone did something** kalıbının kullanıldığını görmüştük. Aynı anlamı "would prefer" ile vermek istersek, "object + to do" biçiminde ifade etmemiz gerekir.

I would rather/sooner + subject + did something
I would prefer + object + to do something

I'd rather **he himself decided** on this occasion.
I would prefer **him to decide** for himself on this occasion.
They'd rather **I didn't** live in a separate house.

(Yüzmeyi, plajda güneşlenmekten daha çok seviyor.)
(Plajda güneşlenmektense, yüzmeyi tercih ediyor.)

- e) Eğer, geçmişte tercih ettiğimiz eylem, istediğimiz yönde gerçekleşmişse, bunu ifade etmek için "would rather" ya da "would sooner" kullanamayız. Çünkü, her ikisi de "geçmişte tercih ederdim, ama olmadı" anlamını verir. "Geçmişte şu eylemi yapmayı tercih ederdim ve yapardım" biçimindeki bir ifadeyi "like" ve "prefer" ile verebiliriz.

When I was a child, I **preferred** playing in the open air to playing inside.

UNIT 3

The Passive

INTRODUCTION

Etken bir fiili (*active*), edilgen (*passive*) bir fiile dönüştürebilmemiz için, o fiilin geçişli bir fiil (*transitive*) olması gerekir. Yani, *open, close, give, buy, invite, etc.* gibi nesne alabilen bir fiil olması gerekir. *Happen, come, go, seem, cry* gibi nesne almayan fiiller (*intransitive*), passive yapılamaz.

Active: The school custodian **opens** the door every day.

Passive: The door **is opened** by the school custodian every day.

Active: An accident **happens** at this crossroads nearly every day.

(No passive, because there isn't an object.)

3-1 FORMING THE PASSIVE

Active fiilin nesnesi, passive cümlede **özne** durumuna geçer ve cümlenin tense'ine uygun olarak **be + past participle** (*fiilin üçüncü hali*) kullanılır.

He is washing the car.
object

The car **is being washed** by him.
subject

Mum cooked the dinner.
object

The dinner **was cooked** by Mum.
subject

**NOTE**

"am/is/are doing" ve "was/were doing" dışındaki progressive tense'lerle (will be doing, have been doing, had been doing, will have been doing) passive kullanımı çok enderdir.

- b) "Always, usually, just, already, probably" gibi cümle içinde kullanılan zaman zarfları genellikle, "be" fiilinden sonra gelir. Ancak, vurgulanan öğeye bağlı olarak bu zarflar, cümle içinde farklı yerlerde bulunabilir.

WHAT TO EAT

Before the arrival of our son, my husband and I attended birthing classes at the hospital. One day we toured the maternity ward. The instructor mentioned that on the last evening of our stay, we would be given a complimentary dinner for two, and she told us what the menu selections would be. As we continued the tour, I whispered to my husband, "Honey, I'm getting so excited."

"Me too," he replied, "I'm going to order the lobster."

(by Katie Schneider from Reader's Digest)

3-3 USING "by phrase"

Passive bir cümlede, eylemi yapan kişiyi "by phrase" ile belirtiriz.

Active: **My mother** made this pullover.

Passive: This pullover was made **by my mother**.

Active: **The President** will announce the date of the meeting.

Passive: The date of the meeting will be announced **by the President**.

Ancak, passive bir cümlede eylemi yapan kişi, eğer eylemin kimin tarafından yapıldığı önemliyse belirtilir. Eylemin kimin tarafından yapıldığı değil de, eylemin yapılmış olması önemliyse, "by phrase" kullanılmaz.

Active: **Einstein** developed the theory of relativity.

Passive: The theory of relativity was developed **by Einstein**.

Yukarıdaki örnekte, "by Einstein" kullanarak, eylemi yapan kişiyi (agent) belirtmek zorundayız. Çünkü "by Einstein" ifadesini kullanmazsak, "İzafiyet teorisi geliştirildi." olur ki bu da anlamlı bir cümle olmaz. "İzafiyet teorisi Einstein tarafından geliştirildi." doğru ve tam bir cümledir.

Aşağıdaki örneklerde, eylemin kim ya da kimler tarafından yapıldığı önemli olmadığı için, "by phrase" kullanmaya gerek yoktur.

Active: People mine coal in Zonguldak.

Passive: Coal **is mined** in Zonguldak.

Active: The judge sentenced the murderer to life imprisonment.

Passive: The murderer **was sentenced** to life imprisonment.

Active: Someone made this pullover in Germany.

3-4 USING PASSIVE IN INTERROGATIVES

Active bir soruyu, *passive* bir soruya dönüştürürken yine aynı kurallar geçerlidir.

Active: **Is** Jack **washing** the car now?
Passive: **Is** the car **being washed** by Jack now?

Active: **Does** Jack **wash** the car every day?
Passive: **Is** the car **washed** by Jack every day?

Active: When **does** Jack usually **wash** the car?
Passive: When **is** the car usually **washed**?

"Who" ile sorulan sorularda dikkatli olunuz. Eğer "**who**", eylemi yapan kişiyi (*agent*) soruyorsa "**Who by?**" soru biçimini kullanmamız gerekir.

Active: **Who** discovered America?
Passive: **Who** was America discovered **by**?
(**By whom** was America discovered?)

Active: **Who** founded the Republic of Turkey?
Passive: **Who** was the Republic of Turkey founded **by**?
(**By whom** was the Republic of Turkey founded?)

"Who" nesne durumundaki kişiyi soruyorsa "by" kullanılmaz. Ancak, nesneye ait bir preposition varsa, o kullanılır.

Active: **Who** will you invite to your party?
Passive: **Who** will be invited to your party?

Active: **Who** did you see him **with**?
Passive: **Who** was he seen **with**? (**With whom** was he seen?)

Active: **Who** are you going to borrow the money **from**?
Passive: **Who** is the money going to be borrowed **from**?
(**From whom** is the money going to be borrowed?)

Active: **Who** did he lend his car **to**?
Passive: **Who** was his car lent **to**? (**To whom** was his car lent?)

"What" bir cümlede nesneyi sorar. Yani, "what" ile sorulmuş bir soruda, nesne yoktur. Bu durumda, cümleyi passive yaparken, özne durumuna getirebileceğimiz bir sözcük yok demektir. Böyle bir cümleyi şu şekilde passive yaparız:

Active: **What** are they doing about the case?
Passive: **What is being done** about the case?

Active: **What** did they do about the case?
Passive: **What was done** about the case?

Active: **What** have they done about the case?
Passive: **What has been** done about the case?

NOTE

Passive cümlede "what"dan sonra gelen fiiller tekildir.

3-5 INDIRECT OBJECTS AS PASSIVE SUBJECTS

Bazı fiiller iki nesne alır: "*indirect object*" ve "*direct object*". Bu nesnelerin cümle içindeki yerleri iki şekilde olabilir.

I gave him some money yesterday.
I.O. D.O.

I gave some money to him yesterday.
D.O. I.O.

I will buy her a book tomorrow.
I.O. D.O.

I will buy a book for her tomorrow.
D.O. I.O.

Örneklere gördüğünüz gibi, *indirect object*, yani insan olan nesne, fiilden hemen sonra geliyorsa, diğer nesneye geçerken bir preposition kullanılmaz. Eğer fiilden hemen sonra *direct object* geliyorsa, *indirect object*'e geçerken, fiilin gerektirdiğine göre, "to" ya da "for" kullanılır.

Bu iki nesneli fiillerin *passive* biçimi de iki şekilde olur:

Active: I gave him some money yesterday.
I.O. D.O.

Passive 1: **He was given** some money yesterday.

Passive 2: **Some money was given** to him yesterday.

Passive 2: **A book will be bought** for her tomorrow.

UNDRESSING THE EGG

During the time that the US author John Cheever and his family lived in Rome, they had a maid who spoke very little English. Every morning she would serve Cheever a soft-boiled egg, which had been peeled in the kitchen and, consequently, was stone cold. After a week of this, Cheever went to his Italian-English dictionary and constructed and memorised a sentence to explain, in the most polite terms, his desire to shell his own eggs. When he delivered his sentence early the next morning, however, the woman turned bright red, slapped him and marched out of the flat.

She returned that evening, still angry. It was then that Cheever learnt what he had really said: "Do not undress in the kitchen, you egg."

BAPTIZED PUPPIES

A client brought a litter of golden-retriever puppies to my veterinary clinic for inoculations and worming. As the look-alike puppies squirmed over and under one another in their box, I realised it would be difficult to tell the treated ones from the rest. I turned on the water faucet, wet my fingers and moistened each dog's head when I had finished.

After the fourth puppy, I noticed my hitherto talkative client had become silent. As I sprinkled the last puppy's head, the woman leaned forward and whispered, "I didn't know they had to be baptized."

3-7 STATIVE PASSIVE

İngilizce'de fiillerin üçüncü halleri (*past participle*), bazı cümlelerde sıfat gibi işlev görür. Bu cümleler yapı olarak **passive** olmalarına karşın, kullanılan *past participle*, eylemin nasıl yapıldığını ya da kim tarafından yapıldığını ifade etmez. Yalnızca bir ismi tanımlar. Yani bir nesnenin ya da kişinin durumunu ifade eder. Bir ismi tanımladığı için de bu sözcükler sıfat görevindedir.

The window is **large**.
The window is **white**.
The window is **broken**.

İlk iki cümledeki "**large**" ve "**white**" sözcük türü olarak sıfattır. "**Broken**" ise "break" fiilinin üçüncü halidir; ancak o da, "**large**" ve "**white**" gibi "window" sözcüğünü tanımlamıştır. Bu tür sözcüklerin, cümlede **passive** eylem görevinde mi yoksa bir ismi tanımlayan sıfat görevinde mi olduğunu cümlelerin akışından çıkarabiliriz.

Yesterday, the window of the classroom **was broken** by one of the students.

"Want, would like, enjoy, hate, like" gibi fiiller, hem nesne alarak hem de nesne almadan kullanılabilen fiillerdir. Eğer bu fiilleri nesnesiz kullanıyorsak, passive biçime dönüştüremeyiz. Bazıları kural olarak dönüştürülebilse de, anlam açısından bozuk cümleler elde edilir.

I **want to go** abroad. (No passive)

I **would like to read** a book. (No passive)

I **like** swimming.

("Swimming is liked by me." kural olarak doğru bir cümledir. Ancak "Yüzme benim tarafımdan sevilir." anlamsız bir cümledir.)

3-13 IT'S SAID THAT.../ HE IS SAID TO... etc.

"Main clause + noun clause" biçiminde kurulmuş olan cümleleri iki şekilde **passive** yapabiliriz. İki cümlenin de Türkçe'ye çevirisi aynıdır.

Active: People **say** that he **lives** abroad now.

Passive 1: It **is said** that he **lives** abroad now.

Passive 2: He **is said to live** abroad now.

(Onun şimdi yurtdışında yaşadığı **söyleniyor**.)

Active: People **believe** that he **is** the murderer of his wife.
Passive 1: It's **believed** that he **is** the murderer of his wife.
Passive 2: He **is believed to be** the murderer of his wife.
(Onun, karısının katili olduğuna **inanılıyor**.)

Birinci tip passive cümleye "It's + past participle" ile başlanır ve "that clause" aynen eklenir. İkinci tip passive cümleye ise, "noun clause"daki özne ile başlanır. Bu passive biçimini tense'lere göre şu şekillerde kullanabiliriz:

a) Present "be" (*am, is, are*)

They **say** that the man upstairs **is** a thief.
It **is said** that the man upstairs **is** a thief.
The man upstairs **is said to be** a thief.

b) Simple Present

People **believed** that he **had committed** the crime.
It **was believed** that he **had committed** the crime.
He **was believed to have committed** the crime.

Temel cümlelerin yüklemi "**present**", yan cümlecüğün yüklemi "**past**" olduğu zaman passive cümlede "**to have done**" yapısının kullanıldığını gördük. Bunun nedeni, eylemler arasındaki zaman ilişkisini vurgulamaktır.

They **believe** that she **acted** deliberately.
(believe: present, acted: past)
It **is believed** that she **acted** deliberately.
She **is believed to have acted** deliberately.

Eğer hem temel cümlelerin hem de yan cümlecüğün yüklemi "**past**" ise, iki eylem arasında zaman farkı olmadığı için, bu ifadeyi passive yapıya "**to do/to be doing**" biçiminde aktarırız. Yan cümledeki eylem daha önce gerçekleşmişse, bunu active cümlede "**past perfect/past perfect continuous**" kullanarak ifade ederiz. Bu durumda, iki eylem arasındaki farkı göstermek için passive cümlede yine "**to have done/to have been doing**" kullanırız.

She **was believed to know** the truth.

INTRODUCTION

"If clause" un Türkçe karşılığı "*koşul cümlesi*" dir. Koşul cümleleri iki cümlecikten oluşur: "if" clause ve temel cümle. Cümleye "if" clause ya da temel cümle ile başlamak anlamı değiştirmez. Ancak, "if" clause cümle başında yer aldığına, temel cümleye geçerken virgül kullanılır.

If it **had been** our day off yesterday, we **would have had** a barbecue in the garden. (*past*)

4-2 TYPE 1: TRUE IN THE PRESENT OR FUTURE

İçinde bulunduğumuz anda ya da gelecekte, belli bir koşul yerine geldiğinde olabilecek olayları **type 1- if clause** ile ifade ederiz. Temel olarak kullanabileceğimiz tense'ler, "if"li cümlede **Simple Present** (*do/does*), temel cümlede ise **Simple Future** (*will*) dir.

I *will visit* my parents after work if I *have* time.
They *will come* to the cinema with us if they *leave* work early enough.

4-3 TYPE 1 "IF" CLAUSE İLE KULLANABİLECEĞİMİZ TENSE'LER

"If"li cümlede *Simple Present*, temel cümlede *Future Tense* kullanımının dışında, gerek **if** clause'da gerekse temel cümlede başka yapılar da kullanabiliriz.

(Advisability)

If she doesn't want to be fired, she **had better be** punctual.

(Suggestion)

If the weather is nice at the weekend,

why don't we have a picnic?

shall we have a picnic?

let's have a picnic.

we **could have** a picnic.

e) **The Simple Present Tense**

Temel cümlede **Simple Present** kullanımı çok yaygın değildir. Ancak, alışkanlıklarımızdan, belli bir koşul yerine geldiğinde genelde yaptığımız eylemlerden ve doğa olaylarından söz ediyorsak, temel cümlede **Simple Present** kullanabiliriz.

If someone shouts at me when I don't deserve it, I **get** angry. (general)

If I get hungry before lunch time, I usually **eat** a few biscuits to satisfy my hunger. (general)

If you boil water, it **evaporates**. ("will evaporate" de kullanılır.)

2. **"IF"LI CÜMLEDE KULLANABİLECEĞİMİZ YAPILAR**

"If"li cümlede en çok kullanılan tense, **Simple Present Tense**'dir. Bunun yanı sıra kullanabileceğimiz yapıları şöyle sıralayabiliriz:

a) **Can (permission or ability)**

- If the water **is boiling**, you can put it in.

- If you **have finished** your lunch, I'll ask the waiter for the bill.

e) Should

"If"li cümlede "**should**" kullanmamız, olasılığın biraz daha az olduğunu vurgular.

- If you need any help, I can help you.
- If you **should need** any help, I can help you.

Bu iki cümle arasında çok önemli bir fark yoktur. Ancak "*If you should need...*" ifadesinde olasılık biraz daha azdır. Yani "*Yardıma ihtiyacın olmaz ama, eğer ihtiyaç duyacak olursan...*" gibi bir anlam ifade etmektedir.

- Probably you won't see him tomorrow. But if you **should see** him, can you give him a message?
- I don't think it will rain tomorrow. But if it **should rain**, we will have to cancel the picnic.

4-4 TYPE 2: UNTRUE (CONTRARY TO FACT) IN THE PRESENT OR FUTURE

Type 2 - if clause, içinde bulunduğumuz anda ya da gelecekte olacak bir olayın tersini düşünüp koşul ileri sürmek ve bu hayali koşulun sonucunu ifade etmek için kullanılır. Bu nedenle, kullanabileceğimiz tense'ler, gerçeği ifade etmek için kullanacağımız tense'lerden bir derece daha past olmalıdır. Yani, *will* yerine *would*, *can* yerine *could*, *do* yerine *did* kullanmak gibi.

Truth: I **don't have** enough money now, so I **can't lend** you any to buy that shirt. (present)
(Şu anda yeterli param yok. Bu yüzden, o gömleği alman için sana para veremem.)

YOU NEED ONE

On my way to an appointment during a heavy rainstorm, I received a call on my pager that required an immediate response. When I spotted a pay phone, I parked my car and stepped out into the deluge. As I approached the telephone, it started to ring. Water running down my face, I told the caller that there was no one around and that I needed to make a call right away.

"You wouldn't be standing in the rain if you had a cellular phone," the man replied. "Look across the parking lot. I'm the guy in the car waving."

He was a car-phone salesman, waiting for potential customers.

RUNS for HER LIFE

We live in a rural area and our youngest daughter, Pat, is a cross-country champion. Part of her training is running 60 to 70 miles a week on local country roads. For safety purposes, her father follows closely behind her with his large tractor.

During one of his visits, my elderly grandfather watched her training from an upstairs window. As she turned into the lane, I commented that she was becoming quite fast.

"Well," Grandfather replied, "I'd be very fast too if I was about to be run down by a tractor."

4-9 OTHER CONDITIONALS

1. PROVIDED/PROVIDING THAT, AS LONG AS/SO LONG AS, ONLY IF

Bu yapılar, tense kuralları açısından aynı "if" gibi kullanılırlar. Ancak "if" den daha güçlü bir koşul ifade ederler.

You can pass the exam **if** you study hard.
(Eğer çok çalışırsan sınavı geçebilirsin.)

You can pass the exam **only if** you study hard.
provided (that)
providing (that)
as long as
so long as
(Sınavı ancak çok çalışırsan geçebilirsin.)

"Only if" cümlelerin başında kullanılırsa, temel cümle devrik olur. Diğerlerinde böyle bir değişiklik yapılmaz.

Provided (that) you study hard, you can pass the exam.
Providing (that)
As long as
So long as

Only if you study hard **can you pass** the exam.

I will lend him some money **provided** he promises to pay me back.
I would lend him some money **provided** he promised to pay me back.
I would have lent him some money **provided** he had promised to pay me back.

I can forgive her **so long as** she apologizes to me.
I could forgive her **so long as** she apologized to me.
I could have forgiven her **so long as** she had apologized to me.

2. UNLESS

Unless, "except on the condition that" anlamını veren bir bağlaçtır. Olumsuz bir anlama sahip olduğu için bağlı bulunduğu cümle genellikle olumlu yapıdadır. Bu nedenle unless, bazı cümlelerde "if ... not" yerine kullanılabilir. **Unless** daha çok uyarı anlamı içeren ifadelerde kullanılır. *Type 2 - if clause* ile kullanımı çok kısıtlıdır.

You can't pass the exam **if you don't study**.
You can't pass the exam **unless you study**.

We can't get to the cinema in time for the beginning of the film **unless we leave** immediately/**if we don't leave** immediately.

Unless you leave home at once, you will be late for work.

The factory will have to be closed down **unless the economic situation improves**.

Unless' in bağlı bulunduğu cümle genellikle olumludur ancak anlamı olumsuzdur. **Unless**' den sonra olumsuz bir ifadenin kullanılması çok güçlü bir vurgu belirtir.

Don't go out in the midday sun **unless/except on the condition that you really can't avoid it**.
(Don't go out in the midday sun **if you can avoid it**.)

Bu iki cümle anlamca birbirine yakındır. Ama **unless**'li cümle güçlü bir uyarı, **if**'li cümle ise bir öğüt ifade eder.

"Unless" ile kurulmuş bir cümlelerin "if ... not" ile ifade edilmiş biçimi her zaman aynı anlamı vermez. Özellikle **Type-3 "if" clause**'larda bu anlam değişikliğine dikkat etmek gerekir.

"Unless" her zaman bir istisna, ya da istisnai durumlar ifade eder. Öyle ki, temel cümledeki eylemi sadece "unless" in bağlı bulunduğu cümledeki koşul değiştirebilir. Bu nedenle, "unless" ile kurulmuş bir cümlelerin eş anlamlısı genellikle "**only if**" (sadece/ancak koşulda) ile elde edilmektedir. "Unless" çoğunlukla, temel cümlelerin olumsuz olduğu cümlelerde kullanılır.

Don't call me **unless** you (really) need help.
Call me **only if** you really need help.
Don't call me **if** you don't need any help.
(There is only one exception to "Don't call me", and that is your really needing help.)

I'll be on time for the meeting **if I can find** a taxi.
I won't be on time for the meeting **if I can't find** a taxi.

I won't be on time for the meeting **unless I can find** a taxi.
I'll be on time for the meeting, **unless I can't find** a taxi.
(The only way that I will be on time for the meeting is if I can find a taxi.)
(The only way that I won't be on time for the meeting is if I can't find a taxi.)

Yukarıdaki örneklerde, "unless" ile "if ... not" arasında temelde fark yoktur, ancak "unless" li cümleler daha vurguludur.

Type-3 "if" clause'larda "unless", genellikle "sonradan akla gelen bir düşünceyi" ifade etmek biçiminde kullanılır ve " - unless, of course," (ancak tabii ki, olmasaydı/yapmasaydım.) biçiminde bir anlam verir. Konuşma dilinde "unless" ile "of course" un birlikte çok sık kullanılması, yazı dilinde ise genellikle "unless" li cümlelerin temel cümleden tire ile ayrılması, bu "sonradan akla gelen bir düşünceyi" ifade etmeyi vurgulamaktadır. Aşağıdaki örnekleri inceleyelim.

I **couldn't have got** to the airport on time yesterday **if I hadn't found** a taxi.
(Result: I got to the airport on time because I found a taxi.)

I **couldn't have got** to the airport on time yesterday - **unless, (of course), I had found** a taxi.
(Result: I didn't get to the airport on time because I didn't find a taxi.)
(The only way that I could have got to the airport on time was if I had found a taxi.)

3. EVEN IF

"Even if", "... olsa bile/... olmasa bile" anlamını verir. Yani, istenilen koşul yerine gelmese bile, sonuç değişmeyecek demektir. Şu iki cümleyi karşılaştıralım:

If it is cold tomorrow, we won't go on a picnic.
(Eğer yarın hava soğuk olursa pikniğe gitmeyeceğiz.)

Even if it is cold tomorrow, we will go on a picnic.
(Yarın hava soğuk olsa bile pikniğe gideceğiz.)

I will forgive him **if** he apologizes to me.
(Eğer benden özür dilerse onu bağışlarım.)

I won't forgive him **even if** he apologizes to me.
(Benden özür dilesse bile onu bağışlamayacağım.)

If clause'da kullanılan tense kuralları, "even if" için de geçerlidir.

I **will go** to the party even if they **don't invite** me.
I **would go** to the party even if they **didn't invite** me.
I **would have gone** to the party even if they **hadn't invited** me.

4. WHETHER ... OR NOT

"Whether ... or not" "... *olsa da, olmasa da*" anlamını verir. Yani istenilen koşul yerine gelse de gelmese de sonucu etkilemeyecek demektir.

I will go to the party **whether** they invite me **or not**.
(*Beni davet etseler de etmeseler de partiye gideceğim.*)

"Whether... or not" ile "even if", anlam yönünden birbirlerine benzerler.

I won't forgive him **whether** he apologizes to me **or not**.
I won't forgive him **even if** he apologizes to me.

You have to help him **whether** you like him **or not**.
You have to help him **even if** you don't like him.

You must hand in your exam papers **whether** you have finished writing them **or not**.
You must hand in your exam papers **even if** you haven't finished writing them.

5. SUPPOSE/SUPPOSING (THAT), ON (THE) CONDITION THAT and WHAT IF

Bu kalıplar genellikle, resmiyet gerektirmeyen, samimi ortamlarda kullanılır.

Suppose (that) we miss the train, how else can we get there?
(*If we miss the train, how else can we get there?*)
(*Fazet ki treni kaçırdık,*)

Supposing (that) he cheated on you, how would you react?
(*If he cheated on you, how would you react?*)
(*Fazet ki seni aldattı,*)

I can allow you to use my car **on (the) condition that** you promise to drive carefully.
(*...dikkatli süreceğine söz vermen koşuluyla...*)

You can take my dictionary **on (the) condition that** you bring it back by Friday.
(*Cuma gününe kadar geri getirmen koşuluyla...*)

What if you don't get your salary in time?
What will happen if you don't get your salary in time?
(*Maaşını vaktinde alamazsan ne olacak?*)

What if he didn't come tomorrow?
What would happen if he didn't come tomorrow?
(*O yarın gelmese ne olur?*)

What if you hadn't learnt the news?
What would have happened if you hadn't learnt the news?
(*Haberini öğrenmemiş olsaydın ne olurdu?*)

6. IN CASE

a) "**In case**", "...*olursa diye*" anlamını verir. Temel cümlede yapılan eylem, "in case" li cümledeki olabilecek, olması muhtemel bir başka eyleme karşı bir ön hazırlık ifade eder.

I will take something to eat **in case I get hungry** during the journey.
(*Yolda acıksam diye yanuma yiyecek bir şeyler alacağım.*)

I took an umbrella with me **in case it rained**.
(*Yağmur yağarsa diye yanuma şemsiye aldım.*)

I sent him a second letter **in case he hadn't received** the first one.
(*Birincisini almamışsa diye ona ikinci bir mektup gönderdim.*)

"In case", "if" ile karıştırılan bir bağlaçtır. Ancak, ikisi farklı anlamlar ifade ederler. Şu iki örneği karşılaştıralım:

I will go to my mother's tomorrow **in case she needs** help with my brother's wedding preparations.
(Kardeşimin düğün hazırlıkları için yardıma ihtiyacı olursa diye yarın annemlere gideceğim.)

I will go to my mother's tomorrow **if she needs** help with my brother's wedding preparations.
(Kardeşimin düğün hazırlıkları için yardıma ihtiyacı olursa, yarın annemlere gideceğim.)

Birinci örnekte, "Annemin yardıma ihtiyacı olabilir veya olmayabilir. Ama yardıma ihtiyacı olduğunda ben orada hazır bulunmak istiyorum." anlamı ifade edilmektedir. İkinci örnekte ise "Annemin yardıma ihtiyacı olursa gideceğim." ifadesi, "ihtiyacı olmazsa gitmeyeceğim." anlamına gelmektedir.

I will take an umbrella with me when going out **in case it rains**.
(Yağmur yağarsa diye dışarı çıkarken yanıma şemsiye alacağım.)
(Yağmur yağabilir de, yağmayabilir de. Ama eğer yağarsa ben hazırlıklı olacağım.)

I will take an umbrella with me when going out **if it rains**.
(Dışarı çıkarken yağmur yağarsa yanıma şemsiye alacağım. Ama yağmazsa almayacağım.)

b) "In case" ile kullanabileceğimiz tense'ler:

Main Clause	+	in case	+	subordinate clause
Future (will or going to)				Simple Present
Simple Present				should
Present Continuous				can, can't
Present Perfect				

Main Clause	+	in case	+	subordinate clause
would				Past Tense
Past Tense				Past Perfect
Past Perfect				should
				could, couldn't

Temel cümle ile yan cümle arasında bir tense uyumu gerekmektedir. Ancak **should**, temel cümle *present*, *future* veya *past* olduğu zaman da kullanılır. "Should" un buradaki anlamı gereklilik değildir. Sadece, olasılığın biraz daha az olduğunu vurgular.

I **want** to give you my phone number in case you **need** to call me/in case you **should need** to call me.

I **gave** him my phone number in case he **needed** to call me/in case he **should need** to call me.

He **would** always **take** (used to take) his umbrella with him in case it **rained/should rain**.

I've **already booked** a seat for you in case you **decide/should decide** to come to the theatre with us.

I **had already booked** a seat for her in case she **decided/should decide** to come to the theatre with us.

c) "In case" in cümleye verdiği anlamı başka şekillerde de ifade edebiliriz.

I always put some money aside **in case I need/should need** it urgently.

I always put some money aside **because I may need** it urgently/**because it is possible that I will need** it urgently.

I always put some money aside **for fear that I may need** it urgently.

I wrote my name and address on the suitcase **in case I lost it/should lose** it.

I wrote my name and address on the suitcase **because I might lose** it/**because it was possible that I would lose** it/**for fear that I would lose** it.

d) In case of + a noun

"In case of" dan sonra bir isim gelir ve "... *durumunda/durumda*" anlamını verir.

In case of (an) emergency, you can call this number.

(Acil durumda, bu numarayı arayabilirsiniz.)

(If there is an emergency, you can call this number.)

4-10 "MIXED TIME" IF CLAUSES

"Mixed time" if clause, temel cümledeki tense ile koşul cümlesindeki tense'in farklı type'lara ait olduğunu ifade eder. Örneğin, koşul cümlesinde **type 3** kullanırken, temel cümlede **type 2** kullanabiliriz. Ya da tersi. Ancak burada, eylemlerin **if clause** dışında gerçek tense'lerinin ne olduğuna çok dikkat etmeliyiz.

I **spent** all my money foolishly, and I **am** broke now.

Yukarıdaki örnekte, "I spent all my money foolishly." cümlesi **past tense** ile ifade edilmiştir. Yani bu cümleyi **type 3** ile ifade edebiliriz. "I'm broke now." ise **present tense**'dir ve bu gerçeğin tersini düşündüğümüzde, bunu **type 2** ile ifade edebiliriz.

I AM RIGHT

Lonn and I were involved in a petty argument, both of us unwilling to admit we might be in error. "I'll admit I'm wrong," I told my husband in a conciliatory attempt, "if you admit I'm right."

He agreed and, like a gentleman, insisted I go first. "I'm wrong," I said.

With a twinkle in his eyes, he responded, "You are right!"

(by Jeannine Buckley from Reader's Digest)

4-11 OMITTING "IF"

Koşul cümlelerinde "if" kullanmadan, devrik cümle yapısını kullanarak, yani yardımcı fiili öznenin önüne getirerek (*auxiliary + subject*) "if" anlamı verebiliriz. Olumsuz cümlede "not" öznenin sonra gelir. Devrik cümle ikinci bölümde de yer alabilir. Ancak cümlenin başında kullanılması daha yaygındır.

a) Type 1

Type-1 "if" clause'ları devrik yapmak için **Should + subject** yapısı kullanılır.

If you need any help, don't hesitate to call me.

Should you need any help, don't hesitate to call me.

He can improve his English **if he goes** abroad next summer.

He can improve his English **should he go** abroad next summer.

If you don't pay your bills in time, you may get into trouble.

Should you not pay your bills in time, you may get into trouble.

b) Type 2

4-13 WISH CLAUSES

a) WISH

"Wish" in sözcük anlamı "*istemek, dilemek*" tir. Bu açıdan "*want*" ve "*would like*" ile aynı anlamı taşır. Ancak "*wish*" bunların içinde daha çok resmi ortamlarda kullanılanıdır. "*Wish*" ten sonra bir başka file geçebiliriz.

Who do you **wish to see**, Sir? (*wish to do something*)
I **wish to see** the manager.

The Prime Minister **wished the Opposition to be** more reasonable about the new tax system. (*wish someone to do something*)

"Wish" ten sonra bir isim gelebilir. Ancak "*wish*" in bu kullanımı kısıtlıdır. "*Want*" ve "*would like*" ten sonra herhangi bir ismi kullanabiliriz. "*I want/would like some coffee. I want/would like a ticket to Ankara*" gibi. "*Wish*"i ise, ancak "*şans, mutluluk, başarı dilemek*" gibi yapılarla kullanabiliriz.

Wish me luck in the exam. (*wish someone something*)

I **wish you a swift recovery**.

I sent a card to my parents and **wished** them a **Happy New Year**.

"Wish" ten sonra bir cümle (*that clause*) gelebilir. Bu cümlelerin tense'i, present ya da future tense olamaz. Mutlaka gerçek durumu ifade eden cümledeki tense'in bir derece past biçimi olmalıdır: **do** yerine **did**, **can** yerine **could**, **did** ve **have/has done** yerine **had done** gibi. ("Want" ve "would like" ten sonra bu şekilde cümle gelmez.)

She **isn't** here now. I wish she **were** here now.
(Keşke o şimdi burada olsaydı.)

We **don't have** enough money. I wish we **had** enough money.
(Keşke yeterince paramız olsaydı.)

I **can't help** her. I wish I **could help** her.
(Keşke ona yardım edebilseydim.)

b) WISH CLAUSES

1. A wish about the present

"Wish + subject + past tense", kişinin, içinde bulunduğu anda hoşuna gitmeyen olayları, memnuniyetsizliğini ifade eder. "Be" fiili için bütün öznelerle "were" kullanılır. "Wish" ten sonra "that" kullanabiliriz. Ancak that kullanmadan cümleye geçmek daha yaygındır.

Ali **isn't** as tall as his friend Ahmet.
Ali wishes (that) he **were** as tall as his friend Ahmet.
(Ali is sorry that he isn't as tall as his friend Ahmet.)

I **am** very busy now, so I can't help you.
I wish I **weren't** so busy now.
(It's a pity that I'm very busy now.)

I **don't know** where he is, so I can't contact him.
I wish I **knew** where he was.
(It's a pity that I don't know where he is.)

She **doesn't trust** me. I wish she **trusted** me.

I **have to stay** home today. I wish I **didn't have to stay** home today.

I **can't do** anything to relieve the situation.
I wish I **could do** something to relieve the situation.

He **is working** now. I wish he **weren't working** now.

It's **raining** heavily, so I can't go out.
I wish it **weren't raining** so heavily.

2. A wish about the past

"Wish + subject + past perfect", geçmişte gerçekleşmiş olan olaylardan duyulan pişmanlığı ya da o olaylardan dolayı yakınmayı ifade etmek için kullanılır.

He **wasn't** here yesterday, so he missed the party.
I wish he **had been** here yesterday.

I **had to work** yesterday, so I couldn't go to the theatre with them.
I wish I **hadn't had to work** yesterday.

I **couldn't get up** early yesterday, so I was late for my date.
I wish I **could have got up/had been able to get up** early yesterday.

I **didn't have** enough money on me, so I couldn't lend him any.
I wish I **had had** enough money on me.

I **was driving** very fast at the time of the accident, so the person I hit got seriously injured.
I wish I **hadn't been driving** so fast at the time of the accident. OR
I wish I **had been driving** more slowly at the time of the accident.

3. A wish about the future

Wish clause'larda "would" un kullanımını belli kurallara bağıdır. Temel cümle ile (*I wish, she wishes, etc.*) yan cümlelerin özneleri aynı ise (*I wish I, She wishes she*), temel cümlede "would" kullanamayız. Çünkü "would", içinde bulunduğumuz anda ya da gelecekte memnun olmadığımız ya da hoşumuza gitmeyen bir olayı bir başkasının değıştirmesini istediğimiz anlamını ifade eder. Bu nedenle, iki cümlelerin özneleri farklı olduğu zaman (*I wish you would ..., She wishes they would...*) "would" kullanabiliriz.

I'm sure it will be a wonderful picnic.
I wish **you would come** too. (*I want you to come.*)

You are driving too fast.
I wish **you would slow down**. (*I want you to slow down.*)

She is thinking about studying abroad, but I don't want to be away from her.
I wish **she would change** her mind. (*I want her to change her mind.*)

It's raining heavily, and I don't want to go out in the rain.
I wish **it would stop** raining. (*I want the rain to stop.*)

Eğer geleceğe yönelik bir ifade kullanmak istiyorsak ama iki cümledeki özneler aynı ise "could" ya da **simple past tense** kullanabiliriz.

I **have to work** tomorrow.
I wish I **didn't have to work** tomorrow.

She **can't come** with us tomorrow, and she is disappointed about this.
She wishes she **could come** with us tomorrow.

I don't think I will have spare time tomorrow to help you, but I wish I **could help** you.

c) IF ONLY

"If only" de "I wish" ile aynı anlamdadır ve aynı tense kurallarına göre kullanılır. Ancak "if only" biraz daha dramatik (daha üzücü) olayları ifade ederken kullanılır.

If only he hadn't been so seriously injured!
If only I knew where she was living now!
If only we could do something to deaden her pain!
If only you would drive more slowly!

"If only" nin bağılı bulunduğu cümle bir temel cümleye doğrudan bağlanabilir. Bu kullanım, "then/in that case" gibi, bir geçiş sözcüğü olmadan "I wish" için mümkün değıldir.

If only I had known that you were in the hospital, I would have come to visit you.

If only you would drive more slowly, I would feel more relaxed.
(*I wish you would drive more slowly; then/that way, I would feel more relaxed.*)

If only I knew where she was living now, I could write to her.
(*I wish I knew where she was living now. Then, I could write to her.*)

"If only" kalıbında, "if" ile "only" ayrılabilir ve "only" cümle içinde farklı yerlerde kullanılabilir.

1. "Be" fiilinden sonra:

If only he were more hard-working!
If he were **only** more hard-working!

2. "Modal" yardımcı fiillerinden sonra:

If only you would drive more slowly!
If you would **only** drive more slowly!

If only we could do something to deaden her pain!
If we could **only** do something to deaden her pain!

3. Asıl fiilden önce:

If only I knew where she was living now!
If I **only** knew where she was living now!

4. Active cümlede "had/hadn't" dan önce ya da sonra:

If only I had known that you were in the hospital, I would have come to visit you.
If I had **only** known that you were in the hospital, I would have come to visit you.
If I **only** had known that you were in the hospital, I would have come to visit you.

5. Passive cümlede "had/hadn't" dan önce:

If only he hadn't been so seriously injured!
If he **only** hadn't been so seriously injured!

d) WOULD RATHER

"Would rather" kullanarak "I wish" ile aynı anlamı veren cümleler elde edebiliriz. Bu anlamda "would rather", yaygın olarak özellikle konuşmacı ile yan cümledeki özne farklı kişilerse kullanılır.

I'd rather you **were** by my side at this difficult moment. (*wish about the present*)
I wish you **were** by my side at this difficult moment.

I'd rather he **didn't come** to the party next weekend. (*wish about the future*)
I wish he **wouldn't come** to the party next weekend.

I'd rather we **hadn't stayed** out so late last night. (*wish about the past*)
I wish we **hadn't stayed** out so late last night.

e) IT'S (HIGH) TIME/IT'S ABOUT TIME

"It's (high) time/it's about time", "... yapmanın zamanı çoktan geldi/...yapmanın zamanı geldi de geçti bile" gibi anlamlar verdiği için, bu kalıpları kullanarak "I wish" ile aynı anlamda cümleler üretebiliriz. Çünkü, "...yapmanın zamanı çoktan geldi." ve "Keşke artık ...yapsan." ifadelerinin her ikisi de, bir yakınma, bir dilekte bulunma ifade etmektedir.

"It's (high) time/it's about time" dan sonra gelen cümlede sadece **Simple past** kullanılır ve present ya da future bir dilek ya da istek ifade edilir. Geçmişteki bir dilek ya da isteği bu yapılarla ifade edemeyiz. "Bir şeyin olmasının zamanı çoktan geldi." anlamından dolayı, bu kalıplarla olumsuz yapı kullanmak da mümkün değildir.

It's (high) time she **learnt** how to take care of herself.
I wish she **would learn** how to take care of herself.

It's about time someone **taught** you a lesson.
I wish someone **would teach** you a lesson.

It's about time you **could ride** a bike.
I wish you **could ride** a bike.

"It's time (for someone) to do something", "...yapma zamanı geldi" anlamını verir ve "it's (high) time/it's about time" gibi, bir gecikme ya da yakınma ifade etmez.

I've had a lovely time tonight, but it's **time (for me) to go**.
(The time has now arrived for me to go.)
(..., ama artık gitme zamanı geldi.)

I've had a lovely time tonight, but it's (high) **time I went**.
(I should probably have left before this.)
(..., ama çoktan gitmiş olmalıydım.)

EXERCISE 13: Complete the sentences using the correct forms of the verbs given in parentheses. Some of the verbs are *passive*.

2. I quite like this flat, but I wish the people above us (*not, be*) so noisy.

18. I wish you *(stop)* sniffing, Johnny. Go and get a handkerchief.

4-14 AS IF/AS THOUGH

"As if/as though" "*sanki/gibi*" anlamını verir. *Look, seem, sound* gibi fiillerle çok sık kullanılır. Eğer as if/as though ile gerçek bir olay hakkındaki izlenimimizi ifade ediyorsak, kullanacağımız tense, gerçeği ifade eden tense olmalıdır.

There are dark clouds in the sky. It seems as if/as though it ***is going to rain***.
(*Yağmur yağacak gibi görünüyor.*)

The travel agent praised the holiday resort a lot. It sounds as if we ***are going to have*** a nice holiday.

Look at Sue! She isn't wide awake enough today. She looks as if she ***didn't sleep*** well last night.
(*Sanki dün akşam iyi uyumamış gibi görünüyor.*)

The streets are quite clean today. It seems as if they ***have just cleaned*** them.

We haven't told her the bad news, but she is talking as if she ***knows*** it. It's likely that she heard about it from Sally.

Look at those children in the playground. They are laughing happily. They seem as if they ***are having*** a good time.

She didn't promise me, but it seems as if she ***will help*** me.

Eğer temel cümledeki fiil **past time**'a ait ise (*She seemed ... , She was talking ... , It had seemed... , etc.*), "as if/as though" dan sonra gelen cümlelerin tense'i **present** ya da **future time**'a ait bir tense olamaz. Ancak, gerçekte kullandığımız tense'in bir derece past biçimini kullanabiliriz: *do* yerine *did*, *did* ve *have/has done* yerine *had done*, *will* yerine *would*, *can* yerine *could*, *am/is/are doing* yerine *was/were doing* gibi...

There were dark clouds in the sky. It ***seemed*** as if it ***was going to rain***.

She wasn't wide awake enough yesterday. She ***looked*** as if she ***hadn't slept*** well the previous night.

The streets were quite clean. It ***seemed*** as if they ***had just cleaned*** them.

We hadn't told her the bad news, but she ***was talking*** as if she ***knew*** it. Perhaps she had heard about it from someone else.

The problem was rather difficult, but he ***seemed*** as if he ***could solve*** it by himself.

The children were playing and laughing happily in the playground. They ***seemed*** as if they ***were having*** a good time.

She hadn't promised me, but it ***seemed*** as if she ***would help*** me.

"As if/as though" ile gerçekteki izlenimimizi ifade etmiyorsak, sadece bir benzetme yapıyorsak, o zaman gerçeği ifade eden cümlelerin **past** biçimi kullanılır ve bu cümlelerde bir hayal (*imagine/unreal situations*) ifade edildiği için, "be" fiilinin past biçimi olarak bütün öznelerle "were" kullanımı tercih edilir.

I **am not** their daughter, but they treat me as if I **were** their daughter.
(Bana kızlarıymışım gibi davranıyorlar.)

She speaks as if she **knew** everything. (In truth, she **doesn't know** everything.)

Sometimes she talks to her husband as if he **were** a child. (He **isn't** a child.)

She is always complaining as if she **had** no money.
(In fact, she **has** a lot of money in her bank account.)

I'm exhausted. I feel as if a truck **had run** over me.
(A truck **didn't run/hasn't run** over me.)

She speaks English and German as if they **were** her mother tongue.
(English and German **aren't** her mother tongue.)

Bu tür cümlelerin temel cümlesindeki fiil past tense olduğunda da, "as if/as though" lu cümlelerin tense'i değişmez.

They **treated** me as if I **were** their daughter.
She **spoke** as if she **knew** everything.
She **talked** to her husband as if he **were** a child.
She **was** always **complaining** as if she **had** no money.
I was exhausted. I **felt** as if a truck **had run over** me.
She **spoke** English and German as if they **were** her mother tongue.

Bazen "as if/as though" ile ifade edilen durumun "real" ya da "unreal" olması, konuşmacının o konuda sahip olduğu bilgiye bağlıdır.

- She looks as if she **is** rich. (*real situation*)
- She **is!** She's the director of a large company.

He is trying to impress people by spending more money than he should spend.
He acts as though he **were** rich, but I know that he only earns enough for a modest life. (*unreal situation*)

- She talks about art as though she **has studied** it before. (*real situation*)
- She **has!** She went to an art school for several years.

He talks about art as if he **had studied** it before, but he is just being pretentious. He doesn't really know what he is talking about. (*unreal situation*)

"Unreal" durumlardan söz ederken, özellikle konuşmacı kendisinin o anki duygularını ifade ediyorsa, hem **present** hem de **past** tense'lerin kullanılması mümkündür. Dilbilgisi kuralları açısından past tense'lerin kullanılması gerekir, ancak duygulara biraz daha dramatik bir anlam katmak için, present tense'ler bu biçimde yaygın olarak kullanılmaktadır.

I'm completely exhausted. I feel as if a truck **had/has run over** me.
I'm so happy! I feel as though I **were/am floating** on air!
What's the matter? Your face is all white! You look as if you **had/have seen** a ghost!

Informal, özellikle de American, English'de, "as if/as though" yerine "like" kullanımı çok yaygındır.

I'm really tired. I feel *like* I've been hit by a truck.
What's wrong? You look *like* you've just seen a ghost!

Ancak bu kullanım, yazı dilinde doğru olarak kabul *edilmemektedir*. Özellikle, çoktan seçmeli bir sınavda seçeneklerde her ikisi ile de karşılaşılırsanız, dilbilgisi kurallarını uygulamanız gerekir: "like" tan sonra bir **isim**, "as if/as though" dan sonra bir **cümle** gelir.

It looks *like rain*.
It looks *as if/as though it's going to rain*.

Noun Clauses and Reported Speech

noun clause

Noun clause'ları üç ayrı grupta inceleyebiliriz:

1. Noun clauses beginning with a question word (*what, why, who, when, etc.*)
2. Noun clauses beginning with *whether or not/if ... or not*
3. Noun clauses beginning with *that*

5-1 NOUN CLAUSES BEGINNING WITH A QUESTION WORD

a) İngilizce'deki soru sözcükleri şunlardır:

who	Hem özneyi, hem de nesne durumunda insanı sorar (<i>kim, kimi/kime</i>).
whom	Sadece nesne durumunda insanı sorar (<i>kimi/kime</i>).
whose	İnsanlar ve hayvanlar için kullanılır. (<i>kimin</i>)
what	Normalde nesnelere için kullanılır. İnsanlar için kullanımı çok kısıtlıdır. (- <i>I thought Mr Chandler was the school director. What is he then?</i> - <i>He is the managing director.</i>)
which	Hem nesnelere hem de insanlar için kullanılır. Sınırlı bir grup içinden hangisi olduğunu sorar. (<i>hangisi</i>)
where	(<i>nerede</i>)
when	(<i>ne zaman</i>)
why	(<i>neden</i>)
how	(<i>nasıl</i>)
how long	Süreç sorar. (<i>ne kadar süreyle/ne zamandan beri</i>)
how often	(<i>ne kadar sıklıkla</i>)
how far	(<i>ne kadar uzaklıkta/ne kadar mesafede</i>)
how much	Bir nesnenin fiyatını (<i>kaç para</i>), ya da sayılamaz isimler için miktar sorar (<i>ne kadar</i>).
how many	Sayılabılır isimler için miktar sorar (<i>kaç tane</i>).

b) İngilizce'de soru cümlesi "yardımcı fiil + özne + yüklem" biçiminde oluşturulur. Düz cümle ise "özne + yardımcı fiil + yüklem" düzeniyle kurulur. Soru sözcüğü ile başlayan bir soruyu, noun clause biçimine dönüştürmek için öncelikle o cümleyi soru olmaktan kurtarmamız gerekir. Bunun için de soru cümlesi düzenini düz cümle düzenine dönüştürmeliyiz.

Question:	Why is he coming tomorrow?
Noun clause:	Why he is coming tomorrow is a secret.
Question:	What time does he start work?
Noun clause:	I don't know what time he starts work.
Question:	When did he leave the country?
Noun clause:	When he left the country is still unknown.
Question:	Where are you going on holiday?
Noun clause:	Where we are going on holiday isn't certain yet.
Question:	What are you going to buy for him?
Noun clause:	I haven't decided yet what I am going to buy for him.
Question:	When did you buy that sweater?
Noun clause:	I can't remember when I bought this sweater.
Question:	What have they done about this case?
Noun clause:	I have no idea what they have done about this case.

Eğer bir soru sözcüğü cümlelerin öznesini soruyorsa, o soru cümlesinde özne olarak bir başka sözcük bulunmadığı için, cümleyi düz cümle biçimine dönüştüremeyiz. Bu nedenle, soru cümlesi ile noun clause'un sözcük dizimi aynı olur.

Question:	Who is coming tomorrow?
Noun Clause:	I don't know who is coming tomorrow.
Question:	What is happening in that country?
Noun Clause:	What is happening in that country doesn't concern me.

Question: **What happens** here at the weekend?
Noun clause: Please tell me **what happens** here at the weekend.

Question: **What happened** here yesterday?
Noun clause: Please tell me **what happened** here yesterday.

Eğer aynı soru sözcüklerini kullanarak cümlenin nesnesini soruyorsak, "do, does" ya da "did" yardımcı fiilleri kullanılır.

Who visits him every day? ("Who" özneyi soruyor.)
(Onu her gün **kim** ziyaret ediyor?)
I don't know **who visits** him every day.
(Onu her gün **kimin** ziyaret ettiğini bilmiyorum.)

Cümlede nesne durumundaki insanı sorarken "who" yerine "whom" da kullanabiliriz.

Who/whom does he visit every day? ("Who/whom" nesneyi soruyor.)
(O her gün **kimin** ziyaret ediyor?)
I don't know **who/whom he visits** every day.
(Onun her gün **kimin** ziyaret ettiğini bilmiyorum.)

verb subject verb subject

I don't know whose book this is. OR

subject verb

Soru sözcüğüyle başlayan bir noun clause oluşturabilmek için, bu sıraladığımız kuralları dikkate alarak, örneklerde kullandığımız soru sözcüklerinin yanı sıra diğer bütün soru sözcüklerini de kullanabiliriz.

5-2 NOUN CLAUSES BEGINNING WITH "WHETHER OR NOT" or "IF...OR NOT"

Yardımcı fiile başlayan bir soruyu noun clause'a dönüştürürken, noun clause'un başına "whether" ya da "if" getirilir ve soru cümlesi, düz cümle biçimine çevrilir. "Or not" "whether" dan hemen sonra gelebilir (*whether or not*) ya da noun clause'un sonunda yer alabilir (*whether ... or not*). Ancak "or not" "if"den hemen sonra kullanılmaz. Sadece noun clause'un sonunda yer alabilir (*if...or not*). Her iki cümlede de "or not" kullanılabılırız ve bu durumda anlam değişmez.

1. "Whether or not", koşul cümlesinde yan cümleyi, noun clause'da ise cümlenin öznesini ya da nesnesini oluşturur. Koşul cümlelerinde "or not" atılamaz; "noun clause" larda "or not" kullanmak zorunlu değildir.

I don't know **whether he will come to the theatre with me (or not)**.
(Noun Clause)

WHY IS NO ONE WAITING ON ME?

In one of London's most exclusive department stores, I followed a sign to the restaurant.

Having taken a seat at a beautifully set table with gleaming silver cutlery, crisp folded napkins and a centrepiece of artichokes and dried gourds, I wondered why the place was not better patronized. Perhaps it was the service or the open-plan situation under harsh spotlights.

As I inspected my surroundings, the penny suddenly dropped. I was sitting in the window display.

Statement: She doesn't like pop music.
Noun clause: We know **that she doesn't like pop music.**
We know **she doesn't like pop music.**
(Onun pop müziğini sevmediğini biliyoruz.)

Statement: He is the best of all.
Noun clause: I'm sure **that he is the best of all.**
I'm sure **he is the best of all.**

Eğer noun clause cümlede özne durumundaysa, noun clause'un başındaki "that" kaldırılamaz.

Statement: He committed the crime.
Noun clause: **That he committed the crime** is obvious.
(Suçu onun işlediği açık.)

Statement: He can't win the election.
Noun clause: **That he can't win the election** is known.
(Onun seçimleri kazanamayacağı biliniyor.)

Ancak "that clause"un bu şekilde cümlelerin başında özne olarak kullanılması pek yaygın değildir. Onun yerine, cümleye "It" ile başlayıp noun clause'u ortada kullanmak daha yaygındır.

It is obvious that he committed the crime.
It is obvious he committed the crime.
(Suçu onun işlediği açık.)

It is known that he can't win the election.
It is known he can't win the election.
(Onun seçimleri kazanamayacağı biliniyor.)

She will pass the exam.
That she will pass the exam is certain.
It is certain that she will pass the exam.
(Onun sınavı geçeceği kesin.)

"That clause"u yaygın olarak:

- a) Bazı sıfatlardan sonra
- b) Bazı isimlerden sonra
- c) Bazı fiillerden sonra
- d) "The fact" ile kullanabiliriz.

a) "That clauses" after certain adjectives:

Sorry, glad, happy, afraid, surprised, disappointed, pleased, sure, etc. gibi duygu ya da tavrı bildiren sıfatlardan sonra "that clause" kullanabiliriz.

Statement:	You passed the exam.
Noun clause:	<i>I'm glad</i> (that) you passed the exam.
Statement:	I hurt his feelings.
Noun clause:	<i>I'm sorry</i> (that) I hurt his feelings.
Statement:	She couldn't get the job.
Noun clause:	<i>I'm surprised</i> (that) she couldn't get the job.

Sonu **-ing** ve **-ed** ile biten bazı sıfatlardan sonra "that clause" kullanımı oldukça yaygındır. *Surprised, amazed, pleased* gibi sonu **-ed** ile bitenler, ancak bir canlının duygularını ifade edebileceği için *I, You, We, They, Peter, My mother* gibi öznelerle kullanılır. *Surprising, amazing, pleasing* gibi sonu **-ing** ile bitenler ise olayların durumunu ifade ettikleri için özne olarak "it" gerektirir.

It is very surprising (that) she was dismissed from her job.
(İşinden atılması çok şaşırtıcı.)

I'm very surprised (that) she was dismissed from her job.
(Onun işten atılmasına çok şaşırdım.)

It's pleasing (that) you've made good progress in English.
(İngilizce'de iyi bir ilerleme kaydetmeniz memnuniyet verici.)

I'm pleased (that) you've made good progress in English.
(İngilizce'de iyi bir ilerleme kaydetmenize memnun oldum.)

True, strange, fair, unfair, unfortunate, obvious, apparent, too bad, likely, unlikely gibi sıfatlarla da "that clause" yaygın olarak kullanılır.

<i>It's likely</i> (that) there will be another rise in prices soon.
<i>It's apparent/obvious</i> (that) some small businesses will go bankrupt after the recent economic crisis.
<i>It's unfair</i> (that) women still don't have the same rights as men.
<i>It's true</i> (that) smoking gives rise to certain respiratory diseases.

b) "That clauses" after certain nouns:

Miracle, pity, shame, wonder, relief, a good thing, fact, belief, theory, impression gibi isimlerden sonra "that clause" kullanabiliriz.

<i>It's a wonder</i> (that) she survived the accident.
<i>It's a miracle</i> (that) the child didn't get killed when he fell from the fifth floor.
<i>It's a widely accepted belief</i> (that) the two major conservative parties should be united to come to power.
<i>It's a great shame</i> (that) some nations spend an enormous amount of money on arms while others starve to death.
<i>It's a good thing</i> (that) your parents are being so understanding on this occasion.
<i>It's my opinion</i> (that) television reduces interest in reading. (Benim görüşüm o ki televizyon, okumaya olan ilgiyi azaltıyor.)

c) "That clauses" after certain verbs:

Bazı fiiller, kendilerinden sonra noun clause alabilirler. Bu cümlelerde noun clause, yüklem nesnesi durumundadır.

I know his ambition.
noun

I know (that) he will try anything to attain his ambition.
noun clause

I will prove his innocence.
noun

I will prove that he is innocent.
noun clause
(Onun masum olduğunu ispatlayacağım.)

Yaygın olarak "that clause" alan fiiller şunlardır:

acknowledge	fear	realize (wh)
add	feel	reckon (wh)
admit	find out (wh)	recognize
advise	forget (wh)	recommend
allege	guess (wh)	remark

		wonder (wh)

* Yanında (wh) bulunan fiiller, bir soru sözcüğüyle ya da **whether** ile başlayan bir noun clause da alabilirler.

The teacher **claims** (that) he cheated during the exam.
I **assume** (that) the meeting will have to be cancelled.
Everybody in the company **thinks** (that) Mr. O'Neil will make a successful manager.
The result of the exam **indicates** (that) you didn't study hard enough.
He never **admits** (that) he has made a mistake.
She will soon **realize** (that) she has just lost the chance of making a career by rejecting this post.

Appear, seem, happen, occur ve turn out filleri özne olarak "It" kullanmayı gerektirir.

It appears (that) we will face terrible conditions on this expedition.
It seems to me (that) this child will be an artist when he grows up.
(Bana öyle geliyor ki bu çocuk büyüyünce ressam olacak.)

It occurs to me (that) his action was deliberate.
It turned out (that) he had a number of accomplices in the robbery.

"Yapacağımız" bir şey için söz vermek anlamına gelen "**promise**" ve "**bir şeyin olacağını önceden tahmin etmek**" anlamına gelen "**predict**" filleri, noun clause'da **future tense** kullanmayı gerektirir.

She **promises** that she **will be** more careful next time.
The villagers **predict** that the harvest **will be** good this season.

Temel cümlelerin yüklemi **past tense** ise noun clause'da "**will**" in past biçimi "**would**" kullanılır.

She **promised** that she **would be** more careful next time.
(Bir dahaki sefere daha dikkatli **olacağına** söz verdi.)

The villagers **predicted** that the harvest **would be** good this season.

DEAD END

Part of my job as a commercial driving instructor is to ensure that my foreign-born students, who are not that familiar with English, can read and understand road signs. When we came to a sign that said "Dead End", I asked one such student to explain what it meant. "You go way down, come to end of street," he said. As I was about to compliment him, he continued, "... is cemetery."

(by Edward Manjuck from Reader's Digest)

d) Noun clauses with "the fact that"

Bir "that clause" u çoğu zaman "the fact that" biçiminde kullanabiliriz. "The fact that"li cümle, özne ya da nesne durumunda olabilir.

Statement: She couldn't pass the exam. That disappointed us.
Noun clause: **The fact that** she couldn't pass the exam disappointed us.
(Onun sınavı geçememesi bizi hayal kırıklığına uğrattı.)

Statement: The War of Independence was won with great difficulty.
Noun clause: Yesterday in class we discussed **the fact that** the War of Independence was won with great difficulty.

Statement: She cheated in the exam. That made the teacher furious.
Noun clause: **The fact that** she cheated in the exam made the teacher furious.

Eğer "the fact that" cümlesi, son örnekte olduğu gibi, cümlenin öznesi durumundaysa, "the fact that" yerine sadece "that" de kullanabiliriz.

That she cheated in the exam made the teacher furious.

Eğer "that clause", bir preposition'ın nesnesi durumunda ise bu noun clause yalnızca "that" ile başlatılamaz. Bu durumdaki bir "noun clause" "the fact that" kullanmayı gerektirir.

We are not worried *about the fact that* she comes home late from work.

I'm not responsible *for the fact that* we lost the contract.
(İş kaybetmemizden ben sorumlu değilim.)

5-4 THE SUBJUNCTIVE IN NOUN CLAUSES

- a) **Subjunctive**, yani tüm öznelere fiilin yalın halinin kullanılması, günümüz İngilizce'sinde çok yaygın bir kullanım değildir. Ancak bazı fiil, sıfat ve isimlerle bu kullanım, özellikle American English'te yaygındır. "Be" fiilinin bütün öznelere "be" biçiminde kullanıldığına dikkat ediniz.

It's important that *we be* punctual.
The boss insists that *everybody be* present at the meeting.
I demand that *your son be* more obedient at school.
The board of directors' advice is that *the company purchase* new equipment.
The doctor insists that *I stop* smoking
I suggest that *you go* to a doctor.

- b) Subjunctive'de olumsuzluk "not + yalın fiil" biçiminde ifade edilir.

It's important that *we not be* late for the meeting.
I demand that *your son not be* so disobedient at school.
His employer has requested that *he not leave* his job until the project has been finished.

- c) Temel cümledeki eylem **past** olduğunda da, subjunctive'de fiilin yalın hali kullanılır.

I *suggested* that *he go* to a doctor.
The headmaster *demande*d that *my son not be* so disobedient at school.
It *was* important that *we not be* late for the meeting.
The judge *recommended* that *the murderer be given* a life sentence in prison.
His employer *requested* that *he not leave* his job until the project had been finished.

- d) British English'te subjunctive yerine, temel cümledeki eylem **present** ise noun clause'da **Simple Present** ya da "should"; temel cümledeki eylem **past** ise noun clause'da **Simple Past** ya da "should" kullanımı daha yaygındır.

(Present)
I *suggest* that *he goes* to a doctor.
I *suggest* that *he should go* to a doctor.
(Doktora gitmesini öneririm.)

(Past)
I *suggested* that *he went* to a doctor.
I *suggested* that *he should go* to a doctor.
(Doktora gitmesini önerdim.)

(Present)
It's important that *we aren't* late for the meeting.
It's important that *we shouldn't be* late for the meeting.
(Toplantıya geç kalmamız çok önemli.)

(Past)

It was important that **we weren't** late for the meeting.

It was important that **we shouldn't be** late for the meeting.

(Toplantıya geç kalmamamız çok önemliydi.)

e) Yukarıda incelediğimiz üç kullanımın da Türkçe'ye çevirisi aynıdır.

The manager demanded that **I be** on time for work.

The manager demanded that **I was** on time for work.

The manager demanded that **I should be** on time for work.

(Müdür işe vaktinde gelmemi istedi.)

f) Old English'ten günümüze değişmeden gelmiş, subjunctive içeren bazı deyimleşmiş kalıplar vardır.

(May) God **be** with you. (Tanrı sizinle olsun.)

(May) (God) **bless** you. (Tanrı sizi korusun./Tanrı sizi kutsasın.)

Long **live** the Queen! (Kraliçe, çok yaşa!)

Come what may ... (=Whatever happens) (Ne olursa olsun)

If **need** be ... (=if it is necessary) (Eğer gerekirse ...)

As it **were** (=in a way/so to speak) (Bir bakıma/gibi bir şey/adeta)

g) Words of Urgency

Subjunctive yapıda kullanılan ya da noun clause'da "should" gerektiren sözcükler genellikle, gereklilik, ivedilik ya da önem (urgency) ifade eden sözcüklerdir. Bu sözcüklerden yaygın olarak kullanılanlar aşağıda verilmiştir.

1. Verbs

advise	decide	insist	request
ask	demand	order	resolve
beg	determine	propose	suggest
command	implore	recommend	urge

2. Adjectives

advisable	essential	necessary	significant
crucial	imperative	obligatory	urgent
desirable	important	ridiculous	vital

3. Nouns

advice	insistence	order	requirement
demand	necessity	proposal	suggestion
desire	obligation	recommendation	wish

h) Subjunctive yapıda kullanılan ya da noun clause'da "should" gerektiren sözcükler genellikle, "to + infinitive" ya da "gerund" ile kullanıldığında aynı anlamı verirler.

It is important that **women have/should have** economic freedom.

It is important **for women to have** economic freedom.

I insisted that **he give up/gave up/should give up** smoking.

I insisted **on him giving up** smoking.

It was my biggest desire that **I be left/was left/should be left** on my own.

It was my biggest desire **to be left** on my own.

1) "Should" in Noun Clauses after Certain Adjectives

Olaylar karşısında duygularımızı, kişisel düşünce ya da tutumumuzu ifade eden sıfatlardan sonra noun clause'da "should" kullanımı çok yaygındır. Ancak bu tür cümlelerde "should" yerine subjunctive kullanılmaz. **Simple Present** ya da **Simple Past** tense'ler kullanılabilir.

It's unbelievable that such a young child **should be given** (*is given*) so much pocket money.

I **was** surprised that such a young child **should be given** (*was given*) so much pocket money.

It **was** a shame that he **should call** (*called*) his mother a liar.

Isn't it a shame that he **should call** (*calls/called*) his mother a liar?

It's amazing that he **should think** (*thinks/thought*) he deserved a promotion, since we all know he is so useless.

5-5 NOUN CLAUSE AS OBJECT OF THE PREPOSITION

Bir preposition'dan sonra noun clause gelebilir.

She takes no notice **of** my warnings.
noun

She takes no notice **of** what I say.
noun clause

Your question isn't related **to** this subject.
noun

Your question isn't related **to** what we are discussing now.
noun clause

She is very excited **about** the holiday resort.
noun

She is very excited **about** where we are going to spend our holiday.
noun clause

She hasn't told me anything **about her decision.**
(Kararı ile ilgili bana bir şey söylemedi.)

She hasn't told me anything **about whether she will come or not.**
(*"If" bu şekilde bir preposition'dan sonra kullanılmaz.*)
(Gelip gelmeyeceği konusunda bana bir şey söylemedi.)

She is very concerned **about the firm's financial problems.**

She is very concerned **about whether the firm can overcome its financial problems.**

"That clause" bir preposition'dan sonra "the fact that" biçiminde kullanılır.

Statement: He was devastated by the tragic news.
Noun clause: Yesterday we talked **about the fact that** he was devastated by the tragic news.

Statement: She is the author of two well-known books.
Noun clause: I'm interested **in the fact that** she is the author of two well-known books.

Statement: Her boss will award her with a raise in salary.
Noun clause: She is very excited **about the fact that** her boss will award her with a raise in salary.

5-6 NOUN CLAUSES AS SUBJECT COMPLEMENT

Bir noun clause, özne tamamlayıcısı olarak kullanılabilir. Bu kullanımda bazen hem öznenin, hem de tamamlayıcısının noun clause olduğuna dikkat ediniz.

This is **where** a bloody battle was fought.

What made us feel upset was **that** he didn't even thank us for our efforts.

What I'm curious about is **how** the prisoners dug the tunnel without being noticed.

Our main priority is **how** we'll overcome our financial difficulties.

5-7 TENSE RELATIONS BETWEEN THE MAIN VERB AND THE NOUN CLAUSE

Noun clause'un tense'i ile temel cümlemin tense'i arasındaki ilişkiyi iki bölümde inceleyebiliriz.

- a) Temel cümlemin yüklemi **Present Tense** ise,
- b) Temel cümlemin yüklemi **Past Tense** ise.

a) Noun clause as the object of a verb in Present Tense

Eğer temel cümlemin yüklemi "*I think, I have thought*" gibi bir present tense ise ya da "*I will say, I'm going to say*" gibi bir future tense ise, noun clause'un tense'i ile aralarında mantıklı bir uyum olması gerekir. Yani yüklem kısıtlayıcı bazı özellikleri yoksa eğer (*örneğin suggest, recommend, promise, predict gibi filler belli tense'leri gerektirir*), noun clause'un tense'i present, past ya da future olabilir.

Statement: He goes abroad very often.
Noun clause: I **think** (that) he **goes** abroad very often.

Statement: He is going/is going to go/will go abroad soon.
Noun clause: I **think** (that) he **is going/is going to go/will go** abroad soon.

Statement: He has just gone abroad.
Noun clause: I **think** (that) he **has just gone** abroad.

Statement: He went abroad last week.
Noun clause: I **think** (that) he **went** abroad last week.

Statement: He had just left the office when I got there.
Noun clause: I **think** (that) he **had just left** when I got there.

Temel cümlemin yüklemi present olduğu zaman noun clause'da Past Perfect kullanımı, "*after, before, by the time, etc.*" gibi zaman bağlaçları kullanarak zamanı netleştirdiğimiz takdirde mümkündür. Yüklem present iken noun clause'da "**will**" in past biçimi "**would**" kullanılmaz. Ancak, "**would like, would prefer, would rather**" gibi anlamı present ya da future olan yapılar ve 2. ve 3. type "if clause" ile kullanılan "would" ve "would have done" kullanılabilir.

I **think** (that) she **would succeed** if she tried.

I **think** (that) she **would have succeeded** if she had tried.

I **think** (that) she **would rather go** to the theatre than to the cinema.

I **think** (that) she **would like to be invited** to the party.

I **think** (that) they **had just shipped** the order when we called to remind them.

Bu tense kuralları, soru sözcüğüyle ya da **whether/if** ile başlayan noun clause'lar için de geçerlidir.

- I don't know** when she **will leave** Istanbul.
why she **left** so hurriedly.
if she **wants** to come with us.
whether she **heard** the news.
what she **has been doing** there for an hour.
who **left** the office last yesterday.
- I have discovered** why she **refused** our invitation.
when she **will leave** on holiday.
how she **managed** to persuade him.
which countries she **has been** to.
- She will find out** what he **was doing** there at the time.
why he **wants** to resign.
how long he **has been living** in this city.
which one he **would rather choose**.
whether he **will attend** the meeting or not.
if he **completed** the job he had been given.
- They haven't announced yet** where the party **will be held**.
who **took** over the firm.
what **has been going** on here.
who/whom they **are going to award** the prize to.

b) Noun Clause as the object of a verb in Past Tense

Temel cümlelerin yüklemi "*thought, had thought*" gibi **Simple Past** ya da **Past Perfect** ise, noun clause'un tense'i eylemin oluş zamanını ifade eden tense'in bir derece past biçimidir. Yani *will* yerine *would*, *can* yerine *could*, *have done* yerine *had done*, *did* yerine *had done* gibi.

- Statement: They **have finished** writing their report.
Noun clause: I **noticed** (that) they **had finished** writing their report.
- Question: When **will** she **come**?
Noun clause: He **wondered** when she **would come**.
- Question: **Is** she **going to come** with us?
Noun clause: He **wanted to know** whether/if she **was going to come** with us.
- I **know** (that) he **can pass** the exam without much effort.
(Fazla çaba harcamadan sınavı geçebileceğini biliyorum.)
- I **knew** (that) he **could pass** the exam without much effort.
(Fazla çaba harcamadan sınavı geçebileceğini biliyordum.)
- I **don't know** for sure what she **bought** for you.
(Sana ne aldığını kesin olarak bilmiyorum.)
- I **didn't know** for sure what she **had bought** for you.
(Sana ne aldığını kesin olarak bilmiyordum.)
- I've **just learnt** (that) she **is coming** soon.
(Onun yakında geleceğini henüz öğrendim.)
- I **had just learnt** (that) she **was coming** soon.
(Onun yakında geleceğini henüz öğrenmiştim.)

Ancak noun clause genel bir doğruyu ya da doğa kanununu ifade ediyorsa, temel cümlelerin yüklemi **past** olduğunda da noun clause'un tense'i **present** olabilir.

After the experiment, we **found out** that different fluids **have** different boiling points.

Should, had better, ought to, would rather, would prefer ve *would like*, temel cümledeki fiil **past** olduğunda da aynı kalır. *May, might* biçiminde, *have to* ve *must* ise, present anlamdaysa *had to*, future anlamdaysa *had to/would have to* biçiminde değiştirilir.

I think she **would rather stay** at home.
(*Evde kalmayı tercih edeceğini zannediyorum.*)

I thought she **would rather stay** at home.
(*Evde kalmayı tercih edeceğini zannediyordum.*)

I suggest that he **should look** for another job.
(*Başka bir iş aramasını öneriyorum.*)

I suggested that he **should look** for another job.
(*Başka bir iş aramasını önerdim.*)

She knows (that) she **must/has to help** her mother now.
(*Annesine şimdi yardım etmek zorunda olduğunu biliyor.*)

She knew (that) she **had to** help her mother.
(*Annesine yardım etmek zorunda olduğunu biliyordu.*)

I must remind you (that) we **have to get up** at dawn tomorrow.
I reminded them (that) we **had to/would have to get up** at dawn the next day.

5-8 ADDITIONAL INFORMATION ABOUT NOUN CLAUSES

Noun clause'larda dikkat etmemiz gereken bir diğer nokta, fiillerin alabilecekleri noun clause tipleridir. Çünkü her fiil, üç tip noun clause alamayabilir. Sadece soru tipinde (*soru sözcüğüyle ya da whether/if ile başlayan*) noun clause alabilen, sadece "*that clause*" alabilen ya da her iki tip noun clause ile kullanılabilen fiiller vardır.

Örneğin, "*zannetmek*" anlamında "**think**" sadece "*that clause*" alabilir. Çünkü bir şeyin "*ne zaman olacağını, nasıl olacağını, olup olmayacağını*" zannedemeyiz. Ancak bir şeyin "*olduğunu, olacağını*" (*that clause*) zannedebiliriz.

I **think (that)** she will give up her job.
I **don't think (that)** she will go on working under these conditions.
I **thought (that)** she would refuse our offer.
I **didn't think (that)** she would accept our offer.

Ancak "**think**", "*I can't think*" biçiminde kullanılırsa, "*Bir neden düşünemiyorum, anlamıyorum*" anlamına gelir ki bu durumda soru sözcüğüyle başlayan bir noun clause alabilir.

I **can't think why** she refused our offer.
I **can't think why** she won't come with us.

Ask, want to know gibi bazı fiiller ise "**that clause**" almazlar. Bu fiilleri ancak bir soru sözcüğüyle ya da *whether/if* ile başlayan noun clause'larla kullanabiliriz. Çünkü "*bir şeyin olacağını (that clause)*" soramayız. Bir şeyin "*ne zaman olacağını, nasıl olacağını, nerede olacağını*," ya da bir şeyin "*olup olmayacağını*" sorabiliriz.

I **will ask him what** he will do with so much money.
She's **asking where** we are going to meet.
I **asked him whether** he liked the meal.
She **wants to learn if** I will join them.

Tell, understand, explain, know, etc. gibi fiiller ise üç tip noun clause ile de kullanılabilirler.

He **told me (that)** he couldn't understand the lesson.
I **will tell you** tomorrow **whether** I will come with you or stay home.
He **hasn't told** me yet **where** we are going to meet.

I **know (that)** she doesn't trust me.
I **know when** she will leave on holiday.
I **don't know whether/if** she will be interested in our offer.

She **understood** by his remarks **(that)** he wouldn't lend her the money.
She **didn't understand why** he had refused to lend her any money.
I **couldn't understand whether/if** she was sincere in her attitude towards me.

Bu farklı kullanımları göz önüne alarak, örneklerde kullandığımız fiiller ya da yaygın olarak bilinenler dışındaki fiillerle karşılaştığımız zaman, fiilin alabileceği noun clause tipini belirlemede size önerebileceğimiz yöntem, temel cümlelerin yüklemi ile noun clause'daki anlam arasında mantıksal bir bütünlük sağlamanızdır.

5-9 QUESTION WORDS FOLLOWED by INFINITIVES

Soru sözcüğüyle ya da "whether" ile başlayan noun clause'ları, belli kurallar dahilinde kısaltarak, **Question word + to infinitive** biçiminde ifade edebiliriz.

Kısaltma yapabilmemiz için öncelikle, temel cümlelerin öznesi ile noun clause'un öznesi aynı olmalıdır.

I don't know what I should do in this case.
I don't know **what to do** in this case.
(*Bu durumda ne yapacağımı bilmiyorum.*)

Öznelere farklı ise kısaltma yapamayız.

I don't know what **you** should do in this case. (*no change*)
(*Bu durumda (senin) ne yapman gerektiğini (ben) bilmiyorum.*)

Eğer bu cümleyi "... **what to do**" biçiminde kısaltırsak, "... *ne yapacağımı* ..." anlamına gelir ki cümlelerin anlamını değiştirmiş oluruz.

Temel cümledeki yüklem nesnesi ile (*indirect object*) noun clause'un öznesi aynı kişi ise yine kısaltma yapabiliriz.

I can tell **you** how **you** can get to the station.
I can tell **you how to get** to the station.
(*İstasyona nasıl gideceğini söyleyebilirim.*)

Can you show **me** how I can start this machine?
Can you show **me how to start** this machine?
(*Bu makınayı nasıl çalıştıracağımı bana gösterebilir misin?*)

"**Whether**" ile başlayan noun clause'ları da aynı kurallara göre kısaltabiliriz. ("**if**" bu şekilde kısaltma için kullanılamaz.)

I can't decide whether I should stay home or come with you.
I can't decide **whether to stay** home or (to) come with you.
They wondered whether **they** should buy an expensive present or a cheap one.
They wondered **whether to buy** an expensive present or a cheap one.

Kısaltma yaparken, noun clause'da kullanılan tense'i de dikkate almalıyız. Bu kısaltma her tense ile mümkün değildir. Genellikle **will, should, must** ya da **can/could** ile kurulmuş cümleleri kısaltabiliriz.

She told **me where I could** get fresh vegetables.
She told **me where to get** fresh vegetables.

I don't know who/whom **I should** invite to the party.
I don't know **who/whom to invite** to the party.

I think **I know how I can overcome** this situation.
I think **I know how to overcome** this situation.

5-10 EXCLAMATIONS

İngilizce'de ünlem cümleleri (*exclamations*), **what, how, so** ve **such** kullanarak kurulur. Aynı ya da yakın anlamlı cümleler üretmelerine karşın "what" ve "how" cümlelerin sözcük dizimi açısından farklılık gösterir. 5-13 REPORTED SPEECH (INDIRECT SPEECH)

Indirect speech (*dolaylı anlatım*), birinin söylediği sözü bir başkasına aktarmak demektir. Dolaylı anlatımda aktarılan cümle, aslında bir noun clause biçimindedir ve noun clause için geçerli olan kurallar, (*kullanılan ifadenin soru ya da düz cümle olması, asıl fiil past olduğunda noun clause'da kullanılan tense'lerin bir derece past yapılması gibi*) dolaylı anlatım için de geçerlidir. Dolaylı anlatımın noun clause'lardan farkı, cümlede daima bir fiilin nesnesi durumunda olması, (bir noun clause gibi, cümlede hem özne hem de nesne konumunda yer alamaz) ve birinin söylediği bir sözü bir başkasına aktarmasıdır.

Birinin söylediği sözü iki şekilde aktarabiliriz: **dolaysız** (*direct*) ve **dolaylı** (*indirect/reported*). **Dolaysız anlatım** (*direct speech*), kişinin ağzından çıkan ifadeyi aynen aktarmaktır. Söz iki turnak arasında yer alır ve "*She said, she asked, etc.*" gibi ifadelerle aktarılır. Bu ifadeler aktarılan sözden önce ya da sonra yer alabilir.

He said, "*I don't like horror films.*"
"*I don't like horror films.*" he said.

He asked, "*Do you like horror films?*"
"*Do you like horror films?*" he asked.

Dolaylı anlatım (*indirect/reported speech*), kişinin ağzından çıkan ifadeyi aktarırken bazı değişiklikler yapmayı gerektirir (*pronoun, tense, etc. changes*).

George: I don't like horror films.
George **said** (that) he **didn't like** horror films.

George: Do you like horror films?
George asked me **if/whether I liked** horror films.

Dolaylı anlatımı, aktarılan cümlelerin yapısı açısından şu üç grupta inceleyebiliriz:

1. Reporting Statements
2. Reporting Questions
3. Reporting Imperatives

5-14 REPORTING STATEMENTS

Düz cümleleri aktarırken en çok kullanılan aktarma sözü "tell" ve "say" dir. "Tell" den sonra mutlaka sözün kime söylendiğini belirtmemiz gerekir. *He has told me..., I will tell him... We told them..., etc.* "Say" den sonra hemen cümle gelir. *He said (that) ..., I will say (that) ..., etc.* "Say" den sonra bir zamir kullanmak istersek, "*He said to me, She said to us, etc.*" gibi, zamirden önce "to" kullanmak zorundayız. Ancak "say" in bu kullanımı, Indirect Speech'de pek yaygın değildir.

Eğer aktarma sözü, "*She always tells us, She has just told me, She will tell us*" gibi **Simple Present, Present Perfect** ve **Simple Future** ise, aktarılan cümlenin tense'inde bir değişiklik yapılmaz. Sadece gerekli zamir değişiklikleri yapılır.

Paul: I am not so keen to see this film.

Paul says (that) **he is** not so keen to see **that** film.
Paul has told us (that) **he is** not so keen to see **that** film.
Paul will tell you (that) **he is not** so keen to see **that** film.

Eğer aktarma sözü **Simple Past** ya da **Past Perfect** ise (*I told him, he had told us, etc.*), zamir değişikliklerinin yanı sıra, tense ve zaman zarflarında da değişiklik yapılır. Direct cümlenin zamirlerini değiştirirken, sözü kimin söylediğini ve bu sözü kimin kime aktardığını dikkate almalıyız.

Ayşe: I will help **you** tomorrow.

Ayşe told **me** (that) **she** would help **me** the following day.
Ayşe told **her sisters** (that) **she** would help **them** the following day.

Direct cümleyi aktarırken "**tell**" de kullanabiliriz. Ancak "**tell**" den sonra sözün kime söylendiğini belirtmemiz gerekir ve **tell**, cümle başında yer alabilir.

"I didn't like the film," Sue **told me**.

Tell lies, tell stories ve **tell the truth** ifadelerinde, sözün kime söylendiğini belirtmek zorunlu değildir.

She **told** (me) lies.

Grandma **told** (the children) stories.

Will you **tell** (me) the truth?

Indirect cümleyi aktarırken "**say**" ya da "**tell + object**" cümle başında kullanılır. "**Say + to + object**" kullanımı da mümkündür ancak çok yaygın değildir.

Sue **said** (to me **that**) she hadn't liked the film.

Sue **told me** (that) she hadn't liked the film.

"**Tell someone about something/about doing something**", bir konuda bir şeyler anlatmak anlamındadır. "**Say**" bu şekilde kullanılmaz.

He **told me about** his trip to Alanya.

He **told us about** travelling around Turkey.

Cümleleri aktarırken "tell" ve "say" in yanı sıra başka fiiller de kullanabiliriz. Bu fiiller cümleyi, *yakınma, itiraz, gözlem vb.* gibi anlamları da ilave ederek aktarmamızı sağlar. Bu şekilde yaygın olarak kullanılan fiiller şunlardır:

<i>add</i>	<i>boast</i>	<i>object</i>	<i>remind+object</i>
<i>admit</i>	<i>complain</i>	<i>observe</i>	<i>reply</i>
<i>announce</i>	<i>deny *</i>	<i>point out</i>	<i>scream</i>
<i>answer</i>	<i>grumble</i>	<i>promise</i>	<i>shout</i>
<i>argue</i>	<i>inform</i>	<i>protest</i>	<i>whisper</i>
<i>assure+object</i>	<i>murmur</i>	<i>remark</i>	<i>yell</i>

* *Deny* fiilinden sonra gelen cümle olumsuz olamaz. Ancak *direct* cümle olumsuzdur.

"I didn't steal the money."
He **denied** that he had stolen the money.

"I can't finish all this work by lunchtime."
She **protested** that she couldn't finish all the work by lunchtime.

"We will get married as soon as school is over."

NOT TOO HEAVY

Checking in for a flight from Boston to New Hampshire on a commuter plane, I was surprised that the ticket agent asked me how much I weighed. Once airborne, the tiny ten-passenger craft was tossed around by turbulence. I started to get nervous. Looking for reassurance, I told the man seated behind me that I had lied about my weight.

"Oh, don't worry," he replied. "I fly this route at least three times a week, and just to be safe, I always add ten pounds to my weight for every woman on board."

5-15 REPORTING QUESTIONS

Soru cümlelerini aktarırken tense, yer ve zaman zarflarına ilişkin değişiklikler için, düz cümleleri aktarırken kullanılan kurallar geçerlidir. Ancak, soru cümlelerini aktarırken "say" ve "tell" yerine, **ask**, **inquire**, **wonder**, **want to learn**, **want to know** gibi fiiller kullanılır. Bu fiillerden **ask**, nesne alabilir. Diğerleri almaz.

She **asked** (me) why I hadn't come (gone) to the party.

She **inquired/wondered/wanted to know** why I hadn't come (gone) to the party.

Soru sözcüğüyle başlayan soruları aktarırken, aktarma sözünden sonra soru sözcüğü gelir ve soru cümlesi düz cümle biçimine dönüştürülür.

"Why are you leaving so early today?"

My mother asked me **why I was leaving** so early that day.

"What time is it?"

A child in the street asked me **what time it was**.

"Are you coming with us?"

She asked me **if/whether I was coming** (going) with them.

"Can you speak English?"

A tourist stopped me in the street and asked **if/whether I could speak** English.

Eğer temel cümlenin fiili, **Simple Present**, **Present Perfect** ya da **Future Tense** ise soru cümlesinin tense'i aynı kalır. Sadece gerekli zamir değişiklikleri yapılır.

LOOKING FOR OUR DOG

When my children and I had finished unpacking in our new home, we noticed that our dog was missing. Concerned that she couldn't find her way back in the unfamiliar surroundings, I loaded the kids into the car and went to look for her. We drove up and down the neighbourhood without any luck.

Not far from our house I noticed a man sitting on his front porch. I asked him if he'd seen our dog. "Yes," he replied. "She's been following your car for the past ten minutes."

5-16 REPORTING IMPERATIVES

Emir cümlelerini aktarırken, **tell**, **order**, **command**, **ask** gibi fiiller, emrin kime verildiğini gösteren bir zamir ile birlikte kullanılırlar. *He told me, I asked him* (rica etmek, istemek anlamında), *They ordered me, etc.* "Say" fiilinin, bu şekilde emir cümlesi aktarırken kullanılması çok enderdir. Olumlu emir cümleleri **to + verb infinitive**, olumsuz emir cümleleri **not to + verb infinitive** biçiminde aktarılır.

Direct: "**Study** your lessons regularly," the teacher said to us.

Indirect: The teacher **told us to study** our lessons regularly.

Direct: "**Don't try** to cheat during the exam," she said to us.

Indirect: She **told us not to try** to cheat during the exam.

Eğer bir cümle emir cümlesi biçiminde başlayıp devamında bir başka cümle (clause) alıyorsa, o cümlenin tense'ini bir derece past yapmamız gerekir. (Temel cümlenin yüklemi **present** ya da **future** ise tense değişikliğinin yapılmadığını hatırlayınız.)

The teacher told us **to study** regularly if we **wanted** to pass the exam.

"**Don't unfasten** your seatbelts until after the plane **has fully landed**."

Bu durumda bu cümleleri, cümlenin ifade ettiği anlama göre *advise*, *encourage*, *warn*, *beg*, *implore*, *forbid*, *recommend*, *remind*, *request*, *urge*, *etc.* gibi fiillerle de aktarabiliriz.

PLAYING HIDE-AND-SEEK

Our yard was a gathering spot for our five children's friends. One summer night we all played hide-and-seek and had so much fun that we lost track of time. Unknown to me, a police officer had cruised by and noticed my 16-year-old daughter running, then ducking into the shadows. The officer stopped her and asked if she knew how late it was. He demanded to know where her parents were.

"Well," she replied, "Mum is up in that tree, but I haven't found Dad yet."

5-18 AUXILIARY VERBS IN SHORT ANSWERS

5-19 TOO and EITHER

- a) İki olumlu cümle, bir öğeleri hariç, aynı anlamı taşıyorsa, ikinci cümlelerin sonuna "too" eklenir. "Too" cümleye "de, da" anlamı verir.

They have a pet dog at home. They have a cat *too*.
He raises sheep on his farm. He raises chickens *too*.

Bu durum iki olumsuz cümle için söz konusuysa, ikinci cümlelerin sonuna "either" eklenir.

They don't keep birds at home. They don't keep fish *either*.
He doesn't raise cows on his farm. He doesn't raise pigs *either*.

- b) Eğer iki cümlelerin, özneleri hariç, diğer öğeleri aynı ise, ikinci cümlede tekrardan kaçınmak için, olumlu cümlelerde "Subject + auxiliary verb + too", olumsuz cümlelerde "Subject + auxiliary verb + either" kullanılır. Yardımcı fiil, birinci cümledeki tense'in yardımcı fiili olmalıdır.

My parents *live* in Germany. My sister *does too*.
I *understood* the lesson perfectly. Other students *did too*.
Jill *was* in a hurry. Her parents *were too*.

I *don't* like fish at all. My sister *doesn't either*.
You *are not* old enough to get married. Your boyfriend *isn't either*.
I *didn't* quite understand the lesson. The others *didn't either*.

- c) "Too" ve "either", anlamca uyumlu olan ama farklı sözcüklerden oluşan cümlelerin sonuna da gelebilir.

He *is* very successful in his school subjects. He *shows* the same success in his social life *too*.

She *isn't* very popular with her schoolmates. She *isn't liked* much by her teachers *either*.

- d) Bazen iki cümle, anlamca aynı olmasına rağmen, cümlelerin biri olumlu, diğeri olumsuz olabilir. Bu durumda, ikinci cümle yapı olarak olumluysa "too", olumsuzsa "either" kullanılır.

I *hate* martial arts, such as judo and karate.
I *don't like* football *either*.

I *don't like* getting up early.
I *hate* going to bed early *too*.

5-20 SO and NEITHER/NOR

İki cümle anlamca aynı fakat özneleri farklıysa, "de, da" anlamını, olumlu cümleler için "so", olumsuz cümleler için "neither" ya da "nor" ile verebiliriz. Bu yapılar, kendilerinden sonra devrik cümle alırlar:

So + auxiliary + subject
Neither/Nor + auxiliary + subject

Kullanacağımız yardımcı fiil yine birinci cümledeki tense'in yardımcı fiilidir. **Neither/nor** kendileri **olumsuz** olduğu için, arada kullanılan yardımcı fiil **olumludur**.

I like reading a lot, **and so does my husband.** (*my husband does too.*)

I went to bed quite early last night, **and so did my parents.**
(*my parents did too.*)

They don't like horror films, **and neither/nor do I.** (*I don't either.*)

I haven't finished my report yet, **and neither/nor has Sue.**
(*Sue hasn't either.*)

Temel cümle + yan cümle biçimindeki cümlelerde, özellikle bir bağlaç (*conjunction*) varsa, dikkate almamız gereken yan cümledeki yardımcı fiili değil, temel cümledeki yardımcı fiilidir.

- I **would** forgive her if she apologized to us.

- So **would** I. (*I would (forgive her) too.*)

- As soon as we're finished with this project, I **ll** go on holiday.

- So **will** I. (*I'll go on holiday as soon as we're finished with this project too.*)

- I **hadn't** believed him when he told us that he couldn't pass the exam.

- Nor **had** I. (*I hadn't believed him either.*)

Ancak **noun clause** içeren bazı cümlelerde, özellikle "so" ve "neither/nor" lu cümle karşımızdaki kişi tarafından söyleniyorsa, yan cümledeki eylem de dikkate alınabilir.

A: I don't think we **can** afford such an expensive car.

B: Neither **can** your brother. (*Kardeşinin de maddi gücü yetmez.*)

(*You can't afford such an expensive car, and your brother can't either.*)

I **don't** think we can afford such an expensive car, and neither **does** my husband. (*Eşim de öyle düşünüyor.*)

(*I don't think we can afford such an expensive car, and my husband doesn't think we can afford such an expensive car either.*)

A: I thought the news bulletin **was** rather depressing.

B: So **was** the film following it. (*Ondan sonraki film de öyleydi.*)

(*The film following the news bulletin was rather depressing too.*)

A: I **thought** the news was rather depressing.

B: So **did** I. (*I did too.*) (*Ben de öyle düşündüm.*)

(*I thought the news was rather depressing too.*)

Eğer bizim düşüncemiz ya da durumumuz, bir başkasınınki ile aynı doğrultuda değilse, o zaman **so/neither/nor** kullanamayız. Bu zıtlığa geçişi sağlamak için "but" kullanabiliriz.

I **don't** like fish, **but** my husband **does**.

I **didn't** allow him to go alone, **but** my father **did**.

She **isn't** interested in art, **but** her husband **is**.

She **has** got a car, **but** her brother **hasn't**.

He **has** a lot of hobbies, **but** his wife **doesn't**.

They **have** been abroad, **but** I **haven't**.

I **have** to work for a living, **but** you **don't**.

He **had to** show the content of his suitcase at the customs, **but** others **didn't**.
They **can** afford a holiday abroad, **but** I **can't**.

You **must** study hard for the exam, **but** I **needn't**.
don't need to.
don't have to.

You **needn't** work for a living, **but** I **must/have to**.
You **don't need to** work for a living, **but** I **do**.
don't have to

Bu zıtlığı **though, although, even though** gibi bağlaçlarla da vurgulayabiliriz.

Although/Though/Even though I **don't** like fish, my husband **does**.

His father **allowed** him to go alone although/though/even though his mother **didn't**.

"**Though**" ikinci cümlelerin sonunda da kullanılabilir. "**Although**" ve "**even though**" bu şekilde cümle sonunda kullanılmaz.

I like watching films at the cinema, **but** I can't go very often.
I like watching films at the cinema. I can't go very often **though**.

I'm interested in sightseeing, **but** my husband **isn't**.
I'm interested in sightseeing. My husband **isn't though**.

20. Teachers should take some responsibility for the development of children, and parents.

5-21 AUXILIARY VERBS in SHORT QUESTIONS

Biriyle sohbet ederken, karşınızdakinin söylediği sözlerle ilgilendiğimizi ifade etmek için Türkçe'de "Gerçekten mi?" ya da "A öyle mi?" gibi sözler kullanırız. Bunlar aslında soru değildir. Sadece konuşmanın akışını sağlayan sözlerdir. Türkçe'de, söylenen cümlenin zamanı ne olursa olsun "öyle mi?" sözünü kullanabiliriz. İngilizce'de ise söylenen sözün tense'ini ve cümlenin olumlu mu yoksa olumsuz mu olduğunu dikkate almak zorundayız. Eğer cümle **olumlu** ise soracağımız soruda da **olumlu** bir yardımcı fiil, **olumsuz** ise soruda da **olumsuz** bir yardımcı fiil kullanmamız gerekir. Sonda kullanılan özne *I, you, he, they, etc.* gibi bir zamir (*pronoun*) olmalıdır.

- I **can't** go on holiday this summer.
- Oh, really? **Can't** you?

- **Do** you? So do I./I do too. (*Öyle mi? Ben de. [severim]*)
- I **like** horror films very much.
- **Do** you? I **don't**. (*Öyle mi? Ben sevmem.*)

Yukarıdaki örnekte, "I don't" yerine "**neither/nor do I**" kullanamayız. Çünkü onları kullanabilmemiz için bize söylenen cümlenin olumsuz olması ve bizim o ifade ile hemfikir olmamız gerekir.

- I **don't** like horror films at all.
- **Don't** you? **Neither** do I/**Nor** do I/I don't **either**.
(*Öyle mi? Ben de sevmem.*)
- I **don't** like horror films at all.
- **Don't** you? I **do**. (*Öyle mi? Ben severim.*)

Yukarıdaki örnekte, "I do" yerine "**so do I**" kullanamayız. Çünkü onu kullanabilmemiz için bize söylenen cümlenin olumlu olması ve bizim de o ifade ile paralel durum ya da düşüncede olmamız gerekir.

5-22 "SO" and "NOT" REPRESENTING a THAT-CLAUSE

a) Believe, expect, suppose, think, hope gibi fiillerden sonra ve I'm afraid, It seems/appears gibi yapılardan sonra bir that-clause yerine, olumlu bir anlam için "so", olumsuz bir anlam için "not" kullanılır. "So" ve "not" in bu kullanımı cümleyi tekrar etmekten kaçınmak içindir.

- Will that party win the election?
- I think that party will win the election.

so

(I think so.)

- Do you think the teacher will postpone the exam?
- I hope that she will postpone the exam.

so

(I hope so.)

That-clause olumlu ise onun yerine "so" getirebiliriz.

I expect so/I believe so/I'm afraid so/It seems so, etc.

That-clause olumsuz ise onun yerine "not" getirebiliriz. Fakat "think" fiili ile olumsuzluğu ancak fiilin kendisini olumsuz yaparak vurgulayabiliriz.

- Will that party win the election?

Gerund, bir fiil köküne "-ing" takısının eklenmesiyle elde edilir: *swimming, reading, playing football, having to get up early, etc.*

Swimming is my favourite sport.

I like *reading* contemporary books.

Having to get up early won't bother me at all.

- b) **Infinitive** ise fiilin başına "to" getirilerek ya da fiili **yalın** haliyle kullanarak elde edilir: *to learn English, to climb the mountain, to be able to speak English fluently, etc.*

To be able to speak English fluently is desired by every learner.

Present participle ise fiilin, sürerlik bildiren tense'lerle çekimlenirken "-ing" takısı almasıdır.

can't help	dislike	mind	resist
can't stand	enjoy	miss	risk
complete	excuse*	postpone	stop

contemplate	imagine	recall (remember)	understand*

* Yanında yıldız olan fiiller gerund'dan önce iyelik sıfatı kullanmayı gerektirir.

Bir gerund'in önünde iyelik sıfatı (possessive adjective: *my, your, his, our, Ali's, my father's, my sisters', etc.*) kullanılır. Ancak günlük dilde possessive yerine object pronoun da kullanılır: *me, you, him, Ali, my father, my sisters, etc.*

Formal: I will never forgive **Jack's** scolding me in public.
I will never forgive **his** scolding me in public.
Informal: I will never forgive **Jack** scolding me in public.

Bir gerund'in önünde possessive kullanıldığı zaman, genellikle anlamda bir değişme olur.

1. I want **a book** on pollution.
I want **to read a book** on pollution.
2. I object **to your offer**.
I object **to having** the meeting at such a late hour.

Yukarıdaki örneklerden birincisinde, "want" ın kendine ait bir preposition'ı yoktur. Bu nedenle kendinden sonra direk nesne alır (*want a newspaper, want a job, etc.*) Ancak "want" tan sonra fiile geçerken "to" ile geçilir, yani **to + infinitive** gelir. (*want to buy, want to sleep, etc.*)

İkinci örnekte ise "to" "object" fiiline bağlı bir preposition'dır. Bu nedenle, "object" ten sonra bir nesneye geçerken de "to" kullanılır. Fiil ise gerund biçiminde gelir.

After breakfast, father usually **sits in his armchair reading** the newspaper.

THE CORRECT "TENSE"

As an English teacher at university, I used to spend a great deal of time marking grammatical errors in written work. I was never sure whether my corrections carried over into my students' spoken English until one overly busy day when I sat at my desk rubbing my temples. A student asked, "What's the matter, Mrs. Sheridan?"

"Tense," I replied, describing my emotional state.

After a slight pause, the student tried again: "What was the matter? What has been the matter? What might have been the matter....?"

(by Jean Sheridan from Reader's Digest)

[Arabayı çalmış olması (*had stolen*), yüklemden (*admitted*) daha önce gerçekleşmiştir.]

6-8 THE PASSIVE GERUND

Passive'in temel kuralı **be + past participle** (*be done*) olduğu için, kendinden sonra gerund alan fiiller, bu passive yapıyı **being done** biçiminde alır.

I have been invited to the party. I appreciate this.
I **appreciate being invited** to the party.
(Partiye davet edilmek hoşuma gitti.)

Bu kullanımlarda yüklem **active**, gerund'in **passive** olduğuna dikkat ediniz.

6-9 INFINITIVES

- a) **Infinitive**, fiilin başına "to" ekleyerek ya da fiili **yaln** haliyle kullanarak elde edilir. Bir infinitive, aynı gerund gibi, cümlede özne ya da nesne durumunda kullanılabilen isimleşmiş fiildir.

Infinitive tek bir sözcükten oluşabilir (simple infinitive: *to succeed, to rest, etc.*), ya da bir sözcük grubundan oluşabilir (infinitive phrase: *to talk about economy, to study medicine at university, to drive dangerously, etc.*)

She wants **to study** languages at university.
To be a student is really difficult.
They are planning **to move** into another house.
Her father doesn't let her **go out** alone at night.
His poor appearance made us **feel** sorry for him.

- b) Infinitive'i olumsuz yapmak için başına "not" getirilir.

It's difficult for a mother **not to feel** concerned about her children.
I agreed **not to invite** too many people to the party.
She pretended **not to see** me.

- c) Yüklemin olumsuz olmasıyla, infinitive'in olumsuz olmasının cümlelerin anlamını değiştirdiğine dikkat ediniz.

I **haven't decided** yet **to go** to the cinema with you.
(Sizinle sinemaya **gitmeye** henüz **karar vermedim**.)

I **have decided not to go** to the cinema with you.
(Sizinle sinemaya **gitmemeye karar verdim**.)

Yukarıdaki cümlelerden birincisinde, karar verme eylemi henüz gerçekleşmemiş. Bu yüzden "decide" fiilinin kendisi olumsuz. İkinci cümlede ise karar verme eylemi gerçekleşmiş. Ancak olumsuz yönde bir karar verilmiş. Bu nedenle olumsuzluk "go" fiiline aittir (*not to go*).

She **didn't agree to buy** a small car.
(Küçük bir araba **almayı kabul etmedi**.)

She **agreed not to buy** a small car.
(Küçük bir araba **almamayı kabul etti**.)

6-10 INFINITIVE AS SUBJECT OF THE SENTENCE

- a) **Simple infinitive** ya da **infinitive phrase** bir cümlelerin öznesi olabilir. Ancak İngilizce'de, cümleye **infinitive** ile başlamak pek yaygın değildir. Bunun yerine cümleye "It" ile başlayıp, asıl özneyi yüklemden sonra kullanmak daha yaygındır.

To save money is impossible these days.
It is impossible **to save** money these days.

To chat is fun.
It is fun **to chat**.

To chat with a close friend is fun.
It is fun **to chat with a close friend**.

Bu cümlelerde "it" anlamı etkilemez. Yani her iki cümlelerin de Türkçe'ye çevirisi aynıdır.

To travel by minibus takes a lot of time.
It takes a lot of time *to travel by minibus*.
(Minibüsle seyahat etmek çok zaman alıyor.)

To jump out of a plane with a parachute takes courage.
It takes courage *to jump out of a plane with a parachute*.

To become perfect in a foreign language takes years.
It takes years *to become perfect in a foreign language*.

- b) Daha önce bir gerund'ın da cümlelerin öznesi durumunda olabildiğini görmüştük. Pek çok cümlede, öznenin gerund ya da infinitive olması arasında bir fark yoktur. Ancak özne genel bir durumu ifade ediyorsa gerund, özel bir durumu ifade ediyorsa infinitive tercih edilir.

Swimming is my favourite sport.
Reading is very important for children.
Knowing English enables you to communicate with foreigners.

To swim in that river isn't at all wise.
To read this book in just three days will be difficult.
To learn English will enable you to find a good job.

Cümleye "it" ile başlıyorsak, devamındaki tamamlayıcısı genellikle infinitive olur. (Informal English'de, "it" ile başlayan cümleler, özellikle çok yaygın kullanılan bazı ifadeler, bazen bir gerund ile devam etmektedir.)

It isn't at all wise *to swim* in that river.
It is important for children *to read*.

It's nice *to see* you again.
It's nice *seeing* you again.

Cümleye başlarken bir possessive adjective (*my, your, his, Ali's, Jane's, my mother's* etc.) kullanıyorsak, özne olarak gerund kullanılır.

His coming late made us angry.
Her not wanting to come with us is quite surprising.
The employees' complaining too much about the pay rise made the management think it over.

EXERCISE 10: Rewrite the following sentences using "it" as the subject of the sentence.

It
3. To get into the habit of borrowing money is unwise.
It
4. To overexert yourself when exercising can do more harm than good.

5. To produce something worthwhile takes time and effort.
It

c) **For + Noun/Pronoun + Infinitive**

Özne olarak bir *infinitive*, *gerund* ya da "it" ile başlayan cümlelerde, eylemin kimin için *zor*, *kolay* vs. olduğunu belirtmek için **for + noun/pronoun** kullanılır.

Swimming is easy **for me**.
To swim is easy **for me**.
It is easy **for me** to swim.

Driving in heavy traffic isn't difficult **for an experienced driver**.
To drive in heavy traffic isn't difficult **for an experienced driver**.
It isn't difficult **for an experienced** driver to drive in heavy traffic.

d) **Of + Noun/Pronoun + Infinitive**

Özne olarak "it" ile başlayan cümlelerde, bazı sıfatlardan sonra **of + noun/pronoun** yapısı kullanılır. Bu sıfatlar, eylemi değil de, eylemi yapan kişiyi tanımlayan sıfatlardır: *polite*, *kind*, *rude*, *smart*, *clever*, *etc.*

It's **kind of you to help** me.
(Bana yardım ettiğiniz için çok nazıksınız.)

It was very **rude of him to treat** you like that.
(Sana böyle davranması büyük kabalıktı.)

It was **careless of me to leave** the key in the house.
(Anahtarı evde unutmam büyük dikkatsizlikti.)

e) **Of + noun/pronoun** ile **for + noun/pronoun** arasındaki ayrıma dikkat ediniz. **For + noun/ pronoun**, "bu eylemi yapmak bu kişi için zor, kolay, vs." anlamını ifade ediyor. **Of + noun/pronoun** ise, "Kişi bu eylemi yaptığı için dikkatsiz, düşünceli, kaba, nazik, vs." anlamını ifade ediyor.

It's **necessary for you to learn** English very well.
(İngilizce'yi çok iyi öğrenmek sizin için gerekli.)

It's **clever of him to learn** both English and computing.
(Onun hem İngilizce hem de bilgisayar öğrenmesi çok akıllıca.)

EXERCISE 11: Combine the two sentences using "for + noun/pronoun + infinitive" or "of + noun/pronoun + infinitive".

Examples: He bought the children an ice cream. It was generous.
It was generous of him to buy the children an ice cream.

6-11 INFINITIVE AS SUBJECT COMPLEMENT

"Be" fiilinden sonra *infinitive* kullanarak özneyi tanımlayıcı ya da açıklayıcı bir ifade elde edebiliriz.

When I was a child, my ambition was **to be** an architect.
A government's policy should be **to do** whatever is needed to improve the standard of living.
After dinner tonight, my plan is **to take** a walk along the seashore.

Her plan after work today is **to play tennis**. (*specific*)

6-12 INFINITIVE AS DIRECT OBJECT

Kendinden sonra infinitive alan filleri üç gruba ayırabiliriz.

1. Verb + infinitive

She **decided to move** to another city.

2. Verb + noun/pronoun + infinitive

She **persuaded me to go** with her.

3. Either verb + infinitive or verb + noun/pronoun + infinitive

She **expected to get** home early.

She **expected me to get** home early.

1. Verb + Infinitive

a) Kendinden sonra doğrudan **infinitive** alan fillerden yaygın olarak kullanılanlar şunlardır:

<i>afford</i>	<i>consent</i>	<i>hesitate</i>	<i>plan</i>	<i>seem</i>
<i>agree</i>	<i>decide</i>	<i>hope</i>	<i>prepare</i>	<i>struggle</i>
<i>appear</i>	<i>demand</i>	<i>learn</i>	<i>pretend</i>	<i>swear</i>
<i>arrange</i>	<i>deserve</i>	<i>manage</i>	<i>proceed</i>	<i>tend</i>
<i>care</i>	<i>endeavor</i>	<i>mean</i>	<i>promise</i>	<i>threaten</i>
<i>choose (prefer)</i>	<i>fail</i>	<i>offer</i>	<i>prove</i>	<i>volunteer</i>
<i>claim</i>	<i>happen</i>		<i>refuse</i>	<i>wait</i>

EXAMPLES:

Some of the students **volunteered to bring** some food for the picnic.

He couldn't **wait to see** the manager.

b) Eğer **prove** ile **prove**'dan sonra gelen fiili aynı kişi yapıyorsa, **reflexive pronoun + infinitive** kullanılabilir.

The new headmaster **proved to be** successful.

The new headmaster **proved himself to be** successful.

She soon **proved to be** reliable.

She soon **proved herself to be** reliable.

Prove'dan sonra **infinitive** kullanmadan, doğrudan sıfat kullanabiliriz.

The new project proved **useless**.

He soon proved **successful**.

2. Verb + Noun/Pronoun + Infinitive

- a) Bu gruptaki fiiller, kendilerinden sonra doğrudan *infinitive* alamazlar. Yüklem ile *infinitive* arasında *me, you, him, them, Jane, our teacher, my parents, etc.* gibi bir nesne (*indirect object*) olması gerekir.

<i>advise</i>	<i>convince</i>	<i>instruct</i>	<i>request</i>
<i>allow</i>	<i>direct</i>	<i>invite</i>	<i>require</i>
<i>appoint</i>	<i>enable</i>	<i>motivate</i>	<i>show...how</i>
<i>cause</i>	<i>encourage</i>	<i>oblige</i>	<i>teach</i>
<i>caution</i>	<i>forbid</i>	<i>order</i>	<i>tell</i>
<i>challenge</i>	<i>force</i>	<i>permit</i>	<i>tempt</i>
<i>command</i>	<i>hire</i>	<i>persuade</i>	<i>urge</i>
<i>compel</i>	<i>implore</i>	<i>remind</i>	<i>warn</i>

EXAMPLES:

My niece **requested me to help** her with her English assignment.
Her job **requires her to travel** a lot.
He **told me to be** there on time.
His bad companions **tempted him to drink** heavily.

- b) Bu fiiller *passive* durumda ise, kendilerinden sonra doğrudan *infinitive* gelir. Çünkü *active* cümlelerin nesnesi özne durumuna geçmiştir.

I **was advised to stop** smoking.
She **isn't allowed to go** out at night.
I **was compelled to tell** the truth about her.
He **was reminded to buy** some bread on his way back home.
I **was told to be** there on time.
He **was tempted** by his bad companions **to drink** heavily.

3. Verb + Infinitive or Verb + Noun /Pronoun + Infinitive

- a) Bu gruptaki fiiller hem kendilerinden hemen sonra hem de bir dolaylı nesneden sonra *infinitive* alabilirler. Ancak iki cümlelerin anlamı farklıdır. Şu iki cümleyi inceleyelim.

I want to study hard. (*Çok çalışmak istiyorum.*)
I want **you** to study hard. (*Çok çalışmanı istiyorum.*)

Yukarıdaki cümlelerden birincisinde, her iki eylemi de (*want, study*) özne yapıyor. İkincisinde ise, birinci eylemi (*want*) özne, nesne durumundaki ikinci eylemi ise (*to study*) dolaylı nesne yapıyor.

b) Bu gruptaki yaygın olarak kullanılan fiiller şunlardır:

<i>ask</i>	<i>dare</i>	<i>prefer</i>	<i>wish</i>
<i>beg</i>	<i>expect</i>	<i>promise</i>	<i>would like</i>
<i>choose</i>	<i>need</i>	<i>want</i>	

c) Bu fiillerin, "*promise*" dışında, hepsi dolaylı nesne ile kullanıldığında, yukarıdaki örnekte gördüğümüz anlam değişikliğine uğrar. Ancak "*promise*" nesne aldığı da, eylemi yapan kişi durumunda bir değişme olmaz.

I **promised to quit** smoking. (Söz veren ve sigarayı bırakacak olan "*ben*".)

I **promised my mother to quit** smoking.

(Söz veren ve sigarayı bırakacak olan yine "*ben*". "*promised my mother*" sadece sözün kime verildiğini belirtiyor.)

d) Soruda ya da olumsuz cümlede, **dare** fiilinden sonra infinitive "**to**" ile ya da **yalın** olarak gelebilir.

- **Would you dare do/to do** a parachute jump?

- No, I **wouldn't dare do/to do** that.

Ancak, olumsuzluğu **daren't** biçiminde ifade ediyorsak, *infinitive* yalın olarak gelir.

I **daren't do** a parachute jump.

Dare, kendinden sonra dolaylı nesne alıyorsa, **to + infinitive** kullanılır.

My friend **dared me to swim** across the Bosphorus.

Do you **dare me to talk** back to my boss when I believe he is wrong?

EXAMPLES:

BACK THROUGH THE SAME WAY

My neighbour asked me to help her get into her house because her young daughter had locked the door from the inside while she had been outside hanging clothes on the line.

The kitchen window was unlocked but could only be reached by ladder. When I finally climbed through, I had to clamber over a sink and the counter covered with dishes.

While the little girl stood there wide-eyed, I made my way through the house and opened the door.

When the mother entered, I headed for the window to close it. "Oh," she said, "you don't have to go out in the same way."

6-13 GERUND or INFINITIVE

Bazı fiiller kendilerinden sonra hem *gerund* hem *infinitive* alabilirler. Bunların bir bölümünde, *gerund* ya da *infinitive* kullanılması anlam değişikliğine yol açmaz. Bir bölümünde ise anlam değişir.

1. Gerund or infinitive with no or little change in meaning

<i>advise</i>	<i>cannot bear</i>	<i>encourage</i>	<i>intend</i>	<i>need</i>	<i>prefer</i>

Bu cümlede infinitive, passive yapıda bulunmadığı halde, cümlelerin anlamı passive'dir. Bu nedenle iki cümleyi birleştirdiğimizde, yüklem nesnesi özne durumuna geçmiştir (*This box*). Bu cümlede eylemi yapmanın *kimin için zor, kolay, vb. olduğunu* ifade etmek için **for + noun/pronoun** kullanabiliriz. Bu durumda cümleyi Türkçeye active olarak çeviririz.

- a) Eğer bir eylemin oluşunu baştan sona görmüşsek, izlemişsek, fiilin **yalın** hali kullanılır. Devam etmekte olan bir eylemi görmüşsek **gerund** kullanılır. Şimdi şu iki cümleyi inceleyelim.

6-23 CAUSATIVES

Türkçe karşılığı **ettirgen çatı** olan **causative**, İngilizce'de **have**, **get** ve **make** fiilleriyle elde edilir. Üçü de anlamca birbirine yakın olmalarına rağmen, aralarında küçük farklar vardır.

a) Have

Daha çok kişinin doğal görevi olan bir işi yaptırmak anlamında kullanılır: *tamirciye araba tamir ettirmek, terziye elbise diktirmek vb.* gibi.

Yesterday, I **had the mechanic repair** my car.
I **will have the plumber fix** the leak tomorrow.
I **have had my tailor make** a wonderful dress.
(*Terzime harika bir elbise diktirdim.*)

have somebody do something

Ancak, bu tür cümlelerde genellikle işi yapan kişi değil, işin yapılması önemlidir. Bu durumda, işi yapan kişiyi belirtmeden sadece yapılan işi ifade edebiliriz.

Yesterday, I **had my car repaired** (by the mechanic.)
I **will have the leak fixed** tomorrow (by the plumber.)
I **have had a wonderful dress made** (by my tailor.)
(*Harika bir elbise diktirdim.*)

have something done (by someone)

b) Get

Genellikle, birini ikna ederek bir iş yaptırmak anlamını ifade eder.

My mother is a good tailor, but she doesn't sew any more.
I want to **get her to make** me a dress for my graduation ball.

Yesterday, I **got my friend to write** a composition for me.

She is rather lazy. She always **gets her sister to clean** their room.
(Odalarını her zaman kızkardeşine temizletir.)

get somebody to do something

İşi yapan kişiyi belirtmeden, yapılan işi ifade etmek için aşağıdaki kalıbı kullanınız.

get something done (by someone)

I want to **get a dress made** for my graduation ball.
I **got a composition written** for me (by my friend.)
She always **gets their room cleaned** by her sister.

Get something done ile **have something done** arasında önemli bir fark yoktur ve birbirinin yerine kullanılabilirler. **Get something done** Informal English'de daha yaygın kullanılır.

c) Make

Birine zorlama ile bir iş yaptırmak anlamını ifade eder.

I **made my son do** his homework before he went outside to play.
(I forced him to do....)
The film **made us laugh** a lot. (Film bizi çok güldürdü.)
His broken leg **made him stay** in bed for a month.

make somebody do something

Make'in passive biçimi, **get** ve **have**'in passive biçiminden (**get/have something done**) farklıdır. Passive anlam için **make**'in kendisi passive'e dönüştürülür.

The film **made me cry**. (active)
I **was made to cry** by the film. (passive)

His friends **made him laugh** during the class. (active)
He was made to laugh by his friends during the class. (passive)

be made to do something (by someone)

Make + noun/pronoun kalıbından sonra, fiil kullanmadan direk sıfat da gelebilir. Bu kullanım **get** ve **have** ile mümkün değildir.

His coming late **made me feel angry**.
His coming late **made me angry**.

Her strange behaviour **makes everybody feel surprised**.
Her strange behaviour **makes everybody surprised**. (*surprised* burada bir sıfattır.)

The good news **made me feel relieved**.
The good news **made me relieved**. (*relieved* burada bir sıfattır.)

d) *Have* with a passive meaning

Have fiilini bazı passive cümlelerin ifade ettiği anlamı vermek için de kullanabiliriz.

He **had his wallet stolen** on the train on his way to Ankara.
(Ankara'ya giderken trende cüzdanını **çaldırıldı**.)

His wallet **was stolen** on the train on his way to Ankara.
(Ankara'ya giderken trende cüzdanı **çaldı**.)

Bu iki cümle yapı olarak farklı olmalarına karşın, aynı anlamı ifade etmektedir.

They **had their house broken into** last week.
Their house **was broken into** last week.

You **might have your hair damaged** while getting it permed.
Your hair **might be damaged** while it is being permed.

GOT IT DONE

Our neighbour Mary was bending over in a lawn chair and trimming the edge of her walk. While we talked, another neighbour, Lloyd, came over and also began to watch. "Mary," he said, "you're never going to get the trimming done sitting in a chair like that." "Oh yes, I am," she replied. "Mary," Lloyd repeated, "you can't get it done that way." "Yes, I can," Mary said. Getting exasperated watching her, Lloyd got down on his hands and knees and said, "Here, Mary, give me those clippers," and he started with the trimming. "See," said Mary. "I told you I would get the trimming done sitting in this chair!"

UNIT 7

Adjectives and Adverbs

INTRODUCTION

Bir ismi tanımlayan sözcüğe sıfat (*adjective*) denir: a *pretty girl*, *rainy weather*, *hardworking students*, a *difficult question*, etc.

Zarf (*adverb*) ise öncelikle bir fiili tanımlayan sözcüktür: *speak fluently*, *walk slowly*, *cook well*, *play badly*, etc.

Bir zarf bir sıfatı ya da başka bir zarfı da niteleyebilir: *very hot weather*, an *extremely difficult question*, *very fluently*, *unusually quickly*, etc.

Zarflar genellikle sıfatın sonuna "-ly" ekinin getirilmesiyle oluşur: *serious/seriously*, *bad/badly*, *extreme/extremely*, etc. Ancak, sıfat ve zarf biçimi aynı olan sözcükler de vardır: *fast*, *hard*, *late*, *early*, etc.

Sonu "-ly" ile biten her sözcük zarf olmayabilir. *Friendly*, *lovely*, *elderly* gibi sözcükler, sonu "ly" ile bittiği halde sıfattır: an *elderly woman*, a *lovely day*, a *friendly voice*, etc.

Sıfat ve zarfın cümle içindeki görevi, kullanımları ve çeşitli sıfat ve zarf yapıları, bu ünitemizin konusunu oluşturmaktadır. Şimdi bunları inceleyelim.

7-1 ADJECTIVES

- a) Sıfat, bir sıfat tamlamasında (*adjective + a noun*), ismin önünde yer alır ve sayılabilir tekil isimlerle tamlamanın başında **a/an** kullanılır. Eğer sıfat sayılamayan bir ismi (*water*, *weather*, *work*, etc.) ya da sayılabilir çoğul bir ismi (*days*, *girls*, *students*, etc.) tanımlıyorsa **a/an** kullanılmaz.

He is **a good cook**. / She has **a round face**.

This is **hard work**. / I don't like to swim in **cold water**.

Those are **nice shoes**. / Our neighbours are really **friendly people**.

- b) Sıfatlar yaygın olarak **be**, **become** ve **get** fiilleri ile kullanılır. **Seem**, **appear**, **look**, **feel**, **taste**, **smell** ve **sound** gibi duyu fiilleriyle de sıfat kullanılır. Çünkü bu fiiller bir eylem bildirmezler. Bir nesnenin durumunu ifade etmemizi sağlarlar.

- a) Bir ismin "-ing" li bir sıfatla mı yoksa "-ed" li bir sıfatla mı tanımlanacağı öncelikle o ismin etkileyen (*active*) ya da etkilenen (*passive*) taraf olmasına bağlıdır. Eğer tanımladığımız isim, o eylemin olmasına neden oluyorsa yani etkiliyorsa, o ismi "-ing" li bir sıfatla tanımlayabiliriz. Eğer tanımladığımız isim o eylemden etkileniyorsa, onu "-ed" li bir sıfatla tanımlayabiliriz.

<i>only</i>	<i>purely</i>	<i>exactly</i>	<i>too</i>
<i>just</i>	<i>exclusively</i>	<i>mostly</i>	<i>either</i>
<i>merely</i>	<i>primarily</i>	<i>especially</i>	<i>as well</i>

Either, daima cümle sonunda ve olumsuz cümlede kullanılır.

Father didn't want to go to the cinema. He didn't want us to go **either**.

Too ve **as well** olumlu cümlede ve genellikle cümle sonunda kullanılırlar. Ancak, **too**, özneyi vurgularken ortada da kullanılabilir.

Everybody enjoyed the play. My parents enjoyed it **too/as well**.
I, **too**, had expected him to pass.
(Ben de onun geçeceğini ummuştum.)

Also, ortada kullanılan bir zarftır, ancak cümle sonunda da yer alabilir. Vurguladığı öğeye bağlı olarak cümle içindeki yeri değişebilir.

(Bu örneklerde neden ve sonuç aynı zamana aittir.)

(Bana o kadar kızıştı ki beni affedeceğini ummuyordum.)

Finally I said, "You're in trouble, Clint. I can take acting lessons, but you can't get a new Adam's apple."

KNOWS HIS JOB

A wealthy matron was so proud of a valuable antique vase that she decided to have her bedroom painted the same colour as the vase. Several painters tried to match the shade, but none came close enough to satisfy the eccentric woman.

Eventually, a painter approached, who was confident that he could mix the proper colour. The woman was pleased with the result, and the painter became famous.

Years later, he retired and turned the business over to his son. "Dad," said the son, "there's something I've got to know. How did you get those walls to match that vase so perfectly?"

"Son," the father replied, "I painted the vase."

7-15 COMPARATIVE FORMS OF ADJECTIVES AND ADVERBS

a) Regular Inflection of Adjectives and Adverbs

Sıfatların karşılaştırmalı biçimini elde etmek için "-er" takısı ya da "more" sözcüğü kullanılır. Genellikle bir heceli ya da bazı iki heceli sıfatlar sonuna "-er" takısı alır.

<i>big-bigger</i>	<i>long-longer</i>	<i>tidy-tidier</i>	<i>pretty-prettier</i>
<i>thin-thinner</i>	<i>short-shorter</i>	<i>happy-happier</i>	<i>dear-dearer</i>
<i>easy-easier</i>	<i>slow-slower</i>	<i>quick-quicker</i>	<i>early-earlier</i>

Sonu **-ing**, **-ed** ve **-s** ile biten sıfatlar, kısa heceli de olsa sonuna "-er" takısı alamazlar. Bu sıfatların başına "more" getirilir.

<i>tired-more tired</i>	<i>bored-more bored</i>	<i>serious-more serious</i>
<i>tiring-more tiring</i>	<i>boring-more boring</i>	<i>tedious-more tedious</i>

Bazı iki heceli sıfatlar her iki biçimde de kullanılabilir.

<i>simple-simpler/more simple</i>	<i>common-commoner/more common</i>
<i>narrow-narrower/more narrow</i>	<i>friendly-friendlier/more friendly</i>
<i>polite-politer/more polite</i>	<i>handsome-handsomer/more handsome</i>

Çoğu iki ve daha fazla heceli sıfatlar başına "more" alır.

<i>modest-more modest</i>	<i>careful-more careful</i>	<i>comfortable-more comfortable</i>
<i>hostile-more hostile</i>	<i>careless-more careless</i>	<i>beautiful-more beautiful</i>
<i>certain-more certain</i>	<i>frequent-more frequent</i>	<i>practical-more practical</i>
<i>content-more content</i>	<i>intelligent-more intelligent</i>	<i>efficient-more efficient</i>

Bazı bileşik sıfatlar, her iki biçimde de *comparative* yapılabilir. Özellikle Informal English'de, sıfatın birinci sözcüğünü çekimlemek çok yaygındır.

My brother is **more hardworking** than I am.
My brother is **harder-working** than I am.

I am **more easy-going** now than I was a few years ago.
I am **easier-going** now than I was a few years ago.

Sonu **-ly** ile biten zarflar başına "more" alır.

<i>slowly-more slowly</i>	<i>quickly-more quickly</i>	<i>carefully-more carefully</i>
<i>easily-more easily</i>	<i>cleverly-more cleverly</i>	<i>comfortably-more comfortably</i>

Sonu **-ly** ile bitmeyen zarflardan **fast**, **hard** ve **late**, sonuna **-er** takısı alır. Ancak **often**, **more often** biçiminde çekimlenir. **Early** ise, sonu **-ly** ile bittiği halde **earlier** biçiminde çekimlenir.

<i>fast-faster</i>	<i>often-more often</i>
<i>hard-harder</i>	<i>early-earlier</i>
<i>late-later</i>	

b) Karşılaştırma yapabilmek için iki öğeye ihtiyacımız vardır. İki insanı, iki nesneyi, iki yeri vs. birbiriyle karşılaştırabiliriz. Karşılaştırılan öğelerden ikincisine geçerken arada "than" kullanılır.

Istanbul is **bigger than** Ankara.
Ayşe is **more beautiful than** her sister.
Your house is **larger than** ours. (our house)
Her hair is **longer than** mine. (my hair)
She is **taller than** me.
He is driving **more carefully than** you.
I find basketball **more enjoyable than** volleyball.

Karşılaştırmayı yaparken, her iki nesnenin de tekil ya da her ikisinin de çoğul olması gerekmez. Şu örneği inceleyelim:

Istanbul is bigger **than all the other cities** in Turkey.

Bu örnekte, *İstanbul'u Türkiye'nin diğer bütün şehirleriyle* karşılaştırdığımız için, yine iki taraf vardır.

Ayşe is more hardworking **than all my other students**.
(Ayşe diğer bütün öğrencilerimden daha çalışkandır.)

He drives more carefully **than his brothers**.
Some people are luckier **than others**.

Aynı nesnenin farklı zamanlardaki durumunu da karşılaştırabiliriz.

It is **warmer** today **than** it was yesterday.
(Bugün hava dün olduğundan (dünkünden) daha sıcak.) OR

It was **cooler** yesterday **than** it is today.
(Dün hava bugünkünden daha serindi.)

Last night, they treated us **more sincerely than** I had expected.
(Dün akşam bize, umduğumdan daha samimi davrandılar.)

I used to go to the cinema **more often** when I was at university **than** I do now.

Comparative yapıyı, belirtili bir nesne için kullanıyorsak, önüne "the" gelir.

- Which of those two is your English teacher?
- **The taller** (of them) is my English teacher.

Of these two apples, can I take **the bigger** one?

Aksi takdirde "the" kullanılmaz.

My English teacher is **taller than** yours.
This apple is **bigger than** that one.

c) Irregular Inflection of Adjectives and Adverbs

Bazı sıfat ve zarfların çekimi, belirtilen kuralların dışındadır.

<i>good</i> (adj.)/ <i>well</i> (adv.)	= <i>better</i>	<i>much</i>	= <i>more</i>
<i>bad</i> (adj.)/ <i>badly</i> (adv.)	= <i>worse</i>	<i>many</i>	= <i>more</i>
<i>far</i>	= <i>farther/further</i>	<i>little</i>	= <i>less</i>

She is a **better** driver than I thought.
She drove the car **better** than I thought.
He is **better** at mathematics than his sister, but he is **worse** at physics.
He speaks English **worse** than anybody else in the classroom.

Good, bad ve **well** sözcüklerini "feel" ve "get" fiilleriyle kullanırken belli kısıtlamalar vardır. "Well" in, sağlığımıza ilişkin konuşurken "iyi" anlamında bir sıfat olduğunu görmüştük.

- How are you today/How do you feel today?
- I am **well**/I feel **well**. (not "good")

Eğer, hasta birine "*İyileşinceye kadar yatmalısın.*" demek istiyorsak, **well** ya da onun comparative biçimi **better** kullanabiliriz. (*good* kullanamayız.)

You must stay in bed until you feel **well/better**.

Eğer hasta biri, "*Bugün kendimi kötü/daha kötü hissediyorum.*" demek istiyorsa bunu şöyle ifade edebiliriz.

I feel **worse** today. (not "*bad*")

"**Feel good/bad**", kişinin ruh halini ifade etmek için kullanılabilir.

I **feel good**. (*happy, pleased, etc.*)

I **feel bad**. (*unhappy, displeased, etc.*)

Get fiilinden sonra **good** ve **bad** kullanılmaz. Bunların comparative biçimi **better** ve **worse** kullanılır. "**Get well**" kullanımı da mümkündür.

She was very ill yesterday, but she **is getting better**.

Your English **is getting better**. (*İngilizcen düzeliyor.*)

The economic situation **is getting worse**. (*Ekonomik durum kötüleşiyor.*)

I hope you'll **get well** soon. (*Umarım yakında iyileşirsin.*)

Nicelik sıfatı olarak **much** ve **many** "**more**" biçiminde çekimlenir. **Little**'in comparative biçimi "**less**" dir. **Few** düzenlidir. "**Fewer**" biçiminde çekimlenir.

You have **little** money, but I have **less**. (*I have less money than you.*)

I have **few** books, but you have **fewer** than me.

There were **fewer** people at the demonstration yesterday than at the previous one.
(*Dünkü gösteride öncekinden daha az kişi vardı.*)

I guess **more** people will become unemployed in the days to come.

(*Sanırım önümüzdeki günlerde daha çok insan işsiz kalacak.*)

Zarf olarak **much** ve **little**'in comparative biçimi yine **more** ve **less**'dir.

I drove the car **more than** you did.

I used to read **more than** I do now.

She thinks very little, but her sister thinks **less**.

"**More**" gibi "**less**" de sıfat ve zarfları nitelemek için kullanılır.

This bed is **less comfortable than** the one I slept in last night.

(*Bu yatak, dün akşam yattığım yataktan daha az rahat.*)

Bu cümleden çıkan sonuç "*yatakların ikisi de rahat, ama bu daha az rahat*"dır. Eğer bu cümleyi "**more uncomfortable**" ile ifade edersek anlam biraz değişir:

This bed is **more uncomfortable than** the one I slept in last night.

(*Bu yatak, dün akşam yattığım yataktan daha rahatsız.*)

Bu cümleden çıkan sonuç ise "*Yatakların her ikisi de rahatsız ama bu daha rahatsız*"dır.

Both a Mercedes and a BMW are expensive cars, but a BMW is **less expensive than** a Mercedes.

My daughter is obviously **less good** at maths **than** my son.

Far iki şekilde comparative yapılır: **farther** ya da **further**. Eğer **far**, "uzak" anlamında kullanılıyorsa comparative biçimi **farther** ya da **further** olabilir.

Your house is **farther/further** from the city centre than ours.

Further'in bir anlamı da "**more**" demektir. Bu anlamda **farther** kullanılmaz.

I'll let you know as soon as I get **further information**. (*more information*)

OLDER AND ELDER

İki kişinin ya da iki nesnenin yaşlarını karşılaştırıyorsak "**older**" kullanılır. "*Abla, ağabey, büyük amca vs.*" gibi aile bireylerinden, daha büyük olanını ifade ediyorsak "**elder**" kullanılır. "**Than**" kullanılan cümlelerde **elder** kullanılmaz; çünkü "**than**" karşılaştırma yapar. Özellikle American English'te, **elder** yerine **older** kullanımı çok yaygındır.

My **elder sister** lives in Germany. (*Ablam Almanya'da oturuyor.*)
Her **elder brother** doesn't allow her to stay out late.
(*Ağabeyi, onun geç vakte kadar dışarıda kalmasına izin vermiyor.*)

I have two sisters. One is **older than** me, and one is **younger**.
Are you **older** or **younger than** your brother?

Older "daha eski" anlamında da kullanılır.

Our apartment building is **older than** all the others in our street.
This car seems **older than** the one we tried out yesterday, and I'd prefer to buy the newer one.

d) İki nesneyi karşılaştırırken, bazı zarflarla karşılaştırmanın derecesini azaltabilir ya da çoğaltabiliriz. Karşılaştırmalı bir sıfat ya da zarfı niteleyebilecek zarflar şunlardır: **far, much, a little, even, hardly, scarcely, almost, nearly, any, rather**. (*quite ve fairly, comparative yapılarla kullanılmaz.*)

(*... ama hiç de daha iyi değil.*)

Last night, I went to bed **rather earlier** than usual.
(*Dün akşam, her zamankinden oldukça erken yattım.*)

e) Bir durumun sürekli değiştiğini vurgulamak için *comparative adjective* ya da *adverb* çift kullanılabilir: *more and more, faster and faster, better and better, more and more expensive, etc.* Örneklerde görüldüğü gibi, **-er** takısı alan sıfatların kendisi çift söylenir. Çok hecelilerde ise **more** yinelenir.

Everything is getting **more and more expensive**.
(*Her şey gittikçe pahallaşıyor.*)

It's becoming **more and more important** to know a foreign language.
(*=It's becoming increasingly important to....*)
(*Yabancı dil bilmek gittikçe daha çok önem kazanıyor.*)

More and more students are taking the university exam.
(*Gittikçe daha çok öğrenci üniversite sınavına giriyor.*)

It's becoming **harder and harder** to find a job.

f) Karşılaştırmalı yapıyı, iki durumun birbirine bağlı olarak değiştiğini ifade etmek için de kullanabiliriz.

SPEAKING VOLUMES

The music for the wedding reception of my wife's nephew was being furnished by a young group, who obviously believed that loud is good. Finally, in desperation, she caught the eye of the bandleader and beckoned him over. Shouting at the top of her voice, she asked, "CAN'T SOMETHING BE DONE ABOUT THE VOLUME?"

7-17 SUPERLATIVE FORMS OF ADJECTIVES AND ADVERBS

- a) Sıfat ve zarflarda en üstünlük derecesi "-est" takısı ve "most" sözcüğüyle ifade edilir. "-est" ve "most" un kullanımıyla ilgili kurallar "-er" ve "more" için belirttiğimiz kurallarla aynıdır.

<i>pretty-prettier-prettiest</i>	<i>expensive-more expensive-most expensive</i>
<i>big-bigger-biggest</i>	<i>frequent-more frequent-most frequent</i>
<i>clever-cleverer-cleverest</i>	<i>pleased-more pleased-most pleased</i>
<i>carefully-more carefully-most carefully</i>	
<i>easily-more easily-most easily</i>	
<i>significantly-more significantly-most significantly</i>	

Sıfat ve zarf biçimi aynı olan sözcüklerin çekimi şöyledir:

<i>hard-harder-hardest</i>	<i>late-later-latest</i>
<i>fast-faster-fastest</i>	<i>early-earlier-earliest</i>

Late'in comparative ve superlative biçimi iki şekildedir:

<i>late-later-latest</i>	<i>late-latter-last</i>
--------------------------	-------------------------

"Geç-daha geç-en geç" anlamında "late-later-latest" kullanılır.

I usually get up **late**. My son gets up **later than** me and my husband gets up **the latest**. (adverb)
 He usually gets home on a **late** train. (adj.)
 Can we travel on a **later** train today? (adj.)
The latest train we can get direct to Adapazarı is the 10.30. (adj.)

Latest, "son moda, en son" anlamında "most recent, up-to-date" ile eşanlamlı olarak da kullanılır.

Everybody at the party was dressed in **the latest** fashion.
 (Partideki herkes son moda giyinmişti.)

Have you read his **latest** book?
 (Onun en son kitabını okudun mu?)

Latter sadece sıfat olarak kullanılır ve arka arkaya sözü edilen iki şeyden "ikincisi, sonuncusu" anlamındadır. İki şeyden "birincisi, önceki" anlamında "former"* ile birlikte sık kullanılır.

- There are two films on at the same time. One is a thriller and the other is a romance.
- I'd prefer to watch **the latter**. I'd find **the former** too nerve-racking.
 (Ben ikincisini izlemeyi tercih ederim. Birincisini fazla sinir bozucu buluyorum.)

Bu cümlede "**latter**" söyleniş sırasına göre ikinci sırada yer alan "**romance**" yerine, "**former**" ise birinci sırada yer alan "**thriller**" yerine kullanılmıştır. (*former = first, latter = second*)

Last, sıfat ve zarf olarak kullanılır ve "**first**" ile zıt anlamlıdır.

I **first** went to Germany in 1973, and I **last** went there in 1986. (*adv.*)
(Almanya'ya ilk olarak 1973'te, en son (son olarak) 1986'da gittim.)

I will be **the last** person to leave the office. Who will be **the first**? (*adj.*)
(Bürodan en son ayrılan kişi ben olacağım. Birinci/ilk ayrılan kim olacak?)

Former'in bir anlamı da "**eski**" demektir: *in former times* (eski zamanlarda), *our former teacher* (eski öğretmenimiz/önceki öğretmenimiz). "**Former**" bir comparative değildir. "-er", sözcüğün yapısında vardır. "**Formerly**" bir zarftır ve "**eskiden, önceleri**" anlamındadır.

I **formerly** worked as a secretary.
(Eskiden/Önceleri bir sekreter olarak çalışıyordum.)

Düzensiz sıfat ve zarflar ise şu şekilde çekimlenir:

<i>good/well-better-best</i>	<i>much-more-most</i>
<i>bad/badly-worse-worst</i>	<i>little-less-least</i>
<i>far-farther/further-farthest/furthest</i>	<i>few-fewer-fewest (düzenlidir)</i>

- b) Sıfat ve zarfların *superlative* biçimi, bir kişi ya da nesnenin, belirtilen özelliğe belli bir grubun içerisinde en üst ya da en alt düzeyde sahip olduğunu ifade eder. *Superlative*'in önünde "**the**" kullanılır.

She is **the most hardworking** student in the classroom.
Istanbul is **the biggest** city in Turkey.

(Üçünün içinde İngilizceyi en iyi o konuşuyor.)

- c) Tanımladığımız ögenin hangi ortamda *en iyi, en kötü* vs. olduğunu belirtirken, eğer bu ortam bir yer ise **in** kullanılır: *in the world, in Turkey, in our street, etc.* Zaman ya da bir grup ifade eden sözcük ise **of** kullanılır: *the happiest time of my life, the shortest month of the year, the most hardworking one of all my students, the most intelligent of us all, the most famous of all the Turkish writers, etc.* Grup ifade eden yapılarla **among** da kullanabiliriz: *the cleverest among us, the laziest among my students, etc.*

Mount Everest is the highest mountain **in the world**.
February is the shortest **month of the year**.
Hande is the tallest **of all my students**.
Of all the contemporary writers, I like him best.

- d) *Superlative* kullanabilmemiz için tanımlayacağımız nesnenin ait olduğu grubun en az üç öğeden oluşması gerekir. Eğer grup iki öğeden oluşuyorsa *comparative* kullanılır.

They have two daughters, and Ayşe is **the cleverer of the two**.
They have three sons, and Ali is **the most intelligent of the three**.

Bazı durumlarda *comparative* ile *superlative* kullanımını ayırt etmek güç olabilir. Şu iki örneği inceleyelim.

She is **more hardworking than** all the other students in the classroom.
(O sınıftaki diğer bütün öğrencilerden daha çalışkandır.)

She is **the most hardworking** of all the students in the classroom.
(O sınıftaki bütün öğrencilerin içinde en çalışkandır.)

Bu örneklerden birincisinde, "she", sınıftaki diğer öğrencilerin dışında tutulmuştur. Yani bir tarafta "she", bir tarafta "diğer öğrenciler" göz önüne alındığında, iki öğeden oluşan bir karşılaştırma yapılmıştır. İkinci örnekte ise "she" grubun bir üyesidir ve o grubun içinde "en çalışkan" olduğu ifade edilmiştir.

Istanbul is **bigger than** all the other cities in Turkey.
Istanbul is **the biggest** city in Turkey.

(Genellikle ona en az ihtiyaç duyduğum zamanlarda gelir, en çok ihtiyaç duyduğumda ise gelmez.)

(İki gömlekten, kareli olanını daha çok beğendim.)

(Kahveyi çaydan daha çok severim.)

(Türk pop sanatçıları içinde en çok Sezen Aksu'yu severim.)

Hate, dread gibi olumsuz anlam taşıyan fiillerle **better** ve **best** kullanamayız. Bu tür fiillerle **more** ve **most** kullanabiliriz.

Among the martial arts I hate karate **most**.
(Dövüş sporları içinde en çok karateden nefret ederim.)

f) Bir *superlative*'in önünde, normalde "the" kullanıldığını görmüştük. Ancak, "his, my, this, that" gibi başka bir sözcük kullanılıyorsa "the" kalkar.

His best book is his latest.
She is one of **my most hardworking** students.

g) Oldest-eldest

Oldest ve eldest arasındaki fark, older ve elder arasındaki fark ile aynıdır. Eğer bir kişi ya da nesnenin yaşça en büyük olduğunu ifade ediyorsak **oldest**, aile bireylerinden en büyük olanını ifade ediyorsak **eldest** kullanılır.

Who is **the oldest** student in this classroom?
The oldest representative came from China.

My eldest uncle is a lawyer.
My eldest brother is getting married next week.

h) Most + adjective , önünde "the" olmadan kullanıldığı zaman "very" anlamını verir.

(Geçen gün çok garip bir şey oldu.)

You shouldn't miss that film. It's **most** interesting. (very interesting)

7-18 "TO + INFINITIVE" AFTER ADJECTIVE STRUCTURES

Sıfat yapılarında "to + infinitive" kullanımını daha önce "too" ve "enough" ile görmüştük. "Too + infinitive" kullanımı, özellikle "so", "such" ve **superlative** ile de mümkündür. Ancak "too + infinitive" in bu yapılarda kullanılış biçimi ve cümleye kattığı anlam farklıdır.

- a) "Too" ve "enough" ile kullanıldığında, "to + infinitive" "...yapacak kadar" anlamını verir ve neden-sonuç ilişkisinde sonucu ifade eder. "Too" ve "enough" dan sonra sonucu ifade etmek için that-clause kullanamayız.

Reason: This text is too long. **Effect:** I can't translate it in just two days.

This text is **too long** (for me) **to translate** in just two days.
(Bu metin, sadece iki günde çeviremeyeceğim kadar uzun.)

Reason: This text isn't short enough. **Effect:** I can't translate it in just two days.

This text isn't **short enough** (for me) **to translate** in just two days.
(Bu metin, sadece iki günde çevirebileceğim kadar kısa değil.)

- b) "So", "such" ve **superlative** ile "to + infinitive" kullanımında neden-sonuç ilişkisi kurulmaz. Sadece, tanımlanan isme bir nitelik eklenir. Bu yapılarda kullanılan "to + infinitive" aslında, daha önce 6. ünite de incelediğimiz, "noun + to infinitive" kullanımındadır.

(a nice person to work with)
She is **such a nice person to work with!**

(an interesting topic to work on)
This is **such an interesting topic to work on!**

(a suitable person to do the job)
She was **the most suitable person to do the job.**
(O, işi yapacak en uygun kişiydi.)

(a good solution to overcome the problem)
The manager's proposal was **the best solution to overcome the problem.**
(Müdürün teklifi, sorunun üstesinden gelmek için en iyi çözümdü.)

Daha önce de gördüğümüz gibi, "so" ve "such" da neden-sonuç ilişkisinde sonuç *that-clause* ile ifade edilir.

She is such a nice person to work with **that everybody wants to work with her in the same project.**

This is such an interesting topic to work on **that I'll choose it as my term project.**

7-19 LIKE, AS, SUCH AS

- a) **Like**, "similar to, for example, the same as" anlamını veren bir preposition'dır. Bu nedenle kendinden sonra bir *isim*, *zamir* ya da *gerund* gelebilir.

She is very beautiful indeed, **like an angel**. (melek gibi)
Work hard **like your father**. (Baban gibi)
This bed is too tough. Sleeping in it is **like sleeping** on the floor.
(Bu yatakta yatmak yerde yatmak gibi.)
Do you have any other books **like this**? (Bunun gibi başka kitapların var mı?)
My son wants to be a teacher **like me**. (Benim gibi)

Like'dan sonra *gerund*'i, **like someone/something doing** biçiminde de kullanabiliriz.

We heard a loud noise last night. It **sounded like a bomb exploding**.
(Bomba patlaması gibi geldi.)

- Do you hear a noise in the kitchen?
- Yes, it **sounds like the tap dripping**.

Like'in bu "gibi" anlamını **as** ile de verebiliriz. Ancak **as**'den sonra **subject + verb** kullanılır.

Work hard **like your father**. (baban gibi...)
Work hard **as your father does**. (babanın yaptığı gibi...)
My son wants to be a teacher **like me/as I am**.
Try to do it **like this/as I show you**.

- b) **As + subject + verb** kalıbı farklı anlamlarda da kullanılabilir.

She passed the exam with a high grade, **as we expected**.
(We were expecting this already.)

As we all know, we'll face terrible conditions on this expedition.
(Hepimizin bildiği gibi,...)

She did exactly **as she was told**. (She did what she was told.)
(Aynen kendisine söylendiği gibi yaptı.)

As I said before (daha önce söylediğim gibi), **as we stated before** (daha önce belirttiğimiz gibi), **as (is) known** (bilindiği gibi), **as (was) expected** (beklenildiği gibi), etc. bu şekilde yaygın olarak kullanılan ifadelerdir.

Passive ifadeleri kısaltarak **as + past participle** ya da **as + verb be + past participle** biçiminde kullanabiliriz.

As is known very well = **As known** very well (çok iyi bilindiği gibi)
As was mentioned before = **as mentioned** before (daha önce değinildiği gibi)
As has been illustrated above = **As illustrated** above
(yukarıdaki örnekte görüldüğü gibi)

- c) **As**'den sonra bir isim kullanılabilir: *as an accountant*, *as a study*, *as a hospital*, etc. Bu kullanımıyla **as** "..... olarak" anlamına gelir ve bir benzetme yapmaz, gerçek durumu yansıtır.

He works **as** an accountant in a big firm.
(Büyük bir şirkette muhasebeci olarak çalışıyor.)

She has been working **as** a teacher for nearly ten years.

The news that she had passed the exam came **as** a great surprise to me.
(It really was a surprise.)

I've always regarded you **as** my closest friend.
(Seni her zaman en yakın arkadaşım olarak görmüşümdür.)

Like + a noun ile as + a noun arasındaki farkı şu örneklerde inceleyelim:

As your mother, I want you to be successful.
Like your mother, I want you to be successful.

Bu cümlelerden birincisinde "**as your mother**", "*Ben senin annenim ve **annen olarak***" anlamına gelmektedir. İkincisinde ise "**like your mother**.....", "*Annem senin başarılı olmanı istiyor. **Annem gibi**, ben de senin başarılı olmanı istiyorum.*" anlamını verir.

Yesterday, my son invited his classmates to our house to study together, and our living room was **like** a classroom. (...**sınıf gibi**)
(*Oturma odası aslında sınıf olmadı. Sadece sınıfa benzedi.*)

When there were more students than they had expected, they used the teachers' room **as** a classroom. (...**sınıf olarak**)
(*Öğretmenler odası sınıfa dönüştürüldü ve gerçekten sınıf amacıyla kullanıldı.*)

d) Such as + noun, "*for example*" anlamında kullanılır. Bu anlamda **like** da kullanabiliriz.

I like summer fruits, **such as** peaches, melons and watermelons.
, **like** peaches, melons and watermelons.
(*Ben, şeftali, kavun, karpuz gibi yaz meyvelerini severim.*)

Such as ve **like** bu anlamıyla, kullanılan genel bir ifadeyi örneklendirir. (*Yaz meyvelerinin örneklendirilmesi gibi.*) Vereceğimiz örnek bir tane ya da birden fazla olabilir.

Such ... as, birbirinden ayrılabilir ve araya genellediğimiz isim girebilir. Şu örnekleri inceleyelim:

Some countries, **such as** Turkey, are still dependent on agriculture economically.
Countries **such as** Turkey are still dependent on agriculture economically.
Such countries **as** Turkey are still dependent on agriculture economically.

GREAT EXPECTATIONS

My roommate was interested in a young man in her English literature class, but she was too shy to let him know. One day she overheard him say he was on his way to the library for a certain book. She rushed to the library, found the book and stuck in it a letter from her mother.

"Why would he want to read a letter from your mother?" I asked.

"He wouldn't, but if he is any kind of gentleman, he'll return it to me." Her dorm and room number were on the envelope, of course.

The next day, he appeared with the letter and asked my roommate out on a date. "Couldn't fail," she later told me. "The book was *Great Expectations*."

UNIT 8

Relative Clauses

INTRODUCTION

Relative clause, bir ismi tanımlayan cümledir. Ancak tek başına kullanılamaz. Bir temel cümleye bağlı olarak tanımladığı isimden sonra gelir. Bir ismi tanımladığı için **relative clause** "*adjective clause*" biçiminde de isimlendirilebilir.

Sıfat tanımladığı isimden önce gelir. **Relative clause** ise tanımladığı isimden sonra gelir.

The student **who is the best in the classroom** is Ayşe. (*relative clause*)
The best student in the classroom is Ayşe. (*adjective*)

The money **which was stolen from the bank** hasn't been found yet.
(*relative clause*)
The stolen money hasn't been found yet. (*adjective*)

Relative clause, tanımlayan (*defining*) ve tanımlamayan (*non-defining*) biçiminde ikiye ayrılır.

Defining relative clause, bir ismi tanımlayarak diğerlerinden ayırt etmemizi sağlar. "*The man*" dediğimiz zaman karşımızdaki kişi hangi adamdan söz ettiğimizi anlayamaz. Ancak, "*the man who is standing at the corner*" (*köşede duran adam*) ifadesinde "*the man*" artık belli bir kişi durumuna geçmiştir.

Non-defining relative clause, zaten tanımlanmış bir isimden sonra gelir. "*My father*" dediğimiz zaman, karşımızdaki kişi kimden söz edeceğimizi zaten anlamış durumdadır. Eğer biz bu ismi bir daha tanımlıyorsak bu **non-defining relative clause**'dur. Yani o isim hakkında fazladan bilgi veren bir cümleciktir: "*my father, who lives in Germany...*" (*Almanya'da oturan babam,...*)

The man **who will come to see you tomorrow** wants to do business with you.
(*Defining*)
(*Yarın seni görmeye gelecek olan adam seninle iş yapmak istiyor.*)

Mr. Jones, **who will come to see you tomorrow**, wants to do business with you.
(*Non-defining*)
(*Yarın seni görmeye gelecek olan Mr. Jones seninle iş yapmak istiyor.*)

8-1 DEFINING RELATIVE CLAUSES

8-2 RELATIVE PRONOUNS AS SUBJECT OF THE CLAUSE

Tanımlayacağımız isim, tanımlayan cümlede özne durumundaysa, onun yerine kullanabileceğimiz sözcükler **who**, **that** ve **which**'dir. **Who**, sadece insanlar için, **which** bütün cansız varlıklar ve hayvanlar için, **that** ise hepsi için kullanılabilir.

I congratulated the student. **She** got the highest mark.

I congratulated the student **who** got the highest mark.
that got the highest mark.

Can you repair the chair? **It** is in the study room.

Can you repair the chair **which** is in the study room?
that is in the study room?

"*Crowd, audience, class*" gibi grup isimleri, insanlardan oluşmalarına rağmen, eğer kurumu kastediyorsak, tekil bir fiille **that** ya da **which** kullanmayı gerektirir. Ancak bu kurumu oluşturan bireyleri kastediyorsak, çoğul bir fiille **who** kullanılır ki bu kullanım *defining relative clause* için pek yaygın değildir.

A staff is inevitably inefficient. **It** is not well-trained.
A staff **which/that** is not well-trained is inevitably inefficient.

The staff are calling for a strike. **They** are dissatisfied with their conditions.
The staff, **who** are dissatisfied with their conditions, are calling for a strike.

Relative clause tanımladığı isimden sonra gelir. Bu nedenle, tanımlayacağımız isim temel cümlemin öznesi ise, relative clause özne ile yüklem arasında yer alır.

The student is happy. **She** got the highest mark on the test.

The student **who got the highest mark on the test** is happy.
that got the highest mark on the test

The chair is broken. **It** is in the study room.

The chair **which is in the study room** is broken.
that is in the study room

Bazen tanımladığımız isme ait başka sözcükler olabilir. Bu durumda relative clause, bu sözcüklerden sonra gelir.

There is someone at the door. He wants to see you.
There is **someone** at the door **who** wants to see you.
(*Kapıda sizinle görüşmek isteyen biri var.*)

Who, **that** ve **which**'den sonra gelen fiilin tekil ya da çoğul olması tanımladığı isme bağlıdır. Eğer isim tekil ya da sayılamaz ise tekil bir fiil; çoğul bir isim ise çoğul bir fiil kullanılır.

The person who lives next door **is** an engineer.
The people who live next door **are** very friendly.
The plate which is on the counter **is** dirty.
The plates which are on the counter **are** dirty.
The milk which is in the bottle **is** for the baby.

Relative clause ile temel cümlenin tense'i farklı zamanlara ait olabilir.

The man who **was run over** by a truck yesterday **is** in the intensive care unit now.
I don't think the chair which **was broken** yesterday **can be repaired**.

Ancak, bazı durumlarda, tense uyuşması gerekebilir. Örneğin "I congratulated the student" ifadesini "who gets the highest mark" biçiminde tamamlayamayız. Çünkü "kutladım" diyebilmemiz için tanımladığımız ismin bir şey yapmış olması gerekir. Yani o da **past time**'a aittir.

I **congratulated** the student who **got** the highest mark.
I **helped** the woman who **had** difficulty carrying the heavy shopping bags.

They **will give** a prize to the person who **wins** the competition.
They **gave** a prize to the person who **won** the competition.

EXERCISE 1: Combine the two sentences using the second sentence as a *relative clause*.

Example: I can't find the book. It is about pollution.
I can't find the book which is about pollution.

1. I want to see the person. He deals with customer complaints.
.....
2. I can't think of a remedy. It will soothe your nerves.

8. Why did you buy a car? It is older than your previous one.
.....?

STIRRING THE PETROL

My grandmother, who had always lived on a farm which is in the middle of nowhere, had never been in a car. The first time I managed to persuade her to take a trip in mine, the poor woman was absolutely terrified.

After watching me change gears for a while, she said, "Listen, you just keep your hands on the wheel and forget about that stick - I can stir the petrol for you while you drive."

8-17 USING "WHICH" TO MODIFY A WHOLE SENTENCE

Bazen bir relative clause tek bir sözcüğü değil de bütün bir cümleyi tanımlayabilir. Bu durumda relative sözcüğü olarak sadece **which** kullanılır. Relative clause temel cümlelerin sonuna eklenir ve bir virgülle cümleden ayrılır.

She got a rather low grade on the test. **That** surprised me.
She got a rather low grade on the test, **which** surprised me.
(Testten çok düşük bir not aldı ki bu da beni şaşırttı.)

It's impossible for us to catch the train. **This** is too bad.
It's impossible for us to catch the train, **which** is too bad.
(Trene yetişmemiz imkansız ki bu da çok kötü oldu.)

Bu örneklerde **that** ve **this**, birinci cümlelerin yerine kullanılmıştır. Birinci cümlelerin yerine kullandığımız **this** ya da **that**, bazen ikinci cümlelerin ortalarında yer alabilir. Bunu relative clause'a çevirirken **which** virgülden hemen sonra gelmek durumundadır.

They invited me to their wedding. I appreciated **that** very much.
They invited me to their wedding, **which** I appreciated very much.
(Beni düğünlerine davet ettiler ki bu da çok hoşuma gitti.)

Bu yapıyla ifade ettiğimiz cümleleri genellikle başka biçimlerde de ifade edebiliriz.

He helped me, **which** was kind of him. (=It was kind of him to help me.)
They lent me a large sum. **That** was generous of them.

8-18 RELATIVE CLAUSE, NOUN CLAUSE OR ADVERBIAL CLAUSE

Relative clause'larda kullandığımız **that**, **which**, **who**, **when**, **where** gibi sözcükleri *noun clause* ve *adverb clause* ile de kullanabiliriz. Aradaki farkı şu örneklerle inceleyelim.

I don't know the city where he lives.
(noun) (relative clause)

I don't know where he lives.
(verb) (noun clause)

Örneklerde de gördüğümüz gibi, **relative clause** daima bir isimden sonra, **noun clause** ise bir fiilden sonra gelir. Örnekteki relative clause'u başka biçimlerde de ifade edebiliriz.

I don't know **the city** **where** he lives.
that he lives in.
which he lives in.
Ø he lives in.
in which he lives.

Noun clause'u bir tek biçimde ifade edebiliriz.

8-20 CLEFT SENTENCES

a) Cleft sentence Türkçe'ye "bölünmüş cümle" biçiminde çevrilebilir. İngilizce'de cleft sentence, basit ya da düz bir cümlenin bir bölümünü ya da bir ögesini vurgulamak için, cümleyi "clause" içerecek biçimde yeniden ifade etmektir. Bu cümle yapısında genellikle cümleye "it" ile başlanır ve devamında bir relative clause kullanılır.

Vurgulamak istediğimiz öge insan ise, "It is/was someone who/that"; insan dışında bir varlık ise "It is/was something that" kalıbı kullanılır.

FRANZ KAFKA

The credit for making Franz Kafka internationally famous as a writer of visionary and imaginative fiction belongs to his friend Max Brod, (1) also a novelist himself. In Kafka's will, Brod was asked to burn all manuscripts (2) hadn't yet been published and to refrain from republishing those (3) already in print. Brod, (4) didn't comply with his friend's will, instead edited the manuscripts and had them published.

Kafka was born into a Jewish middle-class family in Prague, Bohemia, (5) now in the Czech Republic, on July 3, 1883. He attended the University of Prague, (6) he received his doctorate in 1906, after (7) he spent a short time as a legal apprentice. He then went to work for an insurance company, (8) the long hours of work prevented him from writing. Thus, he took a less demanding job with another insurance business, (9) he remained until 1922, (10) he was forced to retire because of ill health. Soon Kafka, (11) health had seriously deteriorated, went into a tuberculosis sanatorium in Kierling, Austria, (12) he died on June 3, 1924.

Kafka was in many ways a solitary figure, (13) isolated in his own mind from any true community of friendship and (14) alienated from his own Jewish heritage. This inner turmoil, (15) was expressed in his continuously popular writings, promoted Kafka into a symbol of the anxiety and alienation (16) has pervaded much of 20th-century society.

His total work, only a fraction of (17) was published in his lifetime, includes sections from "Description of a Struggle", (18) published in German in 1909, a chapter from his novel "Amerika" (1913), and two stories: "Metamorphosis" (1915) and "In the Penal Colony" (1919). "The Trial" and "The Castle", (19) were published after his death, are regarded as his major novels.

Just beyond its 70-foot walls lay the grove of Daphne, (7) filled with magnificent temples (8) attracted pilgrims from many parts of the world. Antioch, (9) the word "Christian" was first used, attracted the reforming spirit of the Apostles even after it had passed under Roman rule. There Barnabas and Paul - and perhaps Peter - are said to have sown the seed (10) eventually converted half the population to Christianity. The most famous of the saints of the region was Simeon Stylites, (11) spent 30 years doing penance on top of a high pillar (12) was located near Antioch.

Antioch, (13) suffered from many severe earthquakes, was sacked by the Persian king Chosroes I in AD 538 and never recovered its former glory. It was taken from the Seljuk Turks by the Crusaders after a nine-month siege in 1098, and for nearly two centuries, it remained a Christian principality. Then it was conquered by the Muslims again, in 1268, after great fighting (14) caused much destruction and slaughter. This last blow destroyed ancient Antioch, and in modern Antakya, (15) little remains of the old city, a few ruins of great aqueducts and parts of the walls can be seen.

The book, (2) inspired one of the most popular films in motion-picture history, won the Pulitzer prize. In 1922, (6) the year she took up journalism, she started to work as a writer for *The Atlanta Journal*, but in 1926, an ankle injury (7) kept her housebound for an extended time forced her early retirement.

It was while recovering from the injury that Mitchell began the novel "Gone with the Wind", (8) a story of the American Civil War and the Reconstruction period (9) told from a Southern point of view. Mitchell, (10) took ten years to write the saga, carefully crafted her hero and heroine, Rhett Butler and Scarlett O'Hara. The book, (11) published in June 1936, sold a million copies in the first six months (12) followed the publication. By 1939 United States sales had reached 2 million, and by 1949 the book had been distributed in forty countries, with total sales of 8 million copies. Motion-picture rights were sold for \$50,000, and the public eagerly followed the producer's search for the perfect actress to play Scarlett O'Hara, for (13) Vivien Leigh was eventually selected. The film, (14) won ten Academy awards in 1940, held the record for gross earnings for more than 20 years. 9-18 REFLEXIVE PRONOUNS

Singular	Plural
<i>I myself</i> <i>you yourself</i> <i>he himself</i> <i>she herself</i> <i>it itself</i>	<i>We ourselves</i> <i>You yourselves</i> <i>They ... themselves</i>
<i>indefinite pronoun</i>	<i>one oneself</i>

- a) Bir yüklemın öznesi ile nesnesi aynı ise, yani eylemi yapanla, eylemden etkilenen kişi aynı ise **reflexive pronoun** kullanılır. Tekil **you** için **yourself**, çoğul **you** için **yourselves** kullanıldığına dikkat ediniz.

Janette cut **the bread**. (*Janette*, subject; *the bread*, object)
Janette cut **herself**. (*Janette*, subject; *herself*, object; the same)

We enjoyed **ourselves** very much at the party.
 I **blamed myself** for the fight.

- b) **Reflexive pronoun** bir preposition'dan sonra gelebilir.

Look at that woman over there.
 She is talking **to herself**. (*Kendi kendine konuşuyor.*)
 Take good care **of yourselves**. (*Kendinize iyi bakın.*)

Ancak preposition, öznenin eylemden etkilenmesini değil de yer ifade ediyorsa, **object pronoun** (*me, you, him, etc.*) kullanılır.

She must take plenty of money **with her**.
We'll keep it as a secret **between us**.
I don't think **he** has enough money **on him**.

c) **Feel** ve **relax** fiillerini Türkçe'ye *kendini (iyi) hissetmek, kendini rahatlatmak* biçiminde çeviriyoruz. Ancak bu fiiller İngilizce'de genellikle **reflexive pronoun** ile kullanılmazlar.

(İlaç aldıktan sonra kendimi daha iyi hissettim.)

Wash, dress ve **shave** (*yıkanmak, giyinmek, traş olmak*) fiilleri normalde **reflexive pronoun** ile kullanılmaz. Ancak **dry** (*kurulanmak*) **reflexive pronoun** ile kullanılır.

d) **Reflexive pronoun**, özneyi ya da nesneyi vurgulamak için de kullanılır. Özneyi vurgularken, reflexive pronoun öznenin hemen sonra ya da fiilden sonra (*eğer varsa nesneden sonra*) gelebilir.

She herself told me the news. = **She** told me the news **herself**.
(Haberini bana kendisi verdi.)

Jack **himself** came. = Jack came **himself**.
(Jack kendisi geldi.)

Reflexive pronoun nesneyi vurgularken nesneden hemen sonra gelir.

I spoke to **Jack himself**. (Jack'in kendisiyle konuştum.)
She demanded to see **the manageress herself**.
(Yöneticinin kendisini görmek istedi.)

Nesneyi ya da özneyi vurgularken **reflexive pronoun**'un yerine dikkat ediniz. Çünkü anlam değişikliğine yol açar. Şu örnekleri inceleyelim.

I spoke to **Jack himself**. (Jack'in kendisiyle konuştum.)
I myself spoke to Jack. (Jack ile kendim konuştum.)

Yukarıdaki cümlelerde "**myself**" ve "**himself**" yerine "**in person**" kullanmak da mümkündür. Ancak "**in person**" kullanıldığında anlam o kadar net olmayabilir. Çünkü İngilizce cümledeki "**in person**", "*Jack'le bizzat ben konuştum./Bizzat Jack'le konuştum.*" anlamlarını net olarak vermemektedir. Yine de bu kullanım İngilizce'de çok yaygındır.

I spoke to Jack **himself/in person**.
She demanded to see the manageress **herself/in person**.

e) **By myself, by herself, etc.** "*kendi başına, tek başına, yardımsız*" anlamını verir. Şu iki cümle arasındaki ayrıma dikkat ediniz:

(Evi kendim temizledim.) (Not someone else; bir başkası değil.)

I cleaned the house **by myself**.
(Evi tek başıma/yalnız temizledim.) (I cleaned the house alone/without help.)

UNIT 10

Conjunctions and Transitions

INTRODUCTION

Conjunctions (*bağlaçlar*), aynı gramer yapıya sahip (*iki isim, iki sıfat, iki zarf gibi*) sözcük ya da sözcük öbeklerini ve cümleleri bağlayan sözcüklerdir. Bunlar **so**, **and**, **once** gibi tek bir sözcükten oluşabilir ya da **in order that**, **so that**, **as long as** gibi bir sözcük öbeği de olabilirler.

Although she studied hard, she couldn't pass the exam.

Transitions ya da **connectors** diye isimlendirilen **however**, **therefore**, **nevertheless** gibi sözcükler ise sadece iki cümleyi bağlayan, bir düşünceden diğer bir düşünceye geçişi sağlayan cümle bağlaçlarıdır.

She studied hard; **nevertheless**, she couldn't pass the exam.

Bağlaçları üç grupta inceleyebiliriz:

1. Coordinating conjunctions
2. Correlative conjunctions
3. Subordinating conjunctions

10-1 COORDINATING CONJUNCTIONS

Bu bağlaçlar şunlardır: **and**, **or**, **but**, **nor**, **so**, **for**, **yet**

a) **AND, OR, BUT, YET**

Bu bağlaçlar sözcükleri ya da cümleleri bağlamak için kullanılır.

"**And**" aynı doğrultuda anlama sahip sözcükleri birleştirir (*her ikisi de olumlu ya da her ikisi de olumsuz*): *beautiful and clever, sunny and warm, crowded and noisy, etc.*

"**But**" ve "**yet**" "*fakat, ama*" anlamına gelir ve zıtlık vurgulayan, çelişen sözcükleri birleştirir: *beautiful but/yet stupid, cheap but/yet good, warm but/yet windy, etc.*

"Or" seçenek sunarken "ya da" anlamında kullanılır: *sooner or later, my parents or my sister, etc.*

noun + and/but/or + noun

Bu kullanımda **but**' tan sonra gelen bölüm, özellikle uzun bir sözcük öbeği ise, genellikle virgülle cümlelerin devamından ayrılır.

The dog, **but not** the cat, is known to be faithful.
The president, **but not** the woman he married, is quite a conservative person.
Cats **and** dogs don't get along well.
A toy **or** a game makes a good present for children.

adjective/adverb + and/but/yet/or + adjective/adverb

He drove the car slowly **and** carefully.
He drove the car fast **but/yet** carefully.
He is sleepy **or** bored.

infinitive/gerund + and/but/or + infinitive/gerund

I'd like to watch TV **or** (to) listen to some music.
I've decided to quit school **and** (to) find a job.
I like walking **but not** running.

verb + and/but/yet/or + verb

Aynı özne birden fazla eylem gerçekleştiriyorsa, bu eylemleri, özneyi yinelemeden, bağlaçları kullanarak birleştirebiliriz. Eğer bağlaçtan sonraki eylemin yardımcı fiili ilk eyleminkiyle aynı ise yardımcı fiili tekrar kullanmayabiliriz. Ancak yardımcı fiil değişiyorsa kullanmak zorundayız.

She opened her purse, took out some change **and** paid for the ticket.
She has a lot of qualifications **and** is very talented.
I looked everywhere for my glasses **but** couldn't find them.
She knows a lot about the job **but** isn't very keen to work.
She will stay in a dormitory **or** rent a house with friends.

b) **And, but, yet (fakat), or, nor, so (bu yüzden)** ve **for (çünkü)** iki bağımsız cümleyi bağlayabilir.

İki tam cümleyi araya virgül koyarak arka arkaya ifade etmek mümkün değildir. Ancak birinci cümleyi noktalarak ikinci cümleye geçebiliriz ya da arada bir bağlaç kullanırız. Bu bağlaçlar ikinci cümlelerin başına gelir ve genellikle kendilerinden önce virgül kullanılır.

And, but ve **or** büyük harfle cümle başlatabilir. Bu durumda yine kendinden önceki cümleyle bağlantılıdır. Ancak bu kullanım formal English'de pek tercih edilmemektedir.

The children were playing. The parents were chatting.
The children were playing **and** the parents were chatting.
The children were playing, **and** the parents were chatting.
The children were playing. **And** the parents were chatting.

Yet, so ve **for** bağlaç olarak kullanıldıklarında kendilerinden önce virgül gelir.

She didn't feel well, **so** she didn't go to work.
(Kendini iyi hissetmiyordu, bu yüzden işe gitmedi.)

She didn't go to work, **for** she didn't feel well.
(İşe gitmedi çünkü kendini iyi hissetmiyordu.)

She didn't feel well, **yet** she still went to work.
(Kendini iyi hissetmiyordu, ama yine de işe gitti.)

Nor bu şekilde bağlaç olarak kullanıldığında birinci cümle olumsuz olur ya da *refuse*, *deny* gibi olumsuz anlama sahip bir fiil içerir. **Nor**'un bağı bulunduğu ikinci cümle ise devrik olur. Cümleyi devrik yapmak için **yardımcı fiil + özne + yüklem** dizimi kullanılır.

He **doesn't like** meat, **nor does he like** fish.
(Eti sevmediği gibi, balığı da sevmez.)

She herself **didn't watch** the film, **nor did she let** us watch it.
(Filmi kendisi izlemediği gibi, bizim izlememize de izin vermedi.)

He **refuses** to take exercise, **nor does he try** to eat less.
(Egzersiz yapmayı reddettiği gibi, az yemeye de çalışmıyor.)

10-2 CORRELATIVE CONJUNCTIONS

Bu gruptaki bağlaçlar ikili olarak kullanılır: **both... and**, **either...or**, **neither...nor**, **not only...but also**.

Bu bağlaçlar iki özne, nesne, sıfat, zarf ve fiili, sözcük öbeğini (*phrase*) ya da cümlecığı (*clause*) bağlayabilir.

İki ayrı cümleyi bağlaçlı tek bir cümleye dönüştürürken dikkat etmemiz gereken noktalar şunlardır:

- a) Önce cümlelerin ortak ve farklı olan öğeleri belirlenir. Farklı olan öğelerden birinin başına bağlacın birinci bölümü, diğerinin başına ikinci bölümü getirilir.

Ali will come with us. **Ayşe** will come with us.

Yukarıdaki örnekte farklı olan öğeler öznelerdir. Bu durumda kullanacağımız bağlaç bu iki sözcüğü birleştirecektir.

Both Ali **and** Ayşe will come with us.
Not only Ali **but also** Ayşe will come with us.

She is **beautiful**. She is **clever**.
She is **both** beautiful **and** clever.

She isn't **tall**. She isn't **short**.
She is **neither** tall **nor** short.

- b) Bağlaçla elde ettiğimiz yapının cümle içindeki yeri bağladığı öğenin yeriyle aynıdır. Yani iki özneyi bağladıysa cümle başında, iki nesneyi bağladıysa yüklemden sonra yer alır.

Ali will help me, or **Ayşe** will help me. (*subject + subject*)
Either Ali **or** Ayşe will help me.

I didn't buy **a shirt**. I didn't buy **a skirt**. (*object + object*)
I bought **neither** a shirt **nor** a skirt.

The film was **too long**. The film was **boring**. (*adj. + adj.*)
The film was **both** too long **and** boring.

She wants to learn **whether the job is well-paid**.
She wants to learn **whether she will have any opportunity for promotion**.
(*noun clause + noun clause*)
She wants to learn **not only** whether the job is well-paid **but also** whether she will have any opportunity for promotion.

- c) **Both ... and** iki özneyi bağlıyorsa fiil daima çoğuldur. Diğer bağlaçlarla yükleme yakın olan özne, yani ikinci özne temel alınır. Eğer ikinci özne tekilse tekil bir fiil, çoğulsa çoğul bir fiil kullanılır.

Both my parents and my sister **are** coming tomorrow.
Both Ali and Ayşe **were** absent from class yesterday.

Not only my parents but also **my sister** is coming tomorrow.
Not only my sister but also **my parents are** coming tomorrow.
Not only Ali but also **Ayşe was** absent from class yesterday.

Neither the manager nor **my colleagues approve** of the plan.
Neither my colleagues nor **the manager approves** of the plan.

Either the teacher or **the students have** made a mistake.
Either the students or **the teacher has** made a mistake.

- d) **Both ... and** Türkçe'ye **hem ... hem de** biçiminde çevrilir ve olumlu cümlelerde kullanılır.

Both the driver **and** the passengers were badly injured.
(*Hem sürücü hem de yolcular ağır yaralandı.*)

Yesterday I **both** visited an art exhibition **and** went to the cinema.
(*Dün hem bir resim sergisini gezdim hem de sinemaya gittim.*)

Not only ... but also da olumlu cümlelerle kullanılır. **Both ... and** den daha vurgulu bir ifadedir.

Not only the driver **but also** the passengers were injured.
(*Sadece sürücü değil yolcular da yaralandı.*)

I **not only** visited an art exhibition **but also** went to the cinema.
(*Sadece bir resim sergisini gezmekle kalmadım, sinemaya da gittim.*)

Neither ... nor Türkçe'ye **ne ... ne de** biçiminde çevrilir. Kendisi olumsuz bir yapı olduğu için olumlu fiille kullanılır, ancak cümlenin anlamı olumsuzdur.

Ali doesn't like fish. Ayşe doesn't like fish.
Neither Ali **nor** Ayşe likes fish. (*Ne Ali ne de Ayşe balığı sever.*)

She didn't study. She didn't watch TV.
She **neither** studied **nor** watched TV. (*Ne ders çalıştı ne de televizyon izledi.*)

Either ... or, ya ...ya da anlamındadır. Genellikle olumlu cümlede kullanılır. Olumsuz cümlede kullanıldığı zaman **neither ... nor** ile aynı anlamı verir, ama bu kullanım çok yaygın değildir. Olumsuz cümlede **either** kullanmadan sadece "or" kullanmak daha yaygındır.

Either my sister **or** my friend must have taken my book.
(*Kitabımı ya kardeşim ya da arkadaşım almış olmalı.*)

She has **either** fallen asleep **or** gone somewhere.
(*Ya uyuyakaldı ya da bir yere gitti.*)

She has been paralyzed since that shocking incident.
She can't (**either**) speak **or** walk. (*She can neither speak nor walk.*)
(*Ne konuşabiliyor ne de yürüyebiliyor.*)

- e) **Not only ... but also** iki cümleyi bağlıyorsa, **not only**'nin bağı bulunduğu cümle devrik, ikinci cümle düz olur.

The hotel was marvellous. The hotel was cheap.
The hotel was **not only** marvellous **but also** cheap.
Not only was the hotel marvellous, **but** it was **also** cheap.

Not only ... but also iki cümleyi bağlarken, ikinci cümlede kendi öznesi ve yüklemi olmak zorundadır. Bu durumda **also** cümle içindeki normal yerinde kullanılır. **Not only ... but also** kalıbı **also** kaldırılarak da kullanılabilir.

He shouted at the child. He also hit him.
He **not only** shouted at the child **but also** hit him.

Not only did he shout at the child, **but** he (also) hit him.
(Çocuğa sadece bağırmakla kalmadı, onu dövdü de.)

Pollution does harm to people today. It also endangers the survival of human beings in the future.
Pollution **not only does** harm to people today **but also endangers** the survival of human beings in the future.
Not only does pollution **do** harm to people today, **but** it (also) endangers the survival of human beings in the future.

NOTE

Not only ... but also iki özneyi bağlarken de cümlelerin başında yer alır. Ancak bu durumda cümle devrik olmaz.

Not only humans but also other living things are gravely affected by pollution.

10-3 SUBORDINATING CONJUNCTIONS

Bir yan cümleyi temel cümleye bağlayan *when, before, because, although* gibi sözcükler **subordinating conjunctions** diye isimlendirilir. Bağlacın bulunduğu cümle (*adverbial clause*) temel cümleden önce ya da sonra gelebilir. *Adverbial clause* temel cümlede önünde yer alırsa iki cümle arasında virgül kullanılır. Temel cümleden sonra geliyorsa genellikle virgül kullanılmaz.

NOTES:

- a) Zaman bağlaçları, eylemler arasında zaman açısından ilişki kurduğu için iki cümle arasında tense uyumu olmak zorundadır. (Yukarıda verilen örnekleri dikkatle inceleyiniz.)
- b) Zaman bağlacının bulunduğu cümlede (*adverbial clause*) **Future tense** (*be going to, will*) kullanılmaz. Eylem gelecekte yapılacak bile olsa, **Simple Present tense** (*do/does*) ya da eylemin gelecekte tamamlanmış olacağını vurgulamak için **Present Perfect tense** (*have/has done*) kullanılır.

Bir zaman bağlacı olarak **when** için de bu kural geçerlidir. Ancak **when** bir noun clause ya da relative clause ile kullanıldığında, bağlı bulunduğu cümlelerin tense'i **Future tense** olabilir. Ya da temel cümle ile tense uyumu olmayabilir.

When he *came*, I *was studying*. (*adverbial clause of time*)
When he *comes*, we *will study* together.

I *don't know* when he *will come*. (*noun clause*)
I *don't know* when he *came*.

Do you *remember* the day when the meeting *will be held*? (*relative clause*)
Do you *remember* the day when the meeting *was held*? (*relative clause*)

- c) **Now (that)** past tense'lerle kullanılmaz. **Now (that)** in bağlı bulunduğu cümlede **Simple Present** ya da **Present Perfect tense** kullanılır.

Now that you *are* eighteen, you can get a driving licence.
Now that we *have finished* our work, we can drink coffee.

- d) **After, before, when, as soon as** ve **as** ile "**just**" kullanarak eylemler arasındaki ilişkiye tezlik kazandırabiliriz.

Just as we sat down to eat, the phone rang.
(*Tam yemeğe oturduk ki telefon çaldı.*)

Just after you left the office, a client of yours came.
(*Sen bürodan çıktıktan hemen sonra bir müşterin geldi.*)

Just before he came, we had eaten our dinner.
(*O gelmeden hemen önce biz yemeğimizi yemiştik.*)

Just when I got to the office, they were signing the contract.
(*Tam ben büroya gittiğimde kontratı imzalıyorlardı.*)

- e) **Hardly/scarcely/barely ... when** ile **no sooner ... than** kalıpları genellikle devrik cümle yapısıyla kullanılır. Bu kalıplar iki eylem arasında geçen sürenin çok kısa olduğunu vurgular ve **as soon as** ile aynı anlamı ifade ederler.

She had **hardly** gone to bed **when** the phone rang.
Hardly had she gone to bed **when** the phone rang.

She had **no sooner** gone to bed **than** the phone rang.
No sooner had she gone to bed **than** the phone rang.
(Henüz yatmıştı ki telefon çaldı.)

- f) **After** ile **afterwards** arasındaki ayrıma dikkat ediniz. **After** bağlaç olarak kendisinden sonra cümle; preposition olarak da isim alır: *after the class, after the meeting, etc.* **Afterwards** bir zarfır ve "later, after that" anlamını verir.

After she came, we went out.
We went out **after** she came. (O geldikten sonra dışarı çıktık.)

She came. **Afterwards**, we went out.
She came. We went out **afterwards**. (O geldi. Ondan sonra dışarı çıktık.)

LUGGAGE WITHOUT THE OWNER

Mark arrived at the airport just as his plane was scheduled to take off. The ticket agent checked his luggage and assured him he could make the flight if he hurried.

Mark ran to the gate, where he found an attendant closing the door to the ramp. Mark pleaded with the woman to let him board, but she explained that the airline was promoting its "On Time" schedule and she couldn't allow any late passengers.

Mark watched sullenly as the plane began to back up. After moving about a hundred yards, it stopped. A small vehicle approached, and the plane's side hatch opened. Mark looked on in disbelief as his luggage was loaded on board.

He was delighted that someone remembered the Belgian's name – until he looked more closely.

There, in the blank, was written: "terrified."

10-5 ADVERBIAL CLAUSES SHOWING CAUSE AND EFFECT RELATIONSHIPS

Neden-sonuç ilişkisi bildiren bağlaçlar şunlardır:

<i>because</i>	<i>seeing that</i>
<i>as</i>	<i>as/so long as</i>
<i>since</i>	<i>inasmuch as</i>

Bu bağlaçlar nedeni ifade eden cümlelerin başında kullanılır. Temel cümle ise sonucu ifade eder. Adverbial clause temel cümleden önce ya da sonra gelebilir.

Cause: I was ill. **Effect:** I didn't go to work.

Because I was ill, I didn't go to work.
I didn't go to work **because** I was ill.

Since she wants to lose weight quickly, she is on a strict diet.
(Çabuk kilo vermek istediği için sıkı bir perhiz yapıyor.)

As/so long as it is raining heavily, I think we can't go out for a walk.

As it was very cold in the garden, we decided to eat inside the restaurant.

Seeing that the traffic was rather heavy, we decided to take the back roads to work.

Seeing as you've got lots of money, you can pay for the drinks.

NOTES:

- a) Neden-sonuç ilişkisi bildiren cümlelerde temel cümle ile yan cümle arasında tense uyumu zorunlu değildir. Ancak yine de eylemlerin zaman bakımından ilişkisine dikkat etmek gerekir. Örneğin, "Because the grocery bag was heavy" ifadesini "I can't carry it." biçiminde tamamlayamayız. Çünkü çantanın ağır olması geçmiş zamana aitse, onu taşıyamama eylemi de geçmiş zamanla ifade edilmelidir. Bu nedenle, bu cümle şu biçimde tamamlanabilir:

Because the grocery bag **was** heavy, I **couldn't carry** it.

Şimdi şu örnekleri inceleyelim:

Because he **drank** too much **last night**, he **feels** terrible **now**.
Because he **drank** too much **last night**, I **drove** the car back from the party.

Yukarıdaki cümlelerden birincisinde "drink" eylemi geçmişte gerçekleşmiştir. "Feel" eylemi ise konuşmanın geçtiği anı ifade etmektedir. Bu yüzden "drink" Past Tense ile "feel" Present Tense ile ifade edilmiştir. İkinci cümlede ise "drink" eylemi ile onu takip eden "drive" aynı zamana ait eylemlerdir. Bu yüzden her ikisi de Past Tense ile ifade edilmiştir.

- b) Neden-sonuç ilişkisi, bağlaçların yanı sıra başka yapılarla da ifade edilebilir: **because of, on account of, thanks to, owing to, due to**. Bu yapılar kendilerinden sonra isim, zamir ya da isim-fiil (*gerund*) alır.

Because Since As As/so long as + a clause, main clause. Inasmuch as Seeing that, Seeing as
Because of On account of + noun/pronoun/gerund, main clause. Thanks to Owing to Due to

Cause: She was ill. **Effect:** She couldn't go to school.

Because she was ill, she couldn't go to school.
(*Hasta olduğu için okula gidemedi.*)

Because of her illness, she couldn't go to school.
(*Hastalığı yüzünden okula gidemedi.*)

I was late for work yesterday **because** the traffic was heavy.
I was late for work yesterday **because of** the heavy traffic.

As prices are rising dramatically, it's difficult to make ends meet.
Owing to dramatically rising prices, it's difficult to make ends meet.

Since employment is limited in rural areas, many people are moving to big cities.

Due to the limited employment in rural areas, many people are moving to big cities.

Bazen isim kalabalık bir sözcük öbeğinden oluşabilir. Bu durumda isim ile cümle arasındaki ayrımı yaparken dikkatli olunuz. İngilizce'de **Subject + verb** diziminin bir cümle oluşturduğunu anımsayınız.

Because she bought me a very expensive present for my birthday, I now feel obliged to buy her an expensive one too. (*Subject + verb, a clause*)

Because of the very expensive present she bought me for my birthday, I now feel obliged to buy her an expensive one too. (*noun + relative clause*)
(*"doğum günümde bana aldığı çok pahalı hediye"* yine isimdir.)

Because there has been construction work on the highway going on for some time now, we have been taking another road to work.

On account of the construction work on the highway going on for some time now, we have been taking another road to work.

- c) **Because of, on account of, due to ve owing to** yapılarından sonra **the fact that** kullanırsak devamında isim değil, cümle gelir.

Due to her negligence of the children, they became disobedient.
Due to the fact that she neglected the children, they became disobedient.

Owing to her not studying regularly, she failed the exam.
Owing to the fact that she didn't study regularly, she failed the exam.

- d) **Therefore, consequently ve as a result,** neden-sonuç ilişkisi bildiren *transition*'lardır. *Transition*, bir düşünceden başka bir düşünceye geçişi sağlayan sözcük ya da sözcük grubudur. *Transition* ikinci cümlelerin, yani sonuç cümlesinin başına gelir ve iki cümle yer değiştiremez. Birinci cümleden sonra nokta yerine noktalı virgül koyup ikinci cümleye geçebiliriz. Bu durumda cümleye küçük harfle başlanır.

Cause: It's raining heavily.	Effect: We can't go out.
Because it's raining heavily, we can't go out. (<i>conjunction</i>)	
We can't go out because it's raining heavily.	
It's raining heavily.	Therefore, we can't go out. (<i>transition</i>)
	Consequently, we can't go out.
	As a result, we can't go out.

NOTE: Yukarıdaki tablodaki cümleler aynı anlamı ifade etmektedir. Ancak kullanım farkları vardır.

Bir *transition*, cümle içinde üç yerde bulunabilir: cümle başında, öznenin sonra (yardımcı fiil varsa, yardımcı fiille yüklem arasında) ve cümle sonunda. Genellikle *transition* virgülle cümle başından ayrılır.

It's raining heavily, **so** we can't go out. (*conjunction*)

She didn't feel well. **Therefore**, she left the office early. (*transition*)

She didn't feel well. She, **therefore**, left the office early.

She didn't feel well. She left the office early, **therefore**.

Because, as, since gibi bağlaçlar bir yan cümleyi temel cümleye bağlayan sözcüklerdir. Yan cümle temel cümleden önce ya da sonra gelebilir.

Therefore, consequently ve **as a result** "bu yüzden, bu nedenle" anlamını veren geçiş sözcükleridir ve ikinci cümlede kullanılırlar.

So, iki bağımsız cümleyi birleştiren bir bağlaçtır ve o da *therefore vb.* gibi sonuç cümlesinde kullanılır. Ancak **so** cümle içinde *transition*'lar gibi yer değiştiremez ve genellikle kendinden önce bir virgül gelir.

e) **As a result of** ve **as a consequence of**, "because of" anlamındadır ve kendilerinden sonra **noun/pronoun** olarak nedeni ifade eden cümlede kullanılırlar.

He came late. **Consequently**, we missed the bus.

We missed the bus **as a consequence of** his coming late.

(Onun geç gelmesi yüzünden otobüsü kaçırdık.)

She was busy. **As a result**, she couldn't help me.

As a result of her being busy, she couldn't help me.

f) **So ... that** ve **such ... that** bağlaçları da neden-sonuç ilişkisi ifade eder.

Cause: It was too windy.

Effect: We couldn't go sailing.

It was **so** windy **that** we couldn't go sailing.

Cause: It was a wonderful film. **Effect:** I watched it again.

It was **such a** wonderful film **that** I watched it again.

So ... that ve **such ... that** kalıpları yerine, özellikle Informal English'de, **so ... as** ve **such ... as** kalıpları da kullanılabilir. Bu kalıplarda anlatım daha vurguludur. Aşağıdaki cümleleri dikkatle inceleyiniz.

so + adjective/adverb + as + to infinitive

His music at last night's performance was **so emotional as to make** even his harshest critics admit to his talent.

His music at last night's performance was **so emotional that it made** even his harshest critics admit to his talent.

The garbage truck moved **so slowly as to cause** a traffic jam several kilometres long.

The garbage truck moved **so slowly that it caused** a traffic jam several kilometres long.

Her iki kalıp da (so ... that/so ... as), vurguyu artırmak için devrik cümle yapısıyla kullanılabilir.

So emotionally did he play the piano **that** even his harshest critics wept.
So emotionally did he play the piano **as to** make even his harshest critics weep.

Such ... as kalıbının vurgulu ifade biçimleri için örnekleri inceleyiniz.

It was **such a powerful** film **that** I left the cinema with tears in my eyes.
The power of the film was **such that** I left the cinema with tears in my eyes.
The power of the film was **such as to make** me leave the cinema with tears in my eyes.

Such was the power of the film **that** I left the cinema with tears in my eyes.
Such was the power of the film **as to make** me leave the cinema with tears in my eyes.

g) **For** "because" ile aynı anlamı verir ancak kullanımı daha kısıtlıdır.

For, nedeni belirten cümlenin başında kullanılır, ancak bağlı bulunduğu cümle ikinci bölümde yer alır.

He finished his meal quickly, **for** he hadn't eaten anything since the morning.

He finished his meal quickly **because** he hadn't eaten anything since the morning.
Because he hadn't eaten anything since the morning, he finished his meal quickly.

For, "not ... but" gibi başka bağlaçlarla birlikte kullanılmaz. **Because** bu şekilde kullanılabilir.

I got annoyed, **not because** he came late **but because** he didn't inform me that he was going to be late.

(Geç kaldığı için değil, geç kalacağını bana bildirmedığı için kızdım.)

Because, bir soruya yanıt olarak kullanılabilir ancak **for**, **as** ve **since** bu biçimde kullanılmaz.

- Why were you late for work?
- **Because** I missed the bus.

h) İki cümle arasında neden-sonuç ilişkisi, incelediğimiz bu bağlaç ve kalıpların dışında başka sözcük ya da yapılarla da ifade edilebilir. Aşağıdaki cümleleri dikkatle inceleyiniz.

2. Alışveriş yaparken yanımda fazla para **olması için** bankadan biraz para çektim.
3. Bankadan biraz para çektim **ki böylece** alışveriş yaparken yanımda fazla para **olacaktı**.

b) **For the purpose that, so that** ile aynı anlamı verir.

She is now attending a conversation club **for the purpose that/so that** she can practise speaking English.

Lest "for fear that, in case, so that ... not" anlamındadır ve genellikle *should* ya da *subjunctive* (bütün öznelerle fiilin yalın hali) ile kullanılır. Temel cümlelerin tense' ine uygun olarak **Simple Present** ve **Simple Past** da kullanılabilir. **Lest** Türkçe'ye olumsuz olarak çevrilir.

We all spoke in quiet voices **lest we wake/woke/should wake** the baby.
(Bebeği **uyandırmayalım diye** hepimiz alçak sesle konuştuk.)

We all spoke in quiet voices **for fear that we might wake** the baby.
(Bebeği **uyandırırız korkusuyla** hepimiz alçak sesle konuştuk.)

c) **For the purpose of** ve **for fear of** kendinden sonra *gerund* alır.

She went to her husband's office **for the purpose of seeing** him.
We all spoke in quiet voices **for fear of waking** the baby.

d) Amaç bildirmek için **to/in order to/so as to + infinitive** de kullanabiliriz.

She lay on the sofa because she wanted to rest for a while.
She lay on the sofa **so that she could rest** for a while.

She lay on the sofa **to rest** for a while.
in order to rest for a while.
so as to rest for a while.

Olumsuz cümlede **in order not to, so as not to** kullanılır.

We kept the news secret because we didn't want to upset her.
We kept the news secret **so that we wouldn't upset** her.

We kept the news secret **in order not to upset** her.
so as not to upset her.

To, in order to ve **so as to** cümlelerin başında da kullanılabilir.

To be successful, you should work harder.
In order to be successful, you should work harder.
So as to be successful, you should work harder.

- e) **So that** ile **in case** arasındaki ayrıma dikkat ediniz. **In case** in, bir eylemin gerçekleşmesi olasılığına karşı önceden hazırlanmayı ifade ettiğini daha önce görmüştük. **So that** ise bir eylemin gerçekleşmesi için yapılan hazırlığı ifade eder. Şu iki örneği karşılaştıralım:

I will take my umbrella with me **in case** it rains/should rain.
I will take my umbrella with me **so that** I don't get wet in the rain.

Birinci cümleyi Türkçe'ye "Yağmur yağarsa diye şemsiyemi yanıma alacağım." biçiminde çevirebiliriz. Yani yağmurun yağması olasılığına karşı hazırlıklı olmak istiyoruz. İkinci cümleyi ise "Yağmurda ıslanmayayım diye (ıslanmamak için) şemsiyemi yanıma alacağım." biçiminde çevirebiliriz. Buradan çıkaracağımız anlam "Yağmur yağıyor ve ben ıslanmak istemiyorum. Bu yüzden şemsiyemi yanıma alacağım." olabilir.

Ancak **so that** li cümleyi biraz değiştirerek yazarsak, **in case** li cümlemin anlamını elde edebiliriz.

I will take my umbrella with me **so that I don't get wet if it rains.**
(Yağmur yağarsa ıslanmayayım diye (ıslanmamak için) şemsiyemi yanıma alacağım.)

I want to do some shopping **in case my parents come at the weekend.**
(Hafta sonunda annemler gelirse diye biraz alışveriş yapmak istiyorum.)

I want to do some shopping **so that I will have plenty of food at home if my parents come at the weekend.**
(Hafta sonunda annemler gelirse evde bolca yiyecek olsun diye biraz alışveriş yapmak istiyorum.)

- f) Amaç bildiren **so that** ile sonuç bildiren **so** bazen karışıklık yaratabiliyor. Çünkü sonuç bildiren **so**, çok yaygın olmamakla birlikte, **so that** biçiminde de kullanılabilir. Bunların ayrımını yaparken şu noktalara dikkat etmeliyiz:

1. Sonuç bildiren **so (that)** ikinci cümlemin başında kullanılır ve genellikle kendinden önce bir virgül gelir.

She studied very little, **so (that)** she got a rather low grade.
(Çok az çalıştı, bu yüzden çok düşük bir not aldı.)

Amaç bildiren **so that** cümlemin başında da yer alabilir.

She studied very hard **so that** she could pass the exam.
So that she could pass the exam, she studied very hard.
(Sınavı geçebilmek için çok çalıştı.)

2. Amaç bildiren **so that** den sonra **Simple Past Tense** kullanılmaz. Sonuç bildiren **so that** den sonra ise **Simple Past Tense** yaygın olarak kullanılır.

They bought a large house, **so that** the children **had** their own rooms. (result)
(Büyük bir ev aldılar. Böylece çocukların kendi odaları oldu.)

They bought a large house **so that** the children **would have** their own rooms.
(purpose)
(Çocukların kendi odaları olsun diye büyük bir ev aldılar.)

3. *Could, couldn't, would be able to, wouldn't be able to* amaç bildiren **so that** ile çok sık kullanılır. Ancak bu bağlaçla *was/were able to* kullanılmaz. *Was/were able to*, sonuç bildiren **so (that)** ile kullanılabilir.

She studied hard, **so that** she was able to pass the exam.
(Çok çalıştı, böylece sınavı geçebildi.) (result)

She studied hard **so that** she could pass the exam.
(Sınavı geçebilmek için çok çalıştı.) (purpose)

Ancak **couldn't** her iki yapıyla da kullanılır. Bu durumda **so that** in amaç mı yoksa sonuç mu bildirdiğini parçanın bütününden ya da konuşmanın akışından anlayabiliriz.

They locked the door **so that** he couldn't go out.

Bu cümleden şu iki anlamı çıkarabiliriz:

They locked the door, **so that** he wasn't able to go out.
(Kapıyı kilitlediler, bu yüzden dışarı çıkamadı.) (result)

They locked the door **so that** he wouldn't be able to go out.
(O dışarı çıkamasın diye kapıyı kilitlediler.) (purpose)

EXERCISE 6: Combine the ideas using *so that*, expressing purpose.

Karşıtlık bildiren bağlaçlar şunlardır:

although

though

even though

while

whereas

much as

as

however + adjective/adverb

no matter + question word

Bu bağlaçlar, belirtilen bir durumdan beklenmeyen bir sonucun çıktığını ifade etmemizi sağlar.

Although I was ill, I went to work.

She took a walk **even though** it was raining heavily.

Neden-sonuç ilişkisi bildiren *because, as, since* gibi bağlaçların beklenen bir sonuç ifade ettiğini görmüştük. Karşıtlık bildiren bağlaçlar ise beklenmeyen bir sonuç ifade ederler. Şu iki örneği inceleyelim:

Because she studied hard, she passed the exam. (*expected result*)

Although she studied hard, she didn't pass the exam. (*unexpected result*)

Karşıtlık bildiren bağlaçlar, neden-sonuç ilişkisi bildiren bağlaçlarda da olduğu gibi, tense uyuşması gerektirmez. Ancak yine de iki eylemin zaman yönünden ilişkisine dikkat etmek gerekir.

Although it **was** cold yesterday, I **took** my regular walk.
(*Eylemlerin her ikisi de dün gerçekleşti.*)

Though

Even though

She doesn't want to be a musician **although** she is quite good at music.

even though

(*Müzikte çok iyi olduğu halde/olmasına rağmen, müzisyen olmak istemiyor.*)

b) **In spite of ve despite, "although" anlamını veren preposition'lardır. In spite of ve despite' dan sonra bir cümle değil, isim, zamir ya da isim-fiil gelir.**

Although/Though/Even though + a clause, main clause.

Although it was rainy, they went on a picnic.

In spite of/Despite + noun/pronoun/gerund, main clause.

f) **However, nevertheless, nonetheless**

Bu sözcükler karşıtlık bildiren geçiş sözcükleridir (*transitions*). İkinci cümlede, yani sonucu ifade eden cümlede kullanılırlar ve cümleler yer değiştiremez. **Even so, all the same** ve **notwithstanding** aynı anlamı veren diğer yapılardır.

h) Showing Direct Opposition

Tam bir karşıtlık ifade eden yapılar şunlardır:

<i>while</i>	<i>on the other hand</i>
<i>whereas</i>	<i>in contrast</i>
<i>but/yet</i>	<i>on the contrary</i>
<i>however</i>	<i>quite the contrary</i>

Bu yapılar, iki nesneyi karşılaştırırken, birinin diğerinin tam tersi olduğunu ifade etmemizi sağlar.

- Ayşe is **hardworking**. Her brother is **lazy**.
- Ayşe is hardworking, **but/yet** her brother is lazy.
- Ayşe is hardworking, **while** her brother is lazy.
- Whereas** Ayşe is hardworking, her brother is lazy.
- Ayşe is hardworking; **however**, her brother is lazy.

Whereas ve **while** bağlaçtır ve bağlı buldukları cümle birinci ya da ikinci sırada yer alabilir.

- Whereas/while** some countries are rich, others are poor.
- Some countries are rich, **whereas/while** others are poor.
- (Bazı ülkeler zengin, bazıları fakirdir.)

But/yet iki bağımsız cümleyi birleştiren bağlaçlardır. İkinci cümle başında yer alırlar.

- Some countries are rich, **but/yet** others are poor.

However ve **on the other hand**, "oysa, ise" anlamlarını veren geçiş sözcükleridir. **On the other hand** genellikle ikinci cümle öznesinden sonra kullanılır.

- Some countries are rich. **However**, others are poor.
- (Bazı ülkeler zengindir. Fakat/Oysa bazıları fakirdir.)
- Some countries are rich. Others, **on the other hand**, are poor.

On the one hand, she very much wants to go abroad for her university education.

On the other hand, she knows that her family will have difficulty affording it.

(Çok müşkül bir durumda ve ne yapacağını bilemiyor. **Bir yandan**, yurt dışında okumayı çok istiyor. **Öte yandan**, ailesinin bunu karşılamak için zorlanacağını biliyor.)

In contrast, iki nesneyi karşılaştırırken kullanılır ve tam bir karşıtlık ifade eder.

Southern Turkey has hot, humid summers. Northern Turkey, **in contrast**, has summers which are cool and windy.

In contrast to/with, prepositional phrase'dir. Kendinden sonra isim gelir.

In contrast to his sister, Jack is a very tidy boy.

(Kızkardeşinin aksine, Jack çok düzenli bir çocuktur.)

On the contrary de bu grupta yer alır ancak kullanımı çok kısıtlıdır. **On the contrary**, söylenen bir ifadenin doğru olmadığını, tam tersi bir durumun söz konusu olduğunu ifade eder. Özellikle **on the other hand** ile **on the contrary** birbirine karıştırılır. Aradaki ayrımı şu örneklerle inceleyelim:

You say she is very beautiful. I, **on the contrary**, find her rather ugly.
(Onun çok güzel olduğunu söylüyorsun. Aksine ben onu çok çirkin buluyorum.)

Sue: It's very cold today.

Jack: It's not very cold today. **On the other hand**, it is not warm either.
(Bugün hava çok soğuk değil, ama ılık da değil.)

Quite the contrary, "on the contrary" ile aynı anlamı verir, ancak kullanılış biçimi açısından farklılıklar vardır.

Quite the contrary iki biçimde kullanılabilir:

1. Olumlu ya da olumsuz bir ifadeyle kesinlikle hemfikir olmadığını belirtirken,
2. Olumsuz bir ifadeyle tamamen hemfikir olduğunu belirtirken

- He's pretty clever. (*disagree with a positive statement*)

10-8 REDUCTION of ADVERBIAL CLAUSES to MODIFYING PHRASES

Bir zarf tümceciğini sözcük öbeği biçiminde kısaltabiliriz. Kısaltma yapabilmenin temel koşulu, yan cümle ile temel cümledeki öznenin aynı olmasıdır. Özneler farklı ise kısaltma yapamayız.

Ancak, "considering, following, taking into account, seeing that" gibi yapılarla ve çok genel ifadeler içerdiği zaman **when + doing** yapısıyla öznelerin aynı olması gerekmez.

Considering the actors' performances, the film was below my expectations.
Following the headmaster's speech, the students will be allowed into the classrooms.

When travelling in a foreign country, it's best to carry traveller's cheques rather than cash.

Kısaltma yapabileceğimiz bağlaçlar ve kısaltma biçimleri şöyledir:

a) After, before, while

Active: **While I was reading a book** last night, I fell asleep.
While reading a book last night, I fell asleep.
Reading a book last night, I fell asleep.

Passive: **While it was being carried**, the table got broken.
While being carried, the table got broken.

I did a lot of sightseeing **while I was on holiday in Antalya**.

Active: **After we ate/had eaten dinner**, we went out for a walk.
After eating/ After having eaten dinner, we went out for a walk.
Having eaten dinner, we went out for a walk.

Passive: **After he was/had been promoted**, he became more interested in his job.

Active: **Before she came to this city**, she lived in the country.
Before coming to this city, she lived in the country.

Passive: **Before she was elected Prime Minister**, she worked as a university teacher.

Before being elected Prime Minister, she worked as a university teacher.

(Note: Kısaltma yaparken "before" atılamaz.)

b) When

When, arka arkaya yapılmış eylemleri ifade eden iki cümleyi bağlıyorsa; active cümlede **when + clause** yerine **on/upon + doing** kullanılır.

When she finished her report, she left the office.
On/upon finishing her report, she left the office.

Passive cümlede ya da "be" fiilinin asıl fiil olduğu cümlede, özne ve "be" fiili atılır; **when + past participle/a noun/adjective** kullanılır.

When he was a young man, he was very ambitious.
When a young man/When young, he was very ambitious.

When they are used too often, sedative drugs may cause addiction.
When used too often, sedative drugs may cause addiction.

When, bazı cümlelerde "while" anlamında kullanılır. Yani temel cümle ile yan cümledeki eylemler aynı zamanlıdır. Bu durumda kısaltma, **when + doing** biçiminde yapılır.

When you are travelling abroad, make sure you have traveller's cheques with you.
When travelling abroad, make sure you have traveller's cheques with you.

c) Until, since

Until, active cümlede de kısaltılabilir, ancak passive cümlelerde kısaltma daha yaygındır.

Until I went to Australia, I had never seen a kangaroo.
Until going to Australia, I had never seen a kangaroo.

Prepositions must be studied *until they are learnt* by heart.

Since, "...den beri" anlamındaysa **since + doing/being done** biçiminde kısaltılır.

Since it was occupied by the USA, Iraq has gone from bad to worse.

d) Because, as, since

Neden-sonuç ilişkisi bildiren clause'larda **as, since, because** gibi bağlaçlar atılarak **doing – being done/having done – having been done** kullanılır.

Because she is married now, she has more responsibilities.
Being married now, she has more responsibilities.

Since she was tired, she went to bed early.
Being tired, she went to bed early.

Eğer adverbial clause'daki eylem temel cümledeki eylemden önce gerçekleşmişse, **having done/having been done** kullanılır.

Because I sprained my ankle yesterday, I now have difficulty walking.
Having sprained my ankle yesterday, I now have difficulty walking.

Because I had sprained my ankle, I could hardly walk.
Having sprained my ankle, I could hardly walk.

Because he had been transferred to a remote branch, he resigned.

Perfect Participle phrase (*having done/having been done*), Türkçe'ye, *because, after, when* ve bazen de *relative clause* yapısında çevrilebilir.

1. First, the students finally graduated from university.
2. Then, the students had a big party to celebrate their graduation.
3. Then, the students woke up quite late the following morning.

Yukarıdaki cümleler, aynı özneler tarafından gerçekleştirilmiş eylemleri ifade etmektedir. Vurguladığımız öğeye göre bu üç cümleyi birkaç şekilde bağlayabiliriz.

After/When the students had finally graduated from university, they had a big party to celebrate their graduation; and after they had had the party, they woke up late the following morning.

Because the students had finally graduated from university, they had a big party to celebrate their graduation; and because they had had a big party, they woke up late the following morning.

The students, **who** had finally graduated from university and (had) had a big party to celebrate their graduation, woke up late the following morning.

Bu cümlelerin hepsini, **perfect participle phrase** kullanarak aynı biçimde kısaltabiliriz. **Phrase** cümlelerin başında, öznenin sonra, ya da cümlelerin sonunda yer alabilir.

Having finally graduated from university and (**having**) **had** a big party to celebrate their graduation, the students woke up late.

The students, **having finally graduated from university and (having) had** a big party to celebrate their graduation, woke up late.

(Sekiz saatten fazla yolculuk yapmış olan/yaptıkları için/yaptıktan sonra/yapınca yolcular bitkin düştüler.)

Adverbial clause'da **be + adjective** kullanılmışsa, bu yapıyı **being + adjective** ya da sadece **adjective** biçiminde kısaltabiliriz.

Because she is responsible for opening the office, she has to be there early.

Being responsible for opening the office, she has to be there early.

Neden-sonuç ilişkisi bildiren cümlelerde, temel cümleyle yan cümlelerin özneleri farklıyken de kısaltma yapmak mümkündür. Ancak kısaltmada her iki cümlelerin de öznesini belirtmek gerekir. Örnekleri inceleyiniz:

"Good Morning."

(from Reader's Digest)

10-9 CONTINUING THE SAME IDEA

Herhangi bir konuda belirttiğimiz bir görüşe ilave yaparken "also" anlamında **moreover**, **what is more**, **furthermore**, **in addition** ve **besides** kullanırız. Bu sözcükler "ayrıca, yanı sıra, ilaveten" anlamlarını verir. Bu yapıları kullanırken dikkat etmemiz gereken nokta, önce belirttiğimiz ifade ile çelişmeyen görüşler ilave etmemizdir. Yani bir şeyin iyi bir özelliğini belirtmişsek, bir başka iyi özelliğini ekleyebiliriz.

I want to rent that house. It's very large, with four rooms.

Moreover, it has a wonderful sea view.

What is more,

Furthermore,

In addition,

Besides,

Running a big car has certain disadvantages.

First of all, it's expensive to run because it uses more petrol than the smaller models; **moreover**, it's difficult to park.

what is more,

furthermore,

in addition,

besides,

In addition to ve **besides**, preposition olarak kullanılır ve kendilerinden sonra isim gelir.

In addition to/Besides her beauty, she has intelligence and charm.

A well-balanced diet should contain other nutrients **in addition to/besides** vitamins and proteins.

In addition to/Besides working in an office during the day, she is attending evening classes to improve her secretarial skills.

NOTE

Beside ve **besides** arasındaki ayrımı dikkat ediniz.

Beside, "next to" anlamında bir preposition'dır.

Their house is **beside** the sea. (Onların evi deniz kenarında.)

She sat **beside** me at the meeting. (O, toplantıda benim yanımda oturdu.)

Besides, "ilaveten, yanı sıra" anlamını veren bir preposition'dır.

Istanbul (also) has lots of natural attractions **besides** its historical places.
(Tarihi yerlerin yanı sıra İstanbul'un pek çok doğal güzellikleri de vardır.)

NOTE

"**Besides**" bazen "except (for)" ve "apart from" ile karıştırılmaktadır. Aralarındaki anlam ve kullanım farkları için örnekleri inceleyiniz.

Yukarıda da değindiğimiz gibi, **besides**, belirtilen bir özelliğe aynı doğrultuda bilgi ilave etmek için kullanılır: olumlu bir özelliğe olumlu; olumsuz bir özelliğe olumsuz ilave yapmak gibi. Bu nedenle, "de, da" anlamını veren "also" ile birlikte çok sık kullanılır.

Besides Spanish, she (also) speaks Portuguese and Catalan.
(= She speaks Spanish; she also speaks Portuguese and Catalan.)
(İspanyolca'nın yanı sıra, Portekizce ve Katalanca da konuşuyor.)

Except (for) "hariç, dışında" anlamını verir ve sözü edilen öğeyi dışında tutar.

She's amazing! She speaks all of the Romance languages **except (for)** French.
(= She doesn't speak French, but she speaks all the other Romance languages.)

Yukarıdaki cümleyi Türkçe'ye, "Fransızca hariç/dışında, bütün Roman dillerini konuşabiliyor." biçiminde çevirebiliriz. Ancak Türkçe'de "dışında" ifadesi çok net değildir ve bazen "yanı sıra" anlamına da gelmektedir. Fakat, İngilizce'de "**except (for)**" "belirtilen öğe dahil değil" anlamını verir.

Apart from "dışında/hariç", "dışında/yanı sıra" anlamlarının her ikisini de vermektedir. Sözü edilen öğenin "dahil" mi yoksa "hariç" mi olduğu genellikle konuşmanın akışından çıkarılır.

Apart from English, she (also) speaks German and French.
(= She speaks English; she also speaks German and French.)

(İngilizce dışında/İngilizce'nin yanı sıra, Almanca ve Fransızca da konuşuyor.)

"No/nothing/nobody" gibi olumsuz anlam taşıyan sözcüklerle kullanıldığında, "**besides, except for, apart from**", üçü de aynı anlamı verebilir.

Nobody **besides/except (for)/apart from** Dave actually came yesterday.
He is interested in almost nothing **besides/except (for)/apart from** his job.
(İşi dışında/İşinden başka, neredeyse hiçbir şeyle ilgilenmiyor.)

10-10 INVERSION

Inversion "cümle içinde bir sözcüğün yerini değiştirmek" anlamına gelir. İngilizce'de bu yer değiştirme genellikle cümlenin öznesini ve yüklemine etkiler ve elde edilen cümle "devrik cümle" olur.

Inversion çeşitli biçimlerde yapılabilir. Yaygın kullanımları şöyle sıralayabiliriz.

1. Negative Exclamations

Olumsuz soru biçimindeki bazı cümleler aslında soru değil, ünlem cümlesidir ve devrik yapıdadır.

Hasn't your little boy *grown* since I last saw him!
Doesn't she *have* beautiful eyes!
Aren't you selfish!

2. Short Answer Agreement with "so/neither/nor"

Kısa cevaplarda kullanılan "so", "neither" ve "nor", sadece yardımcı fiil kullanılarak yapılan devrik cümle yapısıdır.

- I think Pelé was a better player than Maradona.
- So do I.

- I can't stand cold coffee.
- Neither can I.

"Nor", bağımsız iki olumsuz cümleyi bağlarken de devrik cümle yapısı kullanılır.

She didn't have any money, and she didn't know anyone she could borrow some from.
She *didn't have* any money, *nor did she know* anyone she could borrow some from.

Aynı kullanım "neither" ile de mümkündür, ancak "neither" dan önce "and" kullanmak gerekir.

My wife and I can't stand opera, and none of our friends can *either*.
My wife and I can't stand opera, *and neither can* any of our friends.

Bağımsız iki olumlu cümleyi bağlarken "so" kullanılır, ancak "neither" da olduğu gibi, "so" dan önce "and" kullanmak gerekir.

He was born in Hull, and his father was *too*.
He was born in Hull, *and so was* his father.

3. Wishes with "May"

İngilizce'de dilek, iletme vb. duyguları ifade eden ve "may" ile başlayan bazı deyimler aslında devrik cümle yapısındadır

May you always *be* happy!
May the road rise to meet you! (Irish toast)
May God bless you!

4. Restrictive/Limiting/Negative Adverbs and Adverbial Phrases

Aşağıdaki yapıların hepsi, kısıtlama, sınırlama bildiren ya da olumsuz anlam taşıyan yapılarıdır. Bu yapılar cümlenin başında yer aldığı zaman cümle devrik olur.

a) **hardly ever/scarcely ever/barely ever/seldom/rarely**

Bu sözcüklerin hepsi temelde aynı anlama sahiptir. Ancak "barely ever" devrik cümle yapısında pek kullanılmaz.

He *hardly ever talks* to me.
Hardly ever does he talk to me.

I *scarcely ever* actually *use* my mobile phone.
Scarcely ever do I actually *use* my mobile phone.

We *seldom went* on holiday when I was a child.
Seldom/Rarely did we go on holiday when I was a child.

b) hardly ... when/scarcely ... when/barely ... when/no sooner ... than

Bu kalıpların hepsi hemen hemen aynı anlamı verir. *Past Perfect/Past Simple* kombinasyonu en yaygın kullanımdır, ancak diğer tense'lerle de kullanılabilirler. "**Barely ... when**" kalıbının devrik cümlede kullanımı pek yaygın değildir.

They *had hardly/scarcely entered* the building *when* the fire alarm went off.
Hardly/Scarcely had they entered the building *when* the fire alarm went off.

He *had no sooner broken up* with Linda *than* he fell in love with another girl.
No sooner had he broken up with Linda *than* he fell in love with another girl.

c) on no account, in/under no circumstances (in/under any circumstances)

"**In/under any circumstances**" devrik cümle yapısıyla kullanılmaz. Olumsuz bir fiille düz cümle biçiminde kullanılır. Devrik cümle yapmak için "**in/under no circumstances**" kullanılır.

You should not, *under any circumstances*, place your finger into an electrical socket.
Under no circumstances should you place your finger into an electrical socket.

You are *on no account* to open any of these presents until Christmas morning.
On no account are you to open any of these presents until Christmas morning.

d) Expressions beginning with "only"

i) only by + verb/only with + noun

ii) only in this way/only like this/only thus, etc.

.....as he is despised by so many, *only in this way was it* possible for him to win.

iii) only then/once/etc.

Only when he'd written "Nitric acid is not a toy," on the board 100 times *was Bart Simpson allowed* to go home.

The Cambodian leader Pol Pot was a murderous dictator, **as was** his Ugandan contemporary Idi Amin.

She is a much better swimmer **than is** her brother.

"Than" ile yapılan karşılaştırmalarda, düz cümle kullanmak da mümkündür. Cümlelerin yüklemi "be" fiili ise genellikle ikinci tarafta fiil kullanılmaz.

I'm a lot more patient with children **than my sister is**.

"Than" ile karşılaştırma yaparken, devrik cümle kullanımı, ancak iki taraftaki özneler farklıysa mümkündür.

("I play the flute much better now **than did I** five years ago." yanlış bir ifade olur.)

6. After Adverbial/Prepositional Expressions of Place

EXERCISE 26: Fill in the blanks in the passages below with the correct choice.

One of the most notable directors of action and science fiction motion pictures, James Cameron wrote and directed the movie "Titanic", an epic film that, despite its running time of three hours, became one of the biggest-grossing films in American film history. "Titanic" was Cameron's first attempt (1) making a historical drama. He spent three years (2) the film; researching, writing, producing, directing and editing it. His complete involvement (3) the filmmaking process and his insistence (4) maintaining historical accuracy down to even the minutest detail reinforced his reputation (5) being a perfectionist. He even had a detailed model of the ship built almost to scale. Such expenditures contributed (6) making "Titanic", (7) a final production cost of more than 200 million dollars, the most expensive motion picture made (8) that point. After months of bad publicity generated by the large budget and several postponed release dates, the film opened to record sales and critical acclaim (9) December 1997. One month later, Cameron won the Golden Globe award (10) best director.

(11) the 1930s the Tennessee River was virtually uncontrollable. In dry seasons it shrank (12) a mere trickle, and (13) heavy rainfall, it flooded lowlands and washed away fertile soils. Croplands were continually eroded, and very little effort was made (14) soil conservation. Although the Tennessee Valley was rich (15) natural resources, its inhabitants remained poor, and the area was almost totally devoid (16) industrial development. To help lift the region (17) poverty, a corporation named the Tennessee Valley Authority (TVA) was created by the United States government (18) May 18, 1933. Its chief purpose was to harness the Tennessee River and its tributaries for flood control and navigation. A second purpose was to bring electrification to the area. (19) the last few decades, TVA has been successful (20) both, but the secondary purpose – electrification – soon assumed primary significance. In bringing electricity to the seven-state area it serves, the TVA is now the largest utility firm in the United States.

A mythological king of Phrygia, Midas has become a symbol of foolish greed. He once did a favour (21) the god Dionysus, and Dionysus promised to grant him anything he wanted. According to the story, Midas asked that everything he touched might turn (22) gold. The request was granted, but the king soon regretted it when he found that this applied even (23) his food. Thus he had to ask Dionysus to take the gift (24)

(25) another occasion, Midas judged a musical contest (26) Pan and Apollo. He awarded the prize to Pan, and in revenge, Apollo gave him a pair of ass's ears. Midas hid his ass's ears (27) a cap, but his barber discovered the secret. The barber longed to tell but was afraid (28) the king. Finally he dug a hole in the ground and whispered (29) it: "*King Midas has ass's ears.*" A reed grew from this hole, and when the wind blew, the reed whispered the secret (30) everyone.

UNIT 12

Phrasal Verbs

INTRODUCTION

Phrasal verb, bir fiil köküyle bir *adverbial particle*'dan oluşur ve türediği fiil kökünden farklı bir anlam taşır. Örneğin "take" fiili "almak, götürmek" anlamındadır. Ancak "take off", "uçanın havalanması" ya da "bir giysiyi çıkarmak" anlamlarını veren farklı sözcüklerdir.

Parents should **bring up** (raise) their children properly. (*phrasal verb*)
Do you think this blouse will **go with** (match/suit) my checked skirt? (*phrasal v.*)

Prepositional verb "verb + preposition" biçiminde oluşur. Ancak, *preposition* eklendiği zaman fiilin anlamı değişmez. *Preposition*'ın buradaki görevi yönelme bildirmek ya da fiilden nesneye geçişi sağlamaktır.

She is **waiting for** her boyfriend. (*prepositional verb*)
He **listened to** the news very carefully. (*prepositional verb*)

Bazı **phrasal verb**'lerde (*transitive phrasal verbs*), fiil kökü ile *particle* arasına nesne girebilir. **Prepositional verb**'lerde ise, fiil ile *preposition*'ın arasına nesne giremez. Ancak, *briefly, angrily, suspiciously, etc.* gibi durum bildiren zarflar girebilir.

Parents should **bring** their children **up** properly. (*phrasal verb*)

I **looked at** the timetable. (*prepositional verb*)
I **looked** briefly **at** the timetable.

12-1 PHRASAL VERBS: TRANSITIVE or INTRANSITIVE

Phrasal verb'leri **transitive** (*geçişli*), yani nesne alabilen, ve **intransitive** (*geçişsiz*), yani nesne almayan fiiller olarak iki grupta inceleyebiliriz.

12-2 TRANSITIVE PHRASAL VERBS

Transitive phrasal verbs, nesne alabilen fiillerdir.

She **turned** the television **off**.

They **turned down** my offer. (*transitive*)
They **turned** my offer **down**.

b) Bazı **transitive phrasal verb**'lerde ise fiil köküyle *particle* birbirinden ayrılamaz.

He **got over his illness** remarkably quickly.
I **came across an old friend** the other day.

c) Araya nesne alabilen phrasal verb'lerde nesne *me, it, them, you, etc.* gibi bir pronoun ise, bu nesne *particle*'dan sonra kullanılamaz. Mutlaka fiil ile *particle* arasında yer almalıdır.

She **turned it off**.
They **turned him down**.
I'll **think them over**.

d) Ancak, bölünemeyen phrasal verb'lerde, nesne bir pronoun da olsa, yeri değişmez. Yine *particle*'dan sonra gelir.

He **got over it** remarkably quickly.
I **came across him** the other day in a cafe.

12-3 INTRANSITIVE PHRASAL VERBS

Intransitive phrasal verbs, nesne almayan fiillerdir.
